**Report of Esoteric Committee on Preparation
of Multiple-Letter Cipher of Wisconsin**

The Esoteric Committee is a standing committee of the Grand Lodge of Wisconsin consisting of the District Lecturers in each district, and the Grand Lecturer as chair.

It was the goal and desire of this committee to improve upon the former multi-letter cipher, revised June 10, 1975. Grateful appreciation is extended to the members of the 1975 committee consisting of Ralph F. Knowlton, GL, No. 322; Denman G. Kramer, PGM, No. 113; Carl W. Skoog, PGM, No. 307; and Karl A. Crane, No. 13.

Recognition of the committee who produced the original single-letter cipher is extended to Ernest R. Hiegel, GL, No. 45; William J. Kahlenberg, PGM, No. 200; Paul W. Grossenbach, HPGM, No. 265; Nathan L. Breslauer, No. 80; and Clinton L. Peterson, No. 45, with much help from brothers Donald Kowalke, Roger Fiebig, Francis Matson, Wesley Denny, Glenn Kidd, and Clifford Seabern.

The 1998 Revised Edition prepared by the Esoteric Committee; Craig S. Campbell, Grand Lecturer, Chairman.

Special Recognition and thanks to the following:

<u>Masonic Jurisprudence</u>	1
It is essential that all Masons, especially Officers of	2
Lodges, should be well grounded in Masonic Law and	3
well informed in regard to the customs and usages of	4
the Craft. This knowledge may best be obtained by a	5
thorough reading and study of the "Constitution, Laws,	6
and Edicts of the Grand Lodge," the By-Laws of the	7
Constituent Lodges and by conversation with well	8
informed brethren.	9
<u>A Mason's Duty</u>	10
The duty devolves upon every Mason, no matter what	11
his occupation, to preserve the reputation of the	12
Fraternity unsullied. If the conduct of an individual	13
member tends to bring Masonry into disrepute or to	14
injure the Institution, such conduct is unmasonic and	15
should not be allowed to remain unnoticed.	16
<u>Opening</u>	17
1. Congregate: When the Worshipful Master	18
signifies his intention to proceed, every brother must	19
assume his necessary Masonic clothing and be seated.	20
Officers obtain their respective jewels and repair to	21
their appropriate stations and places.	22
2. Tile: Ascertain if the external avenues of the	23
Lodge are securely guarded.	24
3. Purge: Ascertain, in an appropriate manner, the	25
right of each one to be present.	26
4. Lecture: When inquiry is made of the proper	27
officers as to their knowledge of the lectures and of the	28
duties they will be called upon to perform, certain	29
mystic rites are employed by which each brother	30

signifies his concurrence in the ceremonies and his
knowledge of the degree in which the Lodge is opened.

Avouchment and Examination

The following Code Regulation will apply:

85.01 Requirement. "The sole requirement for
admission to a lodge shall be presentation by the visitor
seeking admission of a current official uniform receipt
card for dues or other current dues card from the Grand
Jurisdiction of which the visitor is a member or a demit
less than two years old, and such further evidence as
may be satisfactory to the Worshipful Master."

The last part of the above code regulation would
indicate that the Master should assure himself that the
visitor is the rightful owner of the dues card he is
presenting.

Since a suspended Mason cannot enjoy the right of
visitation, it may be in order, on occasion, to administer
the Test, or Tiler's Oath, which is as follows:

"I, John A. Doe, do hereby and hereon solemnly
and sincerely swear that I have been regularly initiated,
passed, and raised to the sublime degree of Master
Mason in a regularly constituted Lodge of such; that I
am not now under sentence of suspension or expulsion
and know of no just reason why I should not hold
Masonic intercourse with my brethren. So help me
God."

It should ever be borne in mind that a visiting
brother should at all times be treated with truly
Masonic and brotherly courtesy.

Preparation of Candidate

Before the candidate is prepared for the first degree, he must give unequivocal answers to the Constitutional Questions propounded by the Senior Deacon, which shall be committed to memory. Junior Deacon's address shall also be committed to memory.

During the preparation of a candidate ONLY the Junior Deacon and Stewards should be in the preparation room with him. Levity and jesting have no place in the beautiful ceremonies of Initiating, Passing, or Raising. Remember! First impressions are usually lasting ones. Each officer and member of the Lodge should see to it that the right impression is made.

In EA: Left knee exposed, c-t around neck.

In FC: Right knee exposed, c-t twice around exposed right arm.

In MM: Both knees exposed, c-t thrice around body. Note: In all degrees, both slippers are used.

Assurance

It is a duty incumbent on every Master of a Lodge, before the full ceremony of Initiating, Passing, or Raising takes place, to explain to the candidate the nature of his solemn engagements, and, in a manner peculiar to Masons alone, to require his cheerful acquiescence.

Square & Compasses

In the EA degree, they are placed on the left, Square above. In the FC degree, they are placed on the right, the S point of the Compasses above the Square. In the MM degree, they are on the right, Compasses above.

Public Grand Honors

The public Grand Honors are given in the following manner: Both arms are crossed on the breast, the left uppermost, and the open palms of the hands touching the shoulders; they are then raised above the head, the palms touching each other, and then made to fall quickly upon thighs. This movement is made three times. The hands are brought together on the shoulders, over the head, and at thighs without sound.

Funeral Grand Honors are given in same way.

Information for Officers

The floor work in the Opening, Closing, and First Section of the Degrees is of a precise and exact nature, as contrasted to the greater latitude permitted in the Second Section.

The separate parts of a complete movement, including verbal portions, are presented herein in chronological order, and it is important that they be presented in the sequence listed.

All movements should be made in a deliberate manner, allowing time for completion thereof, but without unduly prolonging the same.

Officers should sit in their respective chairs in a dignified position, both feet on the floor, legs not crossed, and with hands resting on the chair arms if any.

An Officer will be dismissed by the Senior in Rank being seated, however, in certain circumstances, such as in saluting the Wardens, he will be dismissed by the Warden with a nod.

In moving about the Lodge, care should be taken

that path of movement will be in straight lines, and
that changes of direction will be at right angles of
ninety degrees, following the teaching of right angles,
horizontals and perpendiculars, except when otherwise
authorized in the text, explanation or diagram.

Before lights are displayed, an Officer, when
addressed by a Senior in Rank, will rise if he is seated,
without giving salute or response.

After lights are displayed, when WM, seated or
standing, addresses an Officer, he will rise, if seated,
and give the DG & S simultaneously with title, "WM,"
except as otherwise shown.

After lights are displayed, an Officer, when
addressed by one Senior in Rank, other than the
WM, seated or standing, will rise if seated, without
giving salute or response.

When an Officer addresses the WM, he rises if
seated, gives the DG & S simultaneously with giving
the title, "WM," and waits until the WM gives
acknowledgment by speaking the title of the Officer
before continuing. Exceptions to this rule, provided in
text, cover the giving of a report previously requested.

The floor work and diagrams herein are presented
for a Lodge room of a conventional layout, (see F-1);
however, should it not be possible to follow the work
as herein presented, any deviation necessary shall be
of such a nature as to cause the least amount of
confusion and shall return to the work prescribed at
the earliest opportunity.

Figures 59 through 77 inclusive illustrate the

movements to, at and from the respective doors, when
the ID and OD are interchanged as in a so-called
"Left-hand" Lodge room."

Advancement after Objection

According to our Masonic Code, only one objection
can be entertained in each of the three degrees on a
particular candidate. If the candidate is successful in
passing the ballot box after objection is made in any
degree, then any reference to an "objection" is
omitted from the opening statement in the first section
of that particular degree.

Proficiency and Ritualist Cards

The purpose of these cards is to formally recognize
outstanding achievement in the learning and performing
of our esoteric ritual. Also, a Proficiency Cardholder is
eligible, at the direction of the Grand or District
Lecturer, to instruct in any lodge. In addition, all
Proficiency Cardholders are entitled to serve as judges
at the Masonic Degree Competition.

A "Proficiency Card" is issued to any member who
commits to memory the complete esoteric portions of
all three degrees. More accurately stated, a member is
considered proficient if he is able to speak and perform
every position in all three degrees, including the 2nd-
section lectures, opening, closing, calling up and down,
and reception of Grand Lodge Officers.

A "Ritualist Card" is issued to any member who
achieves the level of proficiency stated above, but in
only one or two of the degrees. Also, at the option
of the Grand or District Lecturer, to any brother who

memorizes the posting and conducts the exam in open lodge. 1
2

It is a logical progression that a brother will achieve proficiency in a degree, thus receiving his Ritualist Card for that degree; then move on to the next degree; then finally becoming a "Proficiency Man" upon completion of the third degree. 3
4
5
6
7

The Grand or District Lecturer (or his appointee) will examine you to approve your qualifications to receive any of the cards listed. Simply contact them, your Area Administrator, or your District Deputy to indicate your desire to be approved to receive the card. 8

Suggested Work Assignments 13

Brethren always remember that the first duty of a Lodge is to make good Masons, and this can best be done by doing good degree work. It is, therefore, the responsibility of the Master to call rehearsals when and as often as he feels is necessary. Proficiency Men and Ritualists should be called in when needed. 14

JD Address		11
JD -- In anteroom, from memory	"Mr. B., the institution of which you are about to become a member is one by no means of a light and trifling nature, but of high importance and deep solemnity. Third Section -- EA

WM -- "The third section of this degree relates more particularly to the lodge. It explains its form, supports, covering, furniture, ornaments, lights and jewels, how situated, and to whom dedicated."

"A lodge is composed of a constitutional number of Masons duly assembled with the Holy Bible, Square, and Compasses, and a Charter or Warrant empowering them to work."

"Our Ancient Brethren were accustomed to meet on a high hill or in a low vale, the btr t grd agt the apr o cws a evd etr asg o ddg."

Form of a Lodge

"The form of a lodge is an oblong square, extending from east to west and between the north and south, from the center to the surface, and from the earth to the highest heavens. It is said to be thus extensive to denote the universality of Masonry, and that Masonic Charity should be equally extensive."

Supports

"It is supported by three great pillars, denominated Wisdom, Strength, and Beauty; because it is necessary that there should be wisdom to contrive, strength to support, and beauty to adorn all great and important undertakings."

"These pillars are represented by the three principal officers of the lodge, the WM, S a JW's."

Covering

"The covering of a lodge is the clouded canopy or
starry-decked Heaven, where all good Masons hope at
last to arrive by the aid of that mysterious ladder
which Jacob in his vision saw extending from earth to
Heaven, the three principal rounds of which are
denominated Faith, Hope, and Charity; and admonish
us to have Faith in God, Hope in immortality, and
Charity to all mankind."

"The greatest of these is Charity; for our Faith
will be lost in sight, Hope ends in fruition, but Charity
extends beyond the grave through the boundless realms
of eternity."

Furniture

"The furniture of a lodge is the Holy Bible, Square
and Compasses. The Bible is dedicated to God, the
Square to the Master and the Compasses to the Craft."

"The Bible is dedicated to God, it being the
inestimable gift of God to man, a o wch w ogt a nwy

"The Square to the Master, it being the proper

him of the duty he owes to the lodge over which he is
elected to preside."

"And the Compasses to the Craft, for by a due
attention to their use they are taught to circumscribe
their desires and keep their passions within due
bounds with all mankind."

Ornaments

"The ornaments of a lodge are the Mosaic
Pavement, the Indented Tessel, and the Blazing Star."

"The Mosaic Pavement is a representation of the
ground floor of King Solomon's Temple; the Indented
Tessel, of that beautiful tessellated border or skirting
which surrounded it."

"The Mosaic Pavement is emblematic of human
life, checkered with good and evil; the beautiful border
which surrounds it, of those blessings and comforts
which surround us, and which we hope to obtain by
a faithful reliance on Divine Providence which is
hieroglyphically represented by the Blazing Star in
the center."

Jewels

"A lodge has six Jewels -- three immovable and
three movable."

Third Section -- EA

"The immovable Jewels are the Square, Level, and Plumb. The Square teaches morality, the Level equality, and the Plumb rectitude of conduct."

"The movable Jewels are the Rough Ashlar, the Perfect Ashlar, and the Trestleboard."

"The Rough Ashlar is a stone taken from the quarry in its rude and natural state. The Perfect Ashlar is a stone made ready by the hands of the workman to be adjusted by the working tools of the Fellowcraft. The Trestleboard is for the master workman to draw his designs upon."

"By the Rough Ashlar we are reminded of our rude and imperfect state by nature. By the Perfect Ashlar, of that state of perfection at which we hope to arrive by a virtuous education, our own endeavors and the blessing of God. And by the Trestleboard we are also reminded that as the operative workman erects his temporal building agreeably to the rules and designs laid down by the master on his Trestleboard, so should we, both operative and speculative, endeavor to erect our spiritual building agreeably to the rules and designs laid down by the Supreme Architect of the Universe in the Great Book of nature and Revelation, which is our spiritual, moral, and Masonic Trestleboard."

Lodges -- How Situated

"All lodges are, or ought to be, situated due east and west, because King Solomon's Temple was so situated. King Solomon's Temple was so situated because, after Moses had safely conducted the

Third Section -- EA

Children of Israel through the Red Sea, when pursued
by Pharaoh and his hosts, he, by Divine command,
erected a tabernacle and situated it due east and west
to perpetuate the remembrance of that remarkable east
wind which wrought their mighty deliverance, and
likewise the better to receive the rays of the rising
sun. As this tabernacle was a model for King
Solomon's Temple, so ought all lodges to be situated
due east and west."

Dedication

"Lodges were anciently dedicated to King Solomon,
who was said to have been our first Most Excellent
Grand Master. But Masons in modern times dedicate
theirs to St. John the Baptist and St. John the
Evangelist, who were said to have been two eminent
Christian patrons of Masonry; and since their time,
there is, or ought to be, represented in every regular
and well-governed lodge a certain Point within a Circle.
The Point representing an individual brother, the Circle
the boundary line of his duty, beyond which he is
never to suffer his passions or prejudices to betray
him. This Circle is embordered by two perpendicular
parallel lines, representing St. John the Baptist and St.
John the Evangelist; upon the top rest the Holy
Scriptures. In passing around this circle, we necessarily
touch upon both lines, as well as upon the Holy
Scriptures, and while a Mason keeps himself thus
circumscribed, it is impossible that he should materially
err."

Third Section -- EA

Tenets

"The tenets of our profession are Brotherly Love, Relief, and Truth."

Brotherly Love

"By the exercise of Brotherly Love we are taught to regard the whole human species as one family -- the high and low, the rich and poor; who, as created by one Almighty Parent and inhabitants of the same planet, are bound to aid, support, and protect each other. On this principle Masonry unites men of every country, sect, and opinion, and conciliates true friendship among those who might otherwise have remained at a perpetual distance."

Relief

"To relieve the distressed is a duty incumbent on all men, but more particularly on Masons, who are linked together by an indissoluble chain of sincere affection. To soothe the unhappy, to sympathize with their misfortunes, to compassionate their miseries, and to restore peace to their troubled minds is the grand aim we have in view. On this basis we form our friendships and establish our connections."

Truth

"Truth is a Divine attribute and the foundation of every virtue. To be good men and true is the first lesson taught in Masonry. On this theme we contemplate and by its dictates endeavor to regulate our conduct. Hence, while influenced by this principle, hypocrisy and deceit are unknown among us; sincerity and plain dealing distinguish us, and the heart and

Third Section -- EA

tongue join in promoting each other's welfare and
rejoicing in each other's prosperity."

"Were I to ask you how I should know that by a Master, your answer should be: 'By ceremony, a token, a word, and the points of me etc.' The ceremony, a word having already been explained by the Apprentice; in new remarks from the Entered Apprentice the points of your etc, which are four: the G, P, M and P; and they allude to the four cardinal virtues: Temperance, Fortitude, Prudence, and Justice."

Temperance

"Temperance is that due restraint upon our affections and passions which renders the body tame and governable and frees the mind from the allurements of vice. This virtue should be the constant practice of every Mason, as he is thereby taught to avoid excess or contracting any licentious or vicious habit, the indulgence of which might lead him to disclose some of those valuable secrets which he has promised to conceal and never reveal, and which would consequently subject him to the contempt and detestation of all good Masons, in that the secret is not only given to the Entered Apprentice, but also to the G."

Fortitude

"Fortitude is that noble and steady purpose of the mind whereby we are enabled to undergo any pain, peril, or danger, when prudentially deemed expedient. This virtue is equally distant from rashness and cowardice, and like the former, should be deeply impressed upon the mind of every Mason as a safeguard or security against any illegal attack that may be made by force or otherwise to extort from him

Prudence

"Prudence teaches us to regulate our lives and
actions agreeably to the dictates of reason, and is that
habit by which we wisely judge and prudentially
determine on all things relative to our present as well
as to our future happiness. This virtue should be the
peculiar characteristic of every Mason, not only for
the government of his conduct while in the lodge, but
also when abroad in the world. It should be particularly
attended to in all strange and mixed companies, never
to let fall the least Sign, Token, or Word whereby the
secrets of Masonry might be unlawfully obtained,

Justice

"Justice is that standard or boundary of right
which enables us to render to every man his just due
without distinction. This virtue is not only consistent
with Divine and human laws, but is the very cement
and support of civil society; and as justice in a great
measure constitutes the really good man, so should it
be the invariable practice of every Mason, never to

WM -- "As you are now introduced into the first principles of
Freemasonry, we congratulate you on being accepted
into this ancient and honorable Fraternity -- ancient, as
having subsisted from time immemorial; and honorable,
as tending, in every particular, so to render all men who
will be conformable to its precepts. No institution was
ever raised on a better principle or more solid
foundation, nor were ever more excellent rules and
useful maxims laid down than are inculcated in the
several Masonic lectures. Many of the greatest and
best men in all ages have been encouragers and
promoters of the Art and never deemed it derogatory
to their dignity or profession to level themselves with
the Fraternity, extend their privileges and patronize
their assemblies."

"There are three great duties which, as a Mason,
you are charged to inculcate: to God, your neighbor,
and yourself. To God, in never mentioning His name
but with that reverential awe which is due from a
creature to his Creator; to implore his aid in all your
laudable undertakings, and to esteem Him as the chief
good. To your neighbor, in acting upon the Square,
and doing unto him as you wish he should do unto
you. And to yourself, in avoiding all irregularity and
intemperance which may impair your faculties or
debase the dignity of your profession. A zealous
attachment to these duties will insure public and
private esteem."

"In the State, you are to be a quiet and peaceful
subject, true to your government and just to your

country. You are not to countenance disloyalty or rebellion, but patiently submit to legal authority and conform with cheerfulness to the government of the country in which you live."

"In your outward demeanor be particularly careful to avoid censure or reproach. Let not interest, favor, or prejudice bias your integrity or influence you to be guilty of a dishonorable action. Neither are you to suffer your zeal for the institution to lead you into argument with those who, through ignorance, may ridicule it."

"Your regular appearance at our meetings is earnestly solicited. At your leisure hours, that you may improve in Masonic knowledge, you are to converse with well informed brethren who will always be as ready to give as you will be ready to receive instruction."

"Finally, keep sacred and inviolable the mysteries of the Fraternity, as these are to distinguish you from the rest of the community and mark your consequence among Masons."

"If, in the circle of your acquaintance, you find a person desirous of being initiated into Masonry, be particularly careful not to give him encouragement unless you are convinced he will conform to our rules; in which event you may refer him to those who have authority to recommend him to the Lodge, that the honor, glory and reputation of the Institution may be firmly established and the world at large convinced of its good effect."

Before you can advance further, it is necessary that you commit certain portions of this degree to memory, and pass a suitable examination therein. "By Operative Masonry we allude to a proper application of the useful rules of architecture, whence a structure will derive figure, strength and beauty, and whence will result a due proportion and a just correspondence in all its parts. It furnishes us with dwellings and convenient shelter from the vicissitudes and inclemencies of seasons; and while it displays the effects of human wisdom, as well in the choice as in the arrangement of the sundry materials of which an edifice is composed, it demonstrates that a fund of science and industry is implanted in man for the best, most salutary and beneficent purposes."	6

the phenomena arising from the annual revolution of
the earth around the sun, and the diurnal rotation upon
its own axis. They are the noblest instruments for
improving the mind, giving it the most distinct idea of
any problem or proposition, as well as enabling it to
solve the same." 3 4 5 6 7 8 9 10 11

"Contemplating these bodies, we are inspired with
a due reverence for Deity and His works, and are

By order in architecture is meant a system of all the
members, proportions and ornaments of columns and
pilasters; or it is the regular arrangement of the
projecting parts of a building, which, united with those
of a column, form a beautiful, perfect, and complete
whole." 22 23 24 25 26 27 28

"From the first formation of society, order in
architecture may be traced. When the rigor of seasons 29 30

obliged men to contrive shelter from the inclemency of	1
the weather, we learn that they first planted trees on	2
end, and then laid others across the top to support a	3
covering. The bands which connected those trees at	4
the top and bottom are said to have given rise to the	5
idea of the base and capital of pillars; and from this	6
simple hint originally proceeded the more improved art	7
in architecture."	8
"The five orders are thus classed: The Tuscan,	9
Doric, Ionic, Corinthian and Composite."	10
"The ancient and original orders of architecture,	11
revered by Masons, are no more than three, the Doric,	12
Ionic and Corinthian, which were invented by the	13
Greeks. To these the Romans have added two: the	14
Tuscan, which they made plainer than the Doric, and	15
the Composite, which was more ornamental, if not	16
more beautiful, than the Corinthian."	17
"The first three alone show invention and	18
particular character, and essentially differ from each	19
other; the others have nothing but what is borrowed	20
and differ only accidentally."	21
"The Tuscan is the Doric in its earliest state, and	22
the Composite is the Corinthian enriched with the	23
Ionic. To the Greeks, therefore, and not to the Romans,	24
are we indebted for what is great, judicious, and	25
distinct in architecture."	26

The svn sts ald t the seven liberal arts and sciences
 which are Grammar, Rhetoric, Logic, Arithmetic,
 Geometry, Music, and Astronomy; the fifth of which,
 Geometry, is most revered among Masons."

"By this science the architect is enabled to
 construct his plans and execute his designs, the general
 to arrange his soldiers, the engineer to mark out ground
 for encampments, the geographer to give us the
 dimensions of the world and all things therein
 contained; to delineate the extent of seas and specify
 the divisions of empires, kingdoms, and provinces.
 By it also the astronomer is enabled to make his
 observations and to fix the duration of times and
 seasons, years and cycles. In fine, Geometry is the
 foundation of architecture and the root of mathematics.

Geometry, the first and noblest of sciences, is the basis	22
on which the superstructure of Masonry is erected.	23
By Geometry, we may curiously trace nature through	24
her various windings to her most concealed recesses.	25
By it we discover the power, the wisdom, and the	26
goodness of the Grand Artificer of the Universe, and	27
view with delight the proportions which connect this	28
vast machine. By it we discover how the planets move	29
in their different orbits and demonstrate their various	30

Second Section -- FC

revolutions. By it we account for the return of seasons
and the variety of scenes which each season displays
to the discerning eye. Numberless worlds are around
us, all framed by the same Divine Artist, which roll
through the vast expanse, and are all conducted by the
same unerring law of nature."

"A survey of nature and the observation of her
beautiful proportions first determined man to imitate
the Divine plan and study symmetry and order. This
gave rise to societies and birth to every useful art. The
architect began to design, and the plans which he laid
down, being improved by experience and time, have
produced works which are the admiration of every age."

"The lapse of time, the ruthless hand of ignorance,
and the devastations of war have laid waste and
destroyed many valuable monuments of antiquity, on
which the utmost exertions of human genius have been
employed. Even the Temple of Solomon, so spacious
and magnificent, and constructed by so many celebrated
artists, escaped not the unsparing ravages of barbarous
force. Freemasonry, notwithstanding, has still survived.
The Attentive Ear receives the sound from the Instruc-
tive Tongue, and the mysteries of Freemasonry are
safely lodged in the repository of a Faithful Breast."

"Tools and implements of architecture and
symbolic emblems most expressive are selected by the
Fraternity to imprint on the mind wise and serious
truths; and thus, through a succession of ages are
transmitted, unimpaired, the excellent tenets of our
Institution."

WM --	"Being passed to the Fellowcraft degree, we	1
	congratulate you on your preferment. The internal,	2
	and not the external qualifications of a man, are what	3
	Masonry regards. As you increase in knowledge, you	4
	will improve in social intercourse."	5
	"It is unnecessary to recapitulate the duties, which	6
	as a Fellowcraft, you are bound to discharge, or enlarge	7
	on the necessity of a strict adherence to them, as your	8
	own experience must have established their value."	9
	"Our laws and regulations you are strenuously to	10
	support and be always ready to assist in seeing them	11
	duly executed. You are not to palliate or aggravate the	12
	offenses of your brethren, but in the decision of every	13
	trespass against our rules, you are to judge with	14
	candor, admonish with friendship and reprehend with	15
	justice."	16
	"The study of the liberal arts, that valuable branch	17
	of education which tends so effectually to polish and	18
	adorn the mind, is earnestly recommended to your	19
	consideration, especially the science of Geometry,	20
	which is established as the basis of our art. Geometry,	21
	or Masonry, originally synonymous terms, being of a	22
	Divine and moral nature, is enriched with the most	23
	useful knowledge. While it proves the wonderful	24
	properties of nature, it demonstrates the more	25
	important truths of morality."	26
	"Your past behavior and regular deportment have	27
	merited the honor which we have now conferred, and in	28
	your new character it is expected that you will conform	29
	to the principles of the Fraternity by steadily perse-	30

vering in the practice of every commendable virtue."

"Such is the nature of your engagements as a Fellowcraft, and to these duties you are bound by the most sacred ties."

Suggested Wording

"My Brother, you have now been passed to the Degree of Fellowcraft and are to be congratulated on your preferment. Before you can advance further, it is necessary that you commit certain portions of this degree to memory, and pass a suitable examination therein. Brother A.B. is available as your instructor and very shortly will arrange to post you in the required lessons."

Second Section -- MM

Oh death untimely! Yet, oh timely death! Wrested
from life while fresh his honors clustered, before the
fetid breath of calumny had marred the splendor of his
name, or slander smirched the worth of his achieve-
ments. He has fallen, yielding up life rather than break
his vow. Surrendering all -- all that the world holds
dear; life, power, riches, everything; but holding fast to
his Masonic secret.

Oh, rare integrity! Oh, fortitude most grand! To
him in future years will countless thousands raise their
songs of praise, and laud his name who death preferred
than faithless prove, than trust betray.

Yet, though well kept, his secret stands revealed.
I read it thus: the Masonic secret is in these three
words contained: Truth, Honor, Fortitude.

Low-twelve bell tolls.

But Hark! The tuneful bell rings out the hour of
meeting. My comrades come. Now must we hasten
away, bearing our heavy burden of remorse. "

Third Section -- MM

WM -- "The Third Section of this degree explains many	1
important particulars relating to the building of King	2
Solomon's Temple."	3
"This magnificent structure was supported by	4
fourteen hundred and fifty three columns, and two	5
thousand nine hundred and six pilasters, all hewn from	6
the finest Parian marble."	7
"It was symbolically supported by three great	8
Pillars denominated Wisdom, Strength and Beauty,	9
because there should be wisdom to contrive, strength	10
to support and beauty to adorn all great and important	11
undertakings."	12
"These Pillars also represent our three ancient	13
Grand Masters: Solomon, King of Israel; Hiram, King	14
of Tyre, and H A."	15
"The Pillar of Wisdom represents S, K o I, because	16
by his wisdom he erected that monument of	17
magnificence which immortalized his name."	18
"The Pillar of Strength represents H, K o T,	19
because he aided and assisted KS in that great and	20
glorious undertaking."	21
"The Pillar of Beauty represents our G M H A,	22
because by his cunning work the Temple was	23
beautified and adorned."	24
"There were employed in its building three Grand	25
Masters, 3,300 Masters or Overseers of the Work,	26
80,000 Fellowcrafts and 70,000 Entered Apprentices,	27
or bearers of burdens. All these were classified and	28
arranged in such a manner by the wisdom of Solomon,	29
that neither envy, discord nor confusion was suffered	30

Third Section -- MM

to interrupt that universal peace and tranquillity which pervaded the world at this important period."

Master's Carpet

"I will now direct your attention to the emblems delineated on the Master's Carpet; every figure thereon affords a striking lesson of the strictest morality."

The Three Steps

"The Three Steps are emblematical of the three principal stages of human life: youth, manhood, and age. In youth, as Entered Apprentices, we ought industriously to occupy our minds in the attainment of useful knowledge; in manhood, as Fellowcrafts, we should apply that knowledge to the discharge of our respective duties to God, our neighbor and ourselves; so that in age, as Master Masons, we may enjoy the happy reflections consequent on a well-spent life, and die in the hope of a glorious immortality."

The Pot of Incense

"The Pot of Incense is an emblem of a pure heart, which is always an acceptable sacrifice to Deity; and as this glows with fervent heat, so should our hearts continually glow with gratitude to the great and beneficent Author of our existence for the manifold blessings and comforts we enjoy."

The Bee Hive

"The Bee Hive is an emblem of industry and recommends the practice of that virtue to all created beings, from the highest seraph in Heaven to the lowest reptile of the dust. It teaches us that, as we came into the world rational and intelligent beings,

Third Section -- MM

so we should ever be industrious ones, never sitting
down contented while our fellow creatures around us
are in want, when it is in our power to relieve them
without inconvenience to ourselves."

The Book of Constitutions

"The Book of Constitutions, guarded by the Tiler's
Sword, reminds us that we should be ever watchful and
guarded in our thoughts, words and actions, particularly
when before the enemies of Masonry, ever bearing in
mind those truly Masonic virtues, Silence and
Circumspection."

The Sword Pointing to a Naked Heart

"The Sword, pointing to a Naked Heart, demon-
strates that Justice will sooner or later overtake us; and,
although our thoughts, words and actions may be
hidden from the eyes of man, yet that ALL-SEEING
EYE, whom the sun, moon and stars obey, and under
whose watchful care even comets perform their
stupendous revolutions, pervades the inmost recesses
of the human heart and will reward us according to our
merit."

The Anchor and Ark

"The Anchor and Ark are emblems of a well-
grounded Hope and a well-spent Life. They are
emblematical of that Divine Ark which safely wafts us
over this tempestuous sea of troubles, and that Anchor
which shall safely moor us in a peaceful harbor, where
the wicked cease from troubling and the weary shall
find rest."

Third Section -- MM

The Forty-Seventh Problem of Euclid

"The Forty-Seventh Problem of Euclid was the invention of our ancient friend and brother, the great Pythagoras. It teaches Masons to be general lovers of the arts and sciences."

The Hour Glass

"The Hour Glass is an emblem of human life. Behold! How swiftly the sands run, and how rapidly our lives are drawing to a close. We cannot, without astonishment, behold the little particles which are contained in this machine, how they pass away almost imperceptibly and yet, to our surprise, in the short space of an hour they are all exhausted. Thus wastes man! Today he puts forth the tender leaves of hope, tomorrow blossoms, and bears his blushing honors thick upon him; the next day comes a frost which nips the shoot, and when he thinks his greatness still aspiring he falls, like autumn leaves, to enrich our mother earth."

The Scythe

"The Scythe is an emblem of time, which cuts the brittle thread of life and launches us into eternity. Behold! What havoc the Scythe of Time makes in the human race. If by chance we should escape the numerous evils incident to childhood and youth, and with health and vigor arrive at the years of manhood, yet withal we must soon be cut down by the all-devouring Scythe of Time, and be gathered into the land where our fathers have gone before us."

Third Section -- MM

Optional

"Thus we close the explanation of the emblems
upon the solemn thought of death, which, without
revelation, is dark and gloomy; but we are suddenly
revived by the evergreen or everliving sprig of Faith in
the merits of the Lion of the tribe of Judah; which
strengthens us with confidence and composure, to look
forward to a blessed immortality."

"Then let us imitate the good man in his virtuous
and amiable conduct; in his unfeigned piety to God; in
his inflexible fidelity to his trust; that we may welcome
the grim tyrant Death, and receive him as a kind
messenger sent from our Supreme Grand Master, to
translate us from this imperfect to that all perfect,
glorious and celestial Lodge above, where the Supreme
Architect of the universe presides."

WM --	1
"Your zeal for the Institution of Masonry, the progress	2
you have made in our mysteries, and your conformity	3
to our regulations have pointed you out as a proper	4
object of our favor and esteem."	5
"You are now bound by duty, honor and gratitude	6
to be faithful to your trust, to support the dignity of	7
your character on every occasion, and to enforce, by	8
precept and example, obedience to the tenets of	9
Freemasonry."	10
"In the character of a Master Mason you are	11
authorized to correct the errors and irregularities of	12
your uninformed brethren and to guard them against a	13
breach of fidelity. To preserve the reputation of the	14
Fraternity unsullied must be your constant care;	15
and for this purpose it is your province to recommend	16
to your inferiors, obedience and submission; to your	17
equals, courtesy and affability; to your superiors,	18
kindness and condescension. Universal benevolence	19
you are always to inculcate, and by the regularity of	20
your own behavior afford the best example for the	21
conduct of others less informed."	22
"The Ancient Landmarks of Masonry intrusted to	23
your care you are carefully to preserve, and never	24
suffer them to be infringed or countenance a deviation	25
from the established Usages and Customs of the	26
Fraternity."	27
"Your virtue, honor and reputation are concerned	28
in supporting with dignity the character you now bear.	29
Let no motive, therefore, make you swerve from your	30
duty, violate your vows or betray your trust; but be	

Charge -- MM

true and faithful, and imitate the example of that celebrated artist whom you have this evening represented. Thus you will render yourself deserving of the honor which we have conferred and merit the confidence that we have reposed."

Suggested Wording

"My Brother, you have now been raised to the Sublime Degree of Master Mason and are to be congratulated on receiving this highest honor. As in the first two degrees, it is requested that you commit certain portions of this degree to memory and pass a suitable examination therein."

"Accept my congratulations, Brother B., and very shortly Brother A.B. will make arrangements for your posting."

Required.

Candidate is then escorted to the Secretary's desk where the Secretary presents him with his current membership (dues) card, and has the candidate sign the lodge's by-laws. If still in existence, the Lodge's original by-laws should be used.

Apron Address -- MM

By Past Grand Master, Eugene S. Elliott

WM -- "I now have the pleasure of presenting you with the lamb-skin or white leathern apron. It is an emblem of innocence and the badge of a Mason, more ancient than the Golden Fleece or Roman Eagle, more honorable than the Star and Garter, when worthily worn."

"And from the time when the memory of man runneth not to the contrary, this emblem, plain and unadorned, has been the peculiar clothing of all Free and Accepted Masons."

"The prince commanding the resources of empires and the citizen toiling in humble poverty have alike worn it with the consciousness that it has lightened the labors of the one and added dignity to the powers of the other."

"It may be that you are, or yet will be, so firmly entrenched in the hearts of your fellow men and so deserving of their gratitude, that they will elevate you to the highest position of honor, trust and emolument and cause your name to be inscribed high upon the pillars of worldly fame."

"But never before have you had, and never again, my Brother, will you have a higher mark of favor and confidence bestowed on you than this, which I, as the representative of these brethren and of the Craft throughout the world, am about to bestow."

Flag of the United States of America

Salute in Lodge Room -- It is proper for all citizens to
place the right hand, with fingers and thumb joined and
extended, the palm flat on left breast over the heart and
right elbow at right side close to the body.

Salute out-of-doors -- Hat is removed in right hand
and held on left breast over the heart, elbow down.
(Use military salute if hat cannot be removed.)

When uncovered, the salute is the same both
indoors and out-of-doors.

Bugle Call -- In or out of the Lodge, the United
States -- "To the Colors" -- is proper, during which all
face toward flag and stand at Flag Salute until the last
note is sounded.

The Flag should always be carried with the staff as
near vertical as possible. It should never be inclined to
the rear. It is never dipped in salute to a living person.

It is recommended that the Flag be presented at
each communication of the Lodge, but it is not
mandatory so to do. It is suggested that the Color
Guard consist of the Stewards with the Senior Deacon
in charge. It may be presented by Master Masons who
are members of a patriotic or uniformed organization,
or by other Master Masons selected for that purpose.

The following very simple ceremony of presenta-
tion may be carried out without difficulty in the
smallest of Lodge Rooms.

It should be presented immediately following the
final report of the JD after the WM has declared the
Lodge open; however, if distinguished guests are to be
introduced, it is presented immediately thereafter.

Balloting Procedure

Interview committee report is read, if applicable.
Use appropriate Other Announcements & Responses
found on page 190, where applicable.

WM -- "Br SD."

SD rises without Rod, takes 1 step, faces S.

SD -- *DG* **"WM."** *S*

WM -- "You will prepare the ballot box and display it in the South, West, and East."

SD secures box from a convenient position, carries it clockwise around L, passing between E and A to JW
 {F-10} *who, rising, inspects it; then to SW who, rising, also*
 {F-11} *inspects it; and to WM who, rising, likewise inspects*
and opens the box for ballot.
WM & Ws rise to check, vote, inspect, or report
result of ballot. Each member rises to cast his ballot.

WM -- "Brethren, you are about to cast your ballot on the petition of Mr. John A. Doe to receive the degrees conferred in this Lodge. A clear ballot is required for election. Remember, the white balls elect and the black cubes reject; be careful in casting your ballot -- make no mistake."

WM casts first ballot. SD moves around L clockwise; S, W, N, & back to WM in E, allowing ample room for
 {X-31} *each to cast his ballot. After JD votes, he relieves the Ti to vote. SD votes on completion of the balloting.*

WM -- "Have all voted who are entitled to do so? If so, I declare the ballot closed. (*)"

WM -- "Br SD, you will display the ballot in the S, W, & E."

Balloting Procedure

SD, without response, goes clockwise around L, halts in S & W for JW & SW to inspect ballot, continues to E where WM inspects ballot, after which --

(If first ballot is unclear, regardless of number of

WM -- *negative votes.)*

"Brethren, I fear

that a mistake has been made, therefore I declare this ballot void. We will re-ballot immediately."

WM destroys ballot, returns ballot box to SD, and begins procedure again at line 7 on previous page.

(On clear ballot, or second unclear ballot, regardless of number of negative votes.)

WM -- or (after second unclear ballot) "And not clear in the E. However, before declaring this petition rejected, the Wisconsin Masonic Code requires that accountability be established. Therefore, any person who has cast a negative vote shall, within 48 hours, identify himself and his reasons to me. Both his identity and reasons will remain strictly confidential. Failure to establish such accountability will be cause to declare the ballot clear. The declaration on this ballot will be made at a future stated communication of this Lodge." (*)

Balloting Procedure

WM shall immediately destroy the ballot to preserve its secrecy. Response "Clear" or "Not Clear" is used only with petitions for the degrees; the "Other Responses" which follow shall be used for their respective ballots. If accountability is not established within the 48 hours, at the next stated communication --

WM -- "Brethren, at the last stated communication of this Lodge, I required that accountability be established under the Wisconsin Masonic Code regarding the casting of a negative vote on the petition of Mr. John A. Doe. No such accounting was made. I, therefore, declare the ballot clear and Mr. John A. Doe elected to receive the degrees conferred in this Lodge." (*)

If accountability is satisfied within the 48 hours, at a future stated communication --

WM -- "Brethren, at the (Date) stated communication of this Lodge I required that accountability be established under the Wisconsin Masonic Code regarding the casting of a negative vote on the petition of Mr. John A. Doe. Accordingly, such accounting has been made, but on review by the MWGM was deemed insufficient to meet Masonic standards for the rejection of the candidate. I, therefore, declare the ballot clear and Mr. John A. Doe elected to receive the degrees conferred in this Lodge." (*)

regarding the casting of a negative vote on the
petition of Mr. John A. Doe. Accordingly, such
accounting was made and was reviewed and
approved by the MWGM. I, therefore, declare the
petition of Mr. John A. Doe to receive the degrees
conferred in this Lodge, rejected." (*)

*The above is for balloting on a petition for the degrees.
For other types of balloting, the ballot box is prepared,
displayed, and inspected; ballots are cast and the
results of them reported in the same manner; however,
no re-balloting or accountability is to be had.
Responses for "Other Ballots" follow.*

Optional Prayer -- EA

"Almighty God, in whom alone is our trust, and whose watchful care is ever over us, bless us in the exercise of those kind and social affections Thou hast given us. May we cherish and display them as our honor and our joy. May this, our friend, who is about to become our brother, devote his life to Thy service and rightfully consider the principles of his engagements. May he be endowed with wisdom to direct him in all his ways; strength to support him in all his difficulties and beauty to adorn his moral conduct."

"Let Thy Fatherly hand ever be over him and so lead him in the knowledge and the obedience of Thy Divine Laws, that, having finished his course below, he may at last pass peaceably and joyfully to those Mansions prepared for him in Thy Temple above -- that house not made with hands, eternal in the heavens. -- Amen."

All respond

"So mote it be."

Optional Graveside Prayer -- MM 2nd Section

"O Thou Great and Glorious God, who canst alone
defend amid the manifold dangers which beset our
pathway through life, shield and defend us from the
evil intentions of our enemies and support us under the
trials and afflictions we are destined to endure while
traveling through this vale of tears."

"And, O God, we pray that Thou wouldst raise
this, our brother, from his fallen estate and guide him
evermore in an upright walk and conversation. May
the still, small voice of Thy Spirit whisper in his ear
the words of wisdom. Let Thy Fatherly hand ever be
about him, and do Thou, O God, direct his feet in the
paths of peace. May his breast safely keep and guard
the trust which friendship there reposes."

"And when at last he shall have diligently executed
in the rough quarries of earth the designs which Thou
hast inscribed upon his trestle-board and shall be
stricken down by the ruthless S M of death, may he be
raised to the life eternal, be found worthy of fellowship
with the good, and in the Grand Lodge above be
permitted to see Thee face to face, to worship Thee
there in the beauty of holiness forever and ever. --
Amen."

All respond

"So mote it be."

Alternate Closing Prayers

"Supreme Grand Master, Ruler of Heaven and earth;
now that we are about to separate and return to our
respective places of abode, wilt Thou be pleased so to
influence our hearts and minds that we may each one
of us practice out of the Lodge those great moral duties
which are inculcated in it, and with reverence study and
obey the laws which Thou hast given us in Thy Holy
Word. -- Amen."

All respond

"So mote it be."

"Supreme Architect of the Universe, accept our humble
thanks for the many mercies and blessings which Thy
bounty has conferred on us, and especially for this
friendly and social intercourse. Pardon, we beseech
Thee, whatever Thou has seen amiss in us since we
have been together; and continue to us Thy presence,
protection and blessing. Make us sensible of the
renewed obligation we are under to love Thee, and as
we are about to separate and return to our respective
places of abode, wilt Thou be pleased so to influence
our hearts and minds that we may each one of us
practice out of the Lodge those great moral duties
which are inculcated in it, and with reverence study
and obey the laws which Thou hast given us in Thy
Holy Word. -- Amen."

All respond

"So mote it be."

"And now may the blessing of Heaven rest upon each
and every one of us, now and forevermore. -- Amen."

All respond

"So mote it be."

Alternate Apron Address -- MM

WM --	1
"My Brother, I now have the pleasure of presenting	2
you with the Lamb-skin or White Leathern Apron.	3
It is an emblem of innocence and the badge of a Mason,	4
more ancient than the Golden Fleece or Roman Eagle,	5
more honorable than the Star and Garter, or any other	6
order that can be conferred upon you at this time, or	7
any future period by king, prince, potentate, or any	8
other person, except he be a Mason."	9
"It may be that in coming years, upon your brow	10
will rest the laurel leaves of victory; from your breast	11
may yet hang jewels fit to grace the diadem of an	12
eastern potentate; nay, more than these, with light	13
added to the coming light, your ambitious feet may	14
tread round after round of the ladder that leads to fame	15
in our mystic circle, and even the purple of our	16
Fraternity rest upon your honored shoulders; but never	17
again from mortal hands -- never again until your en-	18
franchised spirit shall have passed upward and inward	19
through the pearly gates shall any honor so distin-	20
guished, so emblematical of purity and of all perfection,	21
be bestowed upon you, as this which I now confer."	22
"Let its pure and spotless surface be to you an	23
ever-present reminder of an unblemished purity of life	24
and rectitude of conduct; a never-ending argument for	25
nobler deeds, for higher thoughts, for purer actions."	26
"And when at last your weary feet shall have come	27
to the end of their toilsome journey, and from your	28
nerveless grasp shall drop forever the working tools of	29
life, may the record of your life and conduct be as pure	30
and spotless as this fair emblem which I now place in

your hands."

"It is yours -- yours to wear throughout an honorable life, and at your death to be placed upon the casket which shall enclose your lifeless remains, and with them deposited in the silent tomb."

"And when at last your trembling soul stands naked and alone before the Great White Throne, may it be your portion, oh, my Brother, to hear from Him who sitteth as the Judge Supreme the welcome words, "Well done, good and faithful servant. Enter, thou, into the joy of Thy Lord."

"I trust that you will wear it with equal pleasure to yourself and honor to the Fraternity."

Alternate Letter 'G' "Dew Drop" Lecture -- FC

WM -- "Geometry, the first and noblest of sciences, is the basis upon which the superstructure of Freemasonry is erected."

"Regarding man as a rational and intelligent being, capable of enjoyment and pleasure to an extent limited only by the acquisition of useful knowledge, our Order points him to the study of the Liberal Arts and Sciences and to the possession of knowledge as the most befitting and proper occupation for the God-like endowments with which he is gifted."

"Indeed, all who frequent our Masonic Temple are charged to labor faithfully in the wide and unbounded field of human improvement, from which they are assured of reaping a most glorious harvest, a harvest of man, and in manifestation of the goodness of God. Your attention is especially directed to the science of Geometry, no royal road, 'tis true, but to one prepared with an outfit it must prove more attractive than palace walks by regal taste adorned."

"The ancient philosophers placed such a high estimate upon this science that all who frequented the groves of the Sacred Academy were compelled to explore its heavenly paths, and no one whose mind was unexpanded by its precepts was intrusted with the instruction of the young. Even Plato, justly deemed the first of the philosophers, when asked as to the probable occupation of Deity, replied, "He geometrizes continually."

"If we consider the symmetry and order which govern all the works of creation, we must admit that Geometry pervades the universe. If, by the aid of the

Alternate Letter 'G' "Dew Drop" Lecture -- FC

telescope, we bring the planets within the range of our
observation, and by the microscope, view particles too
minute for the eye, unaided, to behold, we find them all
pursuing the several objects of their creation, in
accordance with the fixed plan of the Almighty."

"By Geometry we may curiously trace nature
through her various windings, to her most concealed
recesses. By it we discover how the planets move in
their respective orbits and demonstrate their various
revolutions; by it we account for the return of the
seasons and the variety of scenes which each season
displays to the discerning eye; by it we discover the
power, wisdom, and goodness of the Grand Artificer
of the Universe, and view with delight the proportions
which connect the vast machine. Numberless worlds
are around us, all framed by the same Divine Artist,
which roll through the vast expanse and are all
governed by the same unerring law of nature."

"Is there not more truth than fiction in the thought
of the ancient philosopher, that God geometrizes
continually?"

"By geometry He rounds the dew drop; points the
pyramidal icicle that hangs from thatch-bound roof;
bends into a graceful curve the foaming cataract; paints
His bow of beauty upon the canvas of a summer
shower; assimilates the sugar to the diamond, and in
the fissures of the earth-bound rocks, forms gorgeous
caverns, thick-set with starry gems. By it He taught
the bee to store its honey in prismatic cells; the wild
goose to range her flight, and the noble eagle to wheel

Alternate Letter 'G' "Dew Drop" Lecture -- FC

and dart upon its prey, and the wakesome lark, God's
earliest worshipper, to hymn its mating song in spiral
flight. By it He forms the tender lens of the delicate
eye, rounds the blushing cheek of beauty, curves the
ruby lip and fashions the swelling breast that throbs in
unison with a gushing heart. By it he paints the cheek
of autumn's mellow fruit, forms in molds of graceful
symmetry the gentle dove, marks the myriad circles on
the peacock's gaudy train and decks the plumage of
ten thousand warblers of His praise that animate the
woody shade. By it he fashions the golden carp, decks
the silvery perch, forms all fish of every fin and tribe
that course the majestic ocean, cut the placid lake or
swim in gentle brook. Nay, more, even the glassy
element in which they dwell, when by gentle zephyrs
stirred, sends its chasing waves in graceful curves by
God's own finger traced in parallel -- above, beneath,
around us, all the works of His hands, animate and in-
animate, but prove that God geometrizes continually."

"But if man would witness the highest evidence of
geometrical perfection, let him step out of the rude
construction of his own hands and view the wide
o'er-spreading canopy of the stars, whether fixed as
centers of vast systems or all noiselessly pursuing
their geometrical paths in accordance with the never-
changing laws of nature. Nay, more, the vast fields of
illimitable space are all formed of an infinitude of
circles traced by the compass of the Almighty
Architect, whose every work is set by the Level,
adjusted by the Plumb, and perfected by the Square.

Alternate Letter 'G' "Dew Drop" Lecture -- FC

Do this, my brother, and you must admit with Plato,
that God geometrizes continually, and be assured with
Job, the He who stretcheth the earth upon emptiness
and fixeth the foundation thereof upon nothing, so it
cannot be moved, can bind the sweet influence of
Pleiades or loose the bands of Orion."

"A survey of Nature, and the observation of her
beautiful proportions, first determined man to imitate
the Divine plan, and study symmetry and order. This
gave rise to societies, and birth to every useful art. The
architect began to design, and the plans which he laid
down, being improved by experience and time, have
produced works which are the admiration of every age."

"The lapse of time, the ruthless hand of ignorance,
and the devastations of war, have laid waste and
destroyed many valuable monuments of antiquity on
which the utmost exertions of human genius have been
employed. Even the Temple of Solomon, so spacious
and magnificent and constructed by so many celebrated
artists, escaped not the unsparing ravages of barbarous
force. Freemasonry, notwithstanding, has still survived.
The attentive ear receives the sound from the instruc-
tive tongue, and the mysteries of Freemasonry are
safely lodged in the repository of faithful breasts.
Tools and implements of architecture, and symbolic
emblems most expressive, are selected by the fraternity
to imprint on the mind wise and serious truths; and
thus, through a succession of ages are transmitted,
unimpaired, the most excellent tenets of our
institution."

The Masonic Traveler's Refresher Degree

The Masonic Traveler's Refresher Degree (also known as the Rusty Nail Degree) is used as a means of re-acquainting brethren with the signs, tokens, and words of the three degrees, enabling them to more easily gain admission into any regular lodge. This degree is to be used only in a tiled meeting, never during a public ceremony, and must be conducted on the Master Mason degree. It can be given prior to any stated communication, or at a special meeting.

Prior to the opening of a lodge of Master Masons, the Worshipful Master should appoint a regular officer or member to chaperone the brethren receiving the Traveler's Refresher Degree. All brethren to receive the degree should assemble in the Tiler's room during the opening of the Master Mason Degree. During the opening, the chaperone should provide adhesive nametags, and each recipient should write their names and display their nametags so that all the brethren may greet them and make them feel welcome.

Since the degree below is taken directly out of our ritual, it is our belief that it could and should be given from memory, and that the officers involved should spend adequate time preparing to conduct this degree in an efficient, smooth, and impressive manner.

The Masonic Traveler's Refresher Degree

Note: Degree work, including opening or closing, should not be interrupted to admit late-comers.

Also, this degree is written assuming more than one candidate. In the event you have only a single recipient, alter the wording to singular accordingly.

WM returns to E, ascends dais. 5

SD returns to place, is seated. 6

WM -- "Brn, as you are in attendance in most lodges 7
throughout this country, remember that one rap 8
calls up any single brother, two raps call up the 9
officers of the lodge, three raps calls up all 10
brethren, and one rap seats the lodge. 11

Also, it is common to be requested to recite 12
the Tiler's oath, which is as follows: 13

"I, John A. Doe, do hereby and hereon solemnly 14
and sincerely swear that I have been regularly initiated, 15
passed, and raised to the sublime degree of Master Mason 16
in a regularly constituted Lodge of such; that I am not 17
now under sentence of suspension or expulsion and know 18
of no just reason why I should not hold Masonic 19
intercourse with my brethren. So help me God." 20

WM -- "Brn, this completes your Traveler's Refresher 21
Degree." 22

WM -- *Directing his attention to the sidelines* "Brn, 23
please join me in welcoming our Travelers with 24
a fine round of applause. *Done.* 25

WM -- "In honor and recognition of your continuing 26
interest and commitment, I now call the Lodge 27
informal for all the brethren to come foward 28
and extend their hand of congratulations. 29
