

Part 3 - Whistleblower Microbiologist Speaks Out About Alleged "Alien" Named J-Rod

© 2002 by Linda Moulton Howe

Interview, Part 3 conducted on September 19, 2002, and withheld until now:

September 19, 2002 videotaped interview with Bill Hamilton.

Photograph © 2003 by William F. Hamilton.

Bill: I WANT TO GO BACK TO SOMETHING YOU SAID. YOU SAID THAT TERRESTRIAL VIRUSES WERE AN ARCHIVE. HOWEVER, PREVIOUSLY YOU HAD SAID THAT THEY ASKED YOU TO MANIPULATE NON-TERRESTRIAL SOURCE MATERIAL AND MOCK IT UP WITH SOMETHING EXTRATERRESTRIAL. SO IF WE ARE TRYING TO TAP A SOURCE MATERIAL THAT IS EXTRATERRESTRIAL AND VIRAL IN NATURE, ARE WE GOING BACK INTO THE EXTRATERRESTRIAL HISTORY TO TRY TO FIND AN EXTRATERRESTRIAL ANCIENT VIRUS THAT WE DON'T KNOW ANYTHING ABOUT THE EXTRATERRESTRIALS NOW?

First of all, I didn't say that viruses WERE evolutionary archives. I said, that it is currently thought that viruses are evolutionary archives.

Secondly, are we dipping into the primordial soup of the human genome and possibly going to capture other encoded retro-viruses and activate them as a result of the present time giving of our table? Yes, possibly we are.

Thirdly, do we know for certain when the percentage of the human genome which we know is virally and it's other fragments, viroid fragments - do we know the percentage that came via natural selection, micro-evolutionary change? I'm not going to have myself classified as a monkey's uncle. (laughter)

Although I can accept that since it is the ultimate reality - why not? If I can accept what I've seen already in my life, I ought to be able to accept that. Will we be able to discern between the two I think is the question.

BJ: THAT'S MY QUESTION.

The answer is 'No' unless we are receiving more information from the Orion folks - whoever the hell they are - purely ascended spiritual beings or whatever. I don't have an answer for that. Or seeking more information from the J-Rods of that which I am privy. then the answer is - if we're not, then the answer is, 'No, we don't.' If we are, 'Possibly.' I don't know the nature of the information that is coming from them because they are not providing me with that information.

WHAT YOU GET IS COMPARTMENTALIZED. JUST EXACTLY WHAT THEY THINK YOU NEED TO KNOW.

Look, look, if it comes out that we are in the fix that we are in - what is that going to do? How is it going to help or hinder? Hell, I don't know. With the collective mind of present humanity, we're going to get a positive answer? Look at the fate of the world?

BJ: IT COULDN'T GET MUCH WORSE.

What are we going to do? Are we going to hand (the Paradox) to Kofi Annan, Secretary General, United Nations. (laughter) I'm not belittling him. He's an intelligent wonderful man, but what the hell is he going to do with it?!! What the hell is the United Nations going to do with it? What's the collective mind of humanity - given our present mentality - do?!!! This may bring us to a faster demise by increasing more fractionation of the human populace. We haven't even figured out yet that this God and that God and this God and that God are all part of the same God. Why don't we figure out that problem?!!!! No matter what you want to call him, her, whatever - the beautiful thing from which we come. People want to own everything, except the solutions. The thing that will free us is if we own the solution. But they want to own the process.

(Transcription note: There is a break here.)

Dan: The clean sphere would raise up through a diaphragm iris from the floor. They kept him (J-Rod) in a separate location - I don't know what they were doing while he was being staged there before we came in. They never told me that, OK? However, the 4-5 designation was given specifically to make him comfortable because of the addition of the two numbers, which is in fact why they built a 9-level base. And there have been a number of people in the past - Robert Lazar, I believe mentioned nine. But going in, there would be an entry team, usually a team of one when we would go into the clean sphere. We would be given a medical and suited while catheterized and plugged....

TURN TO TAPE SIDE # 2

(first words about degeneration of something are not clear)

which was associated with a heat loss problem due to the peripheral nerves.

(LINDA HOWE QUESTION: Then how could J-Rod be in a very COLD hydrogen atmosphere?)

BJ Wolf: I have tried to answer her question as best I can, based upon my notes from conversations with Dan over the last few years. Dan

indicated that the EBEs had a two part biochemical system. One part involved an external secretion that was pumped to the skin surface using their secretory system (exocrine system). This system apparently was a parallel development in which their version of sebaceous glands became fused with their version of sweat glands. It apparently came about when the alteration took place in their physiology that began when they were driven into a subterranean existence.

The second part of the biochemical issue involves the systemically produced antifreeze Glycoproteins (AFPs) which are present in the surface and subintegumental tissues. These, if I understood correctly, help to regulate their internal responses to the external temperature, helping them maintain internal regulation of their body temp. As they suffered pathology and degenerative problems, their exocrine system started to limit the production of the Antifreeze Glycoproteins, and cause glycerol/glycol stability issues. This meant that they were starting to have trouble managing the cold temperatures, and their bodies were losing heat. That's one of the big things they wanted to have our scientists work on, to repair at a genetic level for them. I hope this helps.

Dan: I was asked specifically to find out the origin of that problem having no idea at the time about this time paradox business and all of that. No clue whatsoever about it. I was basically just trying to help a fellow being. Finally, it was determined that the only way would be a cloning effort, or clone therapy, genetic therapy. The only way to proceed with that therapy would be to produce hybrid associations between present genomes, human genomes - (very hard to hear)- a present human genome with their (J-Rod) present genomes. We tinkered a little bit with (says something here not understandable) fresh human medium - (I'm not going to get into the origin of that fresh human medium.) - so that we could by associating genetically the fresh human media with his medium, a partial alleviation of the peripheral neuropathy.

This then lead to the next level - that we were chatting about earlier - and it also lead to the end of the Q-94 document referenced earlier.

NOW CAN YOU SAY FOR A MOMENT, DAN, WHAT MOTIVATES YOU TO NOW DISCLOSE THIS MATERIAL TO THE PUBLIC?

Sure. That's not a problem at all. We speak in America freely. In 1986, I was told to "Be All You Can Be." (military slogan?) I was not told there would be a circumventing of the United States Constitution for me to be all

I could be. I was not told there was a certain ???? of the United States Constitution in the group for which I worked. I feel a pressing need for freedom and having grown up in a reasonably free environment, having signed myself into the slavery that I now find myself within, it's pretty easy for me to say, "Enough is enough."

Now, on to the higher values that people would probably want to say the real reason why I want out - (I just gave that's a personal reason I want the hell out.

DO YOU KNOW WHO IS CONTROLLING THIS SHOW ON THE TOP?

They probably know I'm seated here today (room in Las Vegas, Nevada library). I'm sure they do. I'm sure they do. Now, whether or not they want this

information evolved and are aware that I am sitting here, or they are just aware that I'm sitting here, I don't know. I don't know. That's the big question: is what I heard was a project called PATCHWORK, which would be a spoon feeding of the people of the information, because I only know a certain amount. I don't know everything.

WHO IS RUNNING THE SHOW?

You asked who is running the show?

YES.

I've come to know a group - I shouldn't say I've come to know the group. I've come to know of the group called the Committee of the Majority. This committee is built of thirty-three men. They are Masonic-based and they are people who set in the highest positions of privilege and power within the United States government and other governments.

THIS COMMITTEE HAS MEMBERS NOT RESTRICTED TO THE UNITED STATES ALONE?

As I understand, yes. It would be difficult for me to name names of people and I don't know for sure are seated there. It would also be dangerous to the very cause that I set here for freedom (for myself.)

HOW DOES THIS GROUP, MAJESTIC 12, FIT INTO THAT?

Majestic 12 is a group of scientists and scientific advisors who work for the Committee of the Majority. Now, I have had occasion when I was involved with Project Aquarius to have to send to the so-called Majestic 12 the documents which you are privy, the leaked material from my deceased friends.

And I had association with them on that level. One of the Majestic 12 - or I should say was alleged to be a member of Majestic 12 - was present at the clean sphere when I was in the clean sphere. I've mentioned his name before.

This might be risking again my freedom because of the very problems we face now as a society. So, I've got to be careful about that whether or not that sacrifices my freedom.

OK.

His first name is Zbigniew. That's as far as I will go. I had personal experience with that man Zbigniew. He was in fact present at Sector 4 when I was involved with the J-Rod. Going out from Project Aquarius, I had come to a closer association by means of up and down the line, the conduit, with the Committee of the Majority. I believe that the Majestic 12 group only associated with particular extraterrestrial projects that are going on that are going on within the community and not associated with the entirety of the scientific projects which are going on within the community. The project we are currently working with, for instance, is not per se an extraterrestrial subject-based project. So, the fact that I've been told not to route things to the Majestic Committee of 12 concerning the documents that I've been producing is kind of indicative to me that they are only dealing within a certain subset of the scientific projects. More than that, I don't know or can't say. I would just be stabbing in the dark.

BJ: BUT ESSENTIALLY, THE COMMITTEE OF THE MAJORITY IS OVER MAJESTIC 12?

Yes, is the umbrella group. Again, as I understand, they are Scottish rite Masonic based. I think they might be a little lenient with me because my grandfather was a (high ranking) Mason. Maybe that's why the leniency. But I don't see the leniency, I see the fuse running short, starting to run short with me and I - you know, you can hear the clarion call in the distance.

Bill: IS THERE ANY PARTICULAR SIGNIFICANCE - YOU WERE MENTIONING A CYCLE OF MINE AND YOURS THAT THESE ALIENS SEEM TO BE ADHERING TO AND THE NEXT PERIOD COMING UP WOULD BE OF 2003.

Yes.

IS THERE ANY INSIGHT ON WHAT MIGHT CHANGE?

The only thing I know for sure is that their relationship with us is treaty-based.

YOU MEAN AS?

As in the alleged Orion visitors and confirmed Reticulan visitors. It's a treaty-based relationship. That treaty and negotiations for further cooperative work is due for re-upping and that re-upping is due in 2003. Now, I've been kind of hurried up in the project in which I am currently assigned. I've been told to have a working model of this theory presentable by March 15 next year (2003). There might be coincidence having to do with those two dates, or it might be entirely coincidental. I'm not sure. Why are they letting this happen? I don't know. I have not been able to move right or left without getting watched, that I know.

BJ: OVER HERE...

I don't think they are doing it out of their good graces!

WANTED TO MEET WITH YOU ONE NIGHT AND SHE HAD AN ENCOUNTER INSTEAD WITH THREE CLASSIC MEN IN BLACK?

BJ: They had the classic look, the feel. They didn't feel right. They were wearing black, they were wearing like a fedora (hat). It was terrifying. Instead of meeting Dan, I was met and I don't know what these people were.

Bill: THEY SHOWED NO EXPRESSION?

No expression in their faces. It was terrifying. They spoke and it was like they had rehearsed what they were saying because they couldn't speak naturally. It was wrong. The whole thing was wrong. It felt wrong. They walked wrong. They moved wrong. They were pale. I finally broke and ran. I was scared to death! I haven't been able to go back to that park since. I can't do it.

Dan: My experience - your description is consistent with gentlemen with whom I've had previous encounters. They would come in and observe what was going on. A few of them attempted to interact with me and frankly, I don't care to

interact with them. Like I said, it might look like a duck and it might quack like a duck, but if it ain't a duck it ain't a duck!

BJ: I was made to feel threatened. I was definitely made to feel threatened.

Dan: Their presence is threatening and the reason why it is threatening is because you can - have you had the experience of being in the presence of a dead body?

BJ: Oh, yes, I have.

Dan: An animated dead body, isn't that approximately the same - an animated dead body?

BJ: Oh, my God, that is so close it is unbelievable.

Dan: It's not - this is going to sound like something out of an idiotic horror movie, but it gives - to not overuse the word, it gives an 'alien feeling.' They sang me Happy Birthday one year, two of them.

Bill: They are like ghouls.

BJ: That's it!

Dan: I don't know what the hell they are, to be very honest with you.

Bill: That (ghoul) is what we would think of.

BJ: Yes, it felt ghoulish. When they walked towards me, it felt ghoulish, it felt like they were thinking about each step they took. They weren't moving normally.

Dan: They seemed out of place. Or maybe it is that we feel out of place being around them. I don't know. But they seem out of place.

Bill: Dan, we should start wrapping this up. Is there anything you would like to make a statement or something as if you were talking to like the large audience I was talking to up in the Bay area. What would you like to say to the people?

Dan: Besides the fact that I don't believe the Queen of England is a reptilian?!

Bill: Yes! (laughter) Is there some kind of statement you would like to make?

Dan: I could sit here and be self-serving with a statement. But there are things which are much more important than my selfish nature. We are walking toward, at the moment, a time of human destiny. The decisions that we are making at present are enhancing the potential for the ill-fated decisions that we are supposed to make in our future to occur.

I hope and I pray that we make the right decisions. However, I have no idea what those right decisions are. The only thing that I can hold to personally, taking off the guise of the biologist, is being a human being. the only thing I can hope is that whoever he or she or it is - we wish to call it Creator - that protective force that is surrounding humanity since its inception - I pray that he is listening to our weeping and pulls us back from a precipice made of our own designs.

Bill: I appreciate very much your giving this interview tonight and I'm not sure that you will be decorated or promoted for it. But ...

Dan: I'd like to know in whose armies?

Bill: But I think we all appreciate it and whoever in the future listens to this and watches this tape, I think they will be given much food for thought.

END OF TAPE

**

- (1) Dan called S-4 either Sector 4 or Site 4 variously.
- (2) FM usually means "Facility Maintenance"
- (3) Strategic Tactical Advanced Alien Response

More Information:

Dan B. Burisch, Ph.D., Background

Born Danny Benjamin Crain on February 2, 1964, in Lynwood, California.

Name changed to Burisch in 1995 for family reasons.

Education:

1986 B.A., University of Nevada, Las Vegas, Psychology.

1988 M.S., St. Patrick's Seminary, Biology.

1989 Ph.D., State University of New York, Stonybrook, Microbiology and Molecular Genetics.

Biology Interest and Education:

- 1975 to 1981 (11 - 17 years old), member of Los Angeles Microscopical Society, Long Beach, California Memorial Laboratory.

- November 1980 (16 years old), Enrolled in Dover Grammar School for Boys, Dover, England. Kept 4.0 average throughout.

- 1982 to 1990 (18 years old), member of Arizona/Nevada Academy of Science.

Published: *The Use of Hypochlorite On Malignant Tissue*, 'by Crane et al.

1983 (19 years old)

Published: *Hypochlorite - Induced Neoplasm Remission Mechanisms* 'by Crane et al.

Published: *The Treatment of Mammary Carcinoma with Transformation* 'and presented to the Department of Biological Sciences, University of Nevada, Las Vegas.

1984 (20 years old)

Published: *An Analysis of Tumor Cell Specificity* 'by Crane & Souris.

1985 (21 years old)

Published: *The Role of Secondary Oxygen in Tumor Cell Recognition* 'by Crain & Wall.

1986 to 1987 (22 to 23 years old)

Published: *Action of Hypochlorite of Membrane-Bound AFP* 'and presented to the board for peer review of pre-clinical trials, National

Cancer Institute.

U. S. Naval Intelligence hires Dan Burisch to work in classified microbiology project.

1987 (23 years old)

Begins Ph.D. work in microbiology, State University of New York (SUNY).

1989 (25 years old)

Cleared to work in Avionics Lab as Captain, U. S. Navy as Microbiologist IV at the Nevada Test Site/ Area 50 Sector 2 and Area 51, Sectors 3 and 4 under the authority of the United States National Security Council.

Bill Hamilton writes: "A secrecy agreement for the Tonopah Test Range/R4809 dated October 14, 1989, bearing his (Burisch's) signature lists his SSAN as (deleted for privacy) and his rank as 05, and his title as MB III (Microbiology) and his employer as USN DOD Naval Research Laboratory. Another later document gives his service rank as Captain, U.S. Naval Reserve and his title as Microbiologist IV."

1990 (26 years old)

Receives Ph.D. in Microbiology, In Honor Causa, SUNY. Dissertation on membrane bound complexes: appropriately defended.

Publishes: *The Theoretical Role of Oxygen-Based Anions On the Plasmalemmae of Eucaryotes*, and presented to the John Quincy Adams Institute of Research, Technology and Life Sciences, New York, in partial fulfillment of his 1989 Doctoral Dissertation in Honor Causa.

July 17, 1990, Married Deborah Kay Burisch who had a child from previous marriage. 1995 name change to match child's legal last name.

1989 to late 1990s (25 to around 35 years old)

Tissue collection from J-Rod and analysis, Nevada Test Site/ Area 50 Sector 2 and Area 51, Sectors 3 and 4 under the authority of the United States National Security Council.

2002-2003 (38 to 39 years old)

Project Staar Flower: investigating the reality of *panspermia*, the seeding of life on earth from extraterrestrial or time traveler sources.
