

Updated - Crop Formation Reported in Zabno, Poland

© 2004 by Linda Moulton Howe

Zabno, Poland near Moglino (yellow) and west of Warsaw is location for the country's first crop formation this year reported in wheat on May 15, 2004.

May 17, 2004 Zabno, Poland - Robert K. Lesniakiewicz, Vice President of the CBUFOIZA (researchers in Poland who investigate unidentified aerial objects and crop formations), has e-mailed me his recent report along with photographs of a crop formation found in wheat near Moglino (yellow) and Zabno west of Warsaw on May 15, 2004. This is the first for Poland this year after three other formations have been discovered in England in East Sussex, Hertfordshire and Wiltshire counties. (See: More Information below.) Robert reports, "Some UFOs were seen above such places as Rzeszow, Kowale Oleckie and Wloclawek."
