Part 3 - The Danger of Time Loops and A Wormhole on Frenchman Mountain, Nevada

© 2004 by Linda Moulton Howe

Previous **Part 2**

May 31, 2004, Dan Burisch Interview at Frenchman Mountain Continues:

"YOU ARE TALKING ABOUT CREATING PRIMAL LIFE, NOT MANIPULATION OF ALREADY EXISTING AND EVOLVING GENETIC MATERIAL?"

Both could be in theory done. If one would spin off a technology from the project, which is another reason why I'm guarding as carefully as I'm guarding it!

DO YOU THINK THAT ANY OF THIS SHEDS ANY LIGHT ON WHAT WILL HAPPEN IN 2012?

I think the signatures that are due on June 8, 2004, for the T-9 Treaty is an indicator to me that we are looking toward the positive meaning a fruitful outcome of 2012. The proper negotiations have been completed, or are being completed, and are awaiting signatures. So, if everybody cooperates, we should have a collapse of the time lines in 2012.

THE CONVERGENCE OF TIME LINE PARADOX HOW CAN YOU CONVERGE THE TIME LINES AND HAVE THE SPLIT TIME LINES OF THE J-RODS, THE BLONDS AND THE *HOMO SAPIENS* ALTOGETHER IN A CONVERGED TIME LINE WITHOUT THE ELIMINATION OF SOME OF THEM?

Presently, they (J-Rods and Blonds) are simply traveling in time to come back to this present time. So, we're not exactly existing in the same time line with them. It's the actions of time travel which cause the temporal paradoxes. Further than that, talk to Bill Hamilton because he is the physics guy. But **two** time lines would co-exist. Our present time line and those from Orion and the J-Rods. Those two species are concurrent in a time line because they were concurrent at the point of catastrophe (in a previous 2012 in the repeating time loop problem).

SO, THEY ARE CONCURRENT NOW AND THEY ARE GOING TO TRY TO CONVERGE IT INTO ONE IN WHICH THEY WILL REMAIN, FROM OUR POINT OF VIEW, EXTRATERRESTRIALS?

Yes, m'am.

WHAT WILL THAT ACCOMPLISH FOR THEM IF THEY ARE STILL VERY SICK?

It won't. But it will accomplish for us in our reality of not having a catastrophe that ultimately splits our human species.

IT WOULD END THE CYCLE (TIME LOOP)?

Yes, m'am. When it comes to the prevalence of the poly neuropathy and associated conditions with the J-Rods, that's a totally separate issue and it's one that is still being worked upon. It's one of the team that I was lucky enough to head I actually failed to find an answer to. However, there have been some significant inroads of late concerning their biology and so hopefully, we will have at least some treatment to alleviate their problems.

[ERB Events on Frenchman Mountain](#)

THERE WAS AN ACTUAL STAR GATE EVENT HERE?

Yes.

WHAT HAPPENED?

We had some interpretive folks up here. They started doing remote viewing on the area. I requested they remote view the area for the original theory, the one before the biophotonic burst on May 31, 2001. They started getting unusual feelings about the area, that there was something located slightly to the east of where we are standing now. I asked them to define that. The remote viewers started coming up with drawings of the mountain, the small one that we nicknamed the 'Conquistador's Helmet,' and were drawing U-shapes on pieces of paper. They became quite agitated and were not understanding their own feelings about it.

Frenchman Mountain - the white arrow points at a scalloped ridges nicknamed "Conquistador's Helmet" behind which Marcia McDowell, Dan Burisch and other investigators monitored and tried to use what was identified

as a temporarily existing Einstein-Rosen Bridge (ERB) wormhole for communication with J-Rods and unsuccessful time travel experiments. Photograph © 2004 by Linda Moulton Howe.

I took a look at all the drawings and started doing what I do and that's to connect the dots, to create geometric patterns. Finally, I decided to connect just the ends of the U shapes. We thought if there were U's everywhere, maybe there was a uranium deposit here. But no. The area was in fact checked out to see if there was a uranium deposit here and there was not.

We started connecting the dots and when we connected the dots, we got a very interesting geometric pattern. That geometric pattern both related to work done by Dan Winter for the "Ophanic star gate," as well as the Shri Yantra, the sacred mandala of creation. So at that point, I started asking questions: why would we have something relating to both structures in one geometric pattern?

Shri Yantra mandala.

(Editor's Note: From the permutations of Sri Yantra and the pentagon, especially in their primary relations to circle and square, we can derive the actual proportional series that govern the relationship of the notes with the musical scales (*ragas* and *raginis*) and the derivation of the secondary *raginis* from the primary *ragas*. This is the secret of Sri Yantra with its corresponding *mantras*.)

Yantra and the musical modes of the *raga* system are inherently related through their mathematically-proportioned foundation. Just as the basic notes of each *raga* are harmonized so are the visible lines in each *yantra*. And just as the musical string must be plucked in a particular fashion to sound a certain note, so must the *yantra* line be mastered and mentally plucked to bring forth its image or power. Thus, the *yantra* diagram of apparently static lines will, with mental application, vibrate in perfect relation like a finely tuned musical instrument.)

Time Anomalies Allegedly Caused by ERB on Frenchman Mountain

At that point, clocks were left around the Conquistador's Helmet. Then we started noticing a great time disparity in the clocks. Once that happened, then a team moved in from the STAAR FLOWER unit.

WHAT WAS THE OPERATING MEDIA FOR THE CLOCKS?

They were digital as well as analogs left there.

WAS THERE EQUAL DISPARITY, WHETHER THEY WERE DIGITAL OR ANALOG?

It was equal disparity. In the areas where they were placed side-by-side - and I believe our team had them placed side-by-side - just to run a control over the type of machinery.

ANY IDEA OF THE PERCENTAGE OF DISCREPANCY?

No, I was not told that. In fact, the Star Gate issue here has been the least of my concerns. I've been coming here to run the biology and take a look at the geology and see how it related to the biology and try to extend the theory from the serendipitous occasion we had (biophotonic flash).

The remote viewers continued to work and ultimately, I was asked to walk into the area a couple of times because there were some events reported by spotters. There were also a couple negative events which occurred to a couple of the personnel out here. They were severely injured. Ultimately, the Operations Director took over the interpretations having to do with the ERB. It's quieted down. I'm not even sure that it's passing through the earth at this area any more.

THE EINSTEIN-ROSEN BRIDGE WORM HOLE YOU ARE REFERRING TO?

Yes.

DOES IT MOVE?

Yes, apparently we passed through some sort of I would not hazard the physics, but some sort of 'cord,' if you will if you can imagine a gelatinous sphere passing through a cord and the cord ran through the Earth at this location.

CORD?

When I think of a worm hole, I think of a rope. I think of a serpent rope. However, like I said, the one to interpret the material to the east of here is down there (Marcia A. McDowell.) It's her ball game. I just did the biology work. What I tried to make sure and ultimately with her (Marcia) being assigned to the eastern area did make sure that I would not be confusing the elements of the theory. Since the ERB was defined over there, the remote viewers began closely tying the events of the LOTUS to the ERB activity. From my point of view, that was a no-no because we were getting too many confounding variables into the equation. We needed to know step-by-step what science we were finding. It's just too willy nilly for me over there (ERB location on Conquistador's Helmet).

Connection Between ERB and Ganesh Particles?

I suspect that in every mote of dust there exist the probability of producing these (ganesh) particles literally life springing the potential for life, the creativity is literally springing all around us in the dust. ("From dust to dust we come." Bible)

Rob from England: HOW PHYSICAL IS THE VOLTAGES THAT ARE APPLIED IN YOUR GANESH PARTICLE RESEARCH?

The 16.47 to 16.96 millivolt range is critical for maximizing the number of ganesh particles being emitted per cubic millimeter.

WITH A DIFFERENT VOLTAGE, YOU COULD GET REDUCED EMISSIONS?

Yes.

I NOTICED THAT IN YOUR EARLIER EXPERIMENTS, BOTH OHM METER READINGS WERE TAKEN AS WELL AS CURRENT READINGS. AM I CORRECT?

Yes. The resistance, in fact, bottoms out and drops when ganesh particles are being emitted.

SO YOU ARE USING THAT AS AN INDICATION OF WHEN THE PARTICLES WERE ACTUALLY BEING EMITTED?

Yes. In fact, in most cases I would run a cinematography unit through the scope and not actually watch half the time. I'm just watching the instrumentation. When I know they are being emitted, I take a time on it and I run it back to the tape log at that point run the clock back on it and see what we have. That way, it can be done on several trials at the same time where I don't have to have one eye on this microscope and one eye on that one.

ANY IDEA HOW THAT OCCURRED NATURALLY?

I think we are just discovering something that has been going on all the time. We're the new kids on the block.

GENERATING 17 ...

Millivolts.

MILLIVOLTS OH, YEAH, YOU COULD DO THAT.

It's in an ambient range."

Marcia A. McDowell and ERBs on Frenchman Mountain

Those hilly mounds up there are the outcropping, but we go around to the other side.

Linda Howe: ON THE OTHER SIDE WAS THE ERB STAR GATE?

Yes. That's where we ended up having the transmission problems that day when it missed the target and everything blew up.

BECAUSE ENERGY CAME THROUGH FROM A WORMHOLE?

We were doing a test. Actually we were trying to test the communication equipment. We were testing our communication protocol.

THAT WOULD BE TO TEST FROM OUTER SPACE? OR BETWEEN YOU GUYS?

Well, we sent out and were expecting something back. What we got back missed the target slightly. We had a target set up. It was a silver plaque.

YOU WERE TRYING TO COMMUNICATE BETWEEN?

Between us here and them there.

BETWEEN US AND THE J-RODS?

Absolutely.

AND THIS IS THE COMMUNICATION AREA BECAUSE?

This had a natural ERB.

A WORMHOLE ACTUALLY HERE?

Yes, an actual worm hole here. So we were using it for a communications protocol.

TO SEE IF YOU COULD ESTABLISH LIKE WE WOULD A TELEPHONE LINE?

Yes.

AND IT WOULD STAY?

The thing is people were disappearing, so it was a very unstable one and was a little dangerous.

LITERALLY PEOPLE HAD DISAPPEARED?

Yes, literally.

IN THE PROGRAM WHO CAME OUT TO WORK ON THIS?

Yes. We lost personnel. (Two people)

THE DISAPPEARANCE IS THAT THEY ARE NOW GONE TO SOME OTHER PART OF THE GALAXY OR UNIVERSE?

Yes, they are gone! We have literally lost personnel.

SO WORMHOLES ARE NOT THE HYPOTHETICAL - THAT HAWKING, WHEELER AND KIP THORNE THEY WRITE ABOUT THEM AS BEING ONLY THEORETICAL.

They are theoretical to them.

BUT NOT TO YOU AND J-RODS.

No, not to the J-RODS.

YOU WOULD NOT HAVE KNOWN ABOUT THE WORMHOLE ERB WITHOUT THE J-ROD?

I'm not sure if it is a chicken or egg situation or what. At first our people tried to manipulate it, but even I got burned in an experiment. Then we just started trying to use it as a communications protocol instead of trying to transport people.

The thing was, we simply could not get it stabilized. And when they sent the transmission through, it missed the target. It was supposed to hit the silver platter, plaque thing. Oh, boy, it missed and hit rocks to the side of it!

WHAT HAPPENED?

The rocks etched. Part of the platter etched with the message. Then the rocks from the sheer magnitude of the force exploded, fragments everywhere. We called them 'bacon bits.' We had to send a team in to try to recover them. The team freaked out. They said the only people who could go in and handle the damn stuff was Dan or me. So, we ended up having to physically come in here in the middle of the freaking night to try to recover pieces of the transmission. We came up in the middle of the night looking for pieces of the target that were damaged and fractured and faces of rocks that were fractured.

CAN OUR GOVERNMENT CONTROL ERBS NOW AT ALL?

I don't think so. I think after the problem with personnel loss - I don't think anyone is attempting to right now. I think they may have learned their lesson.

Dan Burisch: They are trying to control the equipment.

Marcia: Dan was begging them to stop.

Dan: Yeah, I was telling them to knock it off here. One of the reasons is that it was disrupting my sampling up here.

Linda: BECAUSE PEOPLE WERE DISAPPEARING?

Marcia: I think that was the ultimate problem that stopped them.

Dan: We've had a couple of disappearances and a couple of physical as well as psychiatric maimings.

LINDA: COULDN'T THE J-RODS AND THE BLONDS HELP FIGURE THAT OUT AND FIX IT?

Dan: I don't know. I am only aware of the emotions that were pulled to me having to do with time travel. I'm not aware whether or not they could ameliorate the situation or not. I think that's part of the problem that was engendered with the T-9 Treaty to get one faction (of J-Rods) to sign on so that they would not attempt to manipulate the governments of the world to continue trying to build these ERB "star gate" contraptions that would ultimately turn on, on their own when the Great 2012 Happening happens. Whatever it is.

Rob: The silver plate would have been positioned where?

Marcia: About where she (Linda Howe) is sitting now. A little further up actually, right on the flat section there.

Rob: Is there anything you can tell us about the deciphering of what bit was inscribed on the silver plate?

Marcia: I could, but I would be in a lot of trouble if I did.

Rob: Positive or negative information?

Marcia: Very positive, indeed, but it's just that I can't disclose any of the details. Anyway, this is where that happened.

Saddam Hussein in Iraq and ERB Machines

Linda: SO IS IT TRUE THAT SADDAM HUSSEIN HAD TWO ERBs HE KNEW HOW TO OPERATE - LEFT OVER FROM SUMERIA AND MESOPOTAMIA?

Marcia: No, that's not my understanding of it at all.

Dan: Hussein et al accessed the plans to build the base device to the Djed pillar. The thing is when the actual Djed pillar is erected in 2012 - it's not a physical erection it is an electromagnetic erection.

(Editor's Note: The Djed pillar was a roughly cruciform object with at least three cross bars, but almost always four, that became one of the most recognizable symbols in ancient Egypt. It was sometimes surmounted by a small capital (or perhaps more correctly, an abacus used to support the architrave), and often stands on a rectangular base. Some depictions of the pillar portray it with human arms holding the royal regalia. In representations and in other instances, such as amulets, the Djed pillar could be depicted as flat, but at other times it was produced as a fully round pillar. Egyptian scholars do not have a consensus about its meaning or function.)

Left: A Djed pillar in raised relief; **Right:** Djed pillar showing the rings of a papyrus column. Predynastic Period in Egypt: 5,500-3,100 B. C.

When that happens, too many of these little items (ERB star gates), one too many would be enough to have too much energy - from what I understand - to the biosphere and geosphere. What he (Saddam Hussein) did from what I've been told I was not there in his little evil Santa's workshop or anything but what he did is that he had the ERB information accessed and started building copies of these machines, selling some and handing others off to leaders in the Middle East so he could gain prestige as being a wider Islamic leader who knew Nebucanezzar II, as it were, and it was his (Saddam's) hope that he would be able to gain access in 2012 to essentially the Son of God, Quetzacoatl, to come through the 'fiery furnace' once again as he allegedly did back in Sumerian times.

But we're (U.S. government) getting them picked up (ERBs).

IS THAT THE MAIN REASON WE WENT INTO IRAQ?

That's the main reason that I'm aware of.

RIGHT NOW, AS FAR AS YOU KNOW, THERE ARE NO MORE ERBS IN IRAQ?

As far as I'm aware, there are no machines there. If you're talking about natural ERB points of star gates, that I don't know. But the manmade equipment to access them, as far as I know, that's all been taken down and removed by the United States."

Brief Background

Dan Burisch is a microbiologist who received his Ph.D. from the State University of New York, Stonybrook, in 1989. He is 40 years old now, born on February 2, 1964. His birth certificate name was Danny B (no period) Crain. I have met and talked with his mother, Dodie Crain, and with Dan who confirm the name change and reason for it.

STATE OF CALIFORNIA - DEPARTMENT OF PUBLIC HEALTH		CERTIFICATE OF LIVE BIRTH		SOCIAL REGISTRATION - DIVISION AND 7055	
NAME OF CHILDREN: Danny B. Crain		SEX: Male		MARRIAGE STATUS: Single	
DATE OF BIRTH: February 2, 1964		PLACE OF BIRTH: St. Francis Hospital, Lynwood		COUNTY: Los Angeles	
MOTHER'S NAME: Dodie Crain		FATHER'S NAME: Crain		STREET ADDRESS: 3630 Imperial Highway	
CITY OF BIRTH: Lynwood		STATE OF BIRTH: California		ZIP CODE: 90240	
HOSPITAL: St. Francis Hospital		PHYSICIAN: 02		CERTIFICATE NUMBER: 005192	

Copy of Danny B Crain (aka Dan Burisch) "Certificate of Live Birth" at 4:28 a.m. on February 2, 1964, in St. Francis Hospital in Lynwood, California - a suburb of Los Angeles. Birth certificate provided by "Dodie" Crain.

In 1990, Dan married Deborah Kay Burisch who had a child from a previous marriage. Five years later in 1995, Dan legally changed his last name from Crain to Burisch to match the child's legal last name.

In 1989, as Dan Crain graduated from SUNY Stonybrook with a Ph.D. in Microbiology and Molecular Genetics, Dan was at the same time employed by the U. S. Navy's DOD Naval Research Laboratory. His rank was Captain and his title Microbiologist IV.

In 1994, he was assigned to work in an underground laboratory at S-4/5 at Area 51, five floors under the Pappoose Mountain installation at Nellis AFB, Nevada. The fifth floor is accessible only by one secure elevator. Dr. Burisch told me that in the year 1994, he suited up in the fifth floor underground laboratory like an astronaut with breathing and urination hoses. His assignment was to enter a round "clean sphere" filled with a cold atmosphere of 4% by volume hydrogen, argon and other gases. Inside the clean sphere was an entity originally called "extraterrestrial" by his government superiors and later described as a "time traveler" from 50,000 years in the future. According to Dr. Burisch, his boss reported to a MAJI committee, an extension of the Majestic-12 Special Studies Group organized by President Harry S. Truman in 1947. Majestic 12 included top scientific, military and business leaders asked to study the extraterrestrial phenomenon.
