The Chapter 7 Bankruptcy of Dan and Deborah Burisch

© 2004 by Linda Moulton Howe

July 13, 2004 Las Vegas, Nevada - A month ago on June 12, 2004, I reported an update for Earthfiles and *Coast to Coast AM* with *George Noory* about alleged government whistleblower and microbiologist, Dan Burisch. See: **06/12/04 Earthfiles** and **05/19/04 Earthfiles**. His Ph.D. allegedly was earned at State University of New York, Stonybrook (SUNY) in the 1986 to 1989 time period and paid for by the government, but no diploma or university confirmation has yet been provided.

Bill Hamilton, former Executive Director of Skywatch International and computer programmer at UCLA, had been investigating the Dan Burisch case since Bill first met Burisch in April 2002. Bill had twice videotaped Dan Burisch describing his alleged 1991 to 1994 microbiology work with a non-human entity called "J-Rod" at S-4/5, Area 51, Nellis AFB. The first taping was in September 2002 with Dan, his friend Marcia McDowell and Bill. The second taping was on June 7, 2003. Then Bill was joined by five other men who all had video cameras.

For the June 12, 2004 news updates, Bill Hamilton had given me permission to use audio excerpts from the 2003 interview. I also played excerpts from an interview with Dan Burisch which I had videotaped in Las Vegas on May 30, 2004, when he showed several of us the Vishnu Schist Great Unconformity at Frenchman Mountain east of Las Vegas. There, he said, he had been researching panspermia, a life seeding process he thinks he has found. Dan also discussed an alleged timeline anomaly he says is affecting the J-Rod entities and could affect this planet's future.

Earthfiles, news category.

Two weeks later, George Noory followed up with a *UFO Magazine* challenge to Dan Burisch calling for him to take a formal lie detector test on the record. A reporter in Atlanta named Jarred Schenke was listening. He thought the Burisch story reminded him of a 1989 book he once read entitled *Nighteyes* by Garfield Reeves-Stevens, a writer for *Star Trek* who also wrote *Dreamland*, first published in Canada in 1985. Jarred then searched the name Dan Burisch. What came up was a Chapter 7 filing in the United States Bankruptcy Court in the District of Nevada signed by Danny B Burisch (aka Danny B Crain), his wife Deborah Burisch and their attorney, Frank Sorrentino, on July 16, 2002. The middle initial "B" on Dan's Los Angeles, California February 2, 1964, birth certificate has no period, a detail desired by his mother, Dodie Crain.

Copy of Danny B Crain's February 2, 1964, birth certificate from County Recorder of Los Angeles, California, provided by his mother, Doreen ("Dodie") Crain on which she circled the middle initial "B" without a period, indicating that was a detail she requested.

Dan had told Bill Hamilton that his wife, Deborah, also worked with him in his classified government project, but she had a "cover job" in a Las Vegas casino. How could these two

people be filing Chapter 7 bankruptcy on July 16, 2002, and simultaneously be working for a classified U. S. government project?

On July 5, 2004, I interviewed Dan's longtime friend, Marcia McDowell, about the bankruptcy. According to George Knapp, Las Vegas Channel 8 television reporter, Marcia and Danny Crain have done security work in Las Vegas casinos such as the Fiesta, Sahara and Aladdin. It was McDowell who first introduced Skywatch investigator, Bill Hamilton, to Dan Burisch in April 2002. (See More Background from Bill Hamilton below.) Marcia said: "I've known Dan for an awfully long time, since 1980, when we first met in England at Westercumbershini farm not far from Dunblane, Scotland." (Marcia McDowell is eight years older than Danny Crain.)

Danny B Crain In Dover, England

In 1975 at age eleven, Danny Crain was the youngest member of the Microscopical Society of Southern California where he joined at Long Beach Memorial Laboratory in Orange County. The current president, Jim Solliday, and another former president from the 1970s to 1980s who does not want to comment on the record, confirm the "youngest member" distinction and say the teenage Danny Crain was thought to have great scientific promise fueled by Danny's desire to find a cure for cancer. The young Crain was considered gifted enough to be placed under the mentorship of a prominent veterinarian in London until an unexplained falling out in which the doctor asked Danny Crain to leave. Whatever happened, Dan's mother, Dodie, gave Bill Hamilton a transcript of Danny Crain grades at the Dover Grammar School for Boys, Dover, England, dated September 1980.

Danny Crain - d.o.b. 2.2.64

Danny Crain was introduced to me as a young man and a scholar worthy of serious consideration for entry to Cambridge University to read medicine. He was questioned in detail by my Heads of Department of Biology and Chemistry who consider that his grasp of their subjects was at a higher level than that required for the A Level course of the GCE.

This was confirmed by the tutors at Downing College, Cambridge, who therefore accepted him as a candidate for the college entrance examination to be sat in November 1980. They further arranged for a specific interview to be held in December with a professor of pathology to examine his knowledge and practice in this area. In particular they were anxious to consider details of his research work so far completed on his own account.

I have no doubt, therefore, that this young man has reached a level of intellectual and emotional development to make him a strong candidate for admission to a British University. It would certainly appear that he has attained the level normally required for matriculation.

Marcia McDowell said, "Dan has not worked for the U. S. government like people think of a government scientist. There are no paychecks involved, no 401-K's and matching funds and retirement. There is nothing like that. He works for Majestic-12 (MJ).

I asked her, "But they have to pay him?"

Marcia answered, "They take care of him. But they don't micro-manage the messiness of lives. Chapter 7 and other bankruptcy options can be used as tools by MJ without leaving a paper trail that incriminates them."

Another source close to the evolution of the Dan Burisch saga since 2002 wrote to me about the bankruptcy: "Like Michael Moore's *Fahrenheit 9/11*, what is the REAL issue behind Dan Burisch? I think the 'wolves' aren't GB 43 himself, or Dan in this case, but the actual STRUCTURE of how business gets accomplished at the billion dollar (black budget) level - and EXPOSING those loopholes."

United States Bankruptcy Court, District of Nevada, July 16, 2002

In Chapter 7 bankruptcy, all debts are cleared because there are no assets. The document states: "Penalty for making a false statement or concealing property: Fine of up to \$500,000 or imprisonment for up to 5 years or both. 18 U.S.C. 152 and 3571."

The employment of Danny Burisch, Debtor, is listed as "Homemaker" and the employment of his spouse, Deborah Burisch, is listed as "PBX Supervisor, Mirage Hotel" for 12 years in Las Vegas.

A summary of both Husband and Wife incomes between 2000 and 2002 are listed below. There are two categories of "Income from employment or operation of business" and "Income other than from employment or operation of business." The latter is answered "None" by blackened box.

1. Income from employment or operation of business

None ☐ State the gross amount of income the debtor has received from employment, trade, or profession, or from operation of the debtor's business from the beginning of this calendar year to the date this case was commenced. State also the gross amounts received during the two years immediately preceding this calendar year. (A debtor that maintains, or has maintained, financial records on the basis of a fiscal rather than a calendar year may report fiscal year income. Identify the beginning and ending dates of the debtor's fiscal year.) If a joint petition is filed, state income for each spouse separately. (Married debtors filing under chapter 12 or chapter 13 must state income of both spouses whether or not a joint petition is filed, unless the spouses are separated and a joint petition is not filed.)

| AMOUNT | SOURCE (if more than one) |
|-------------|-----------------------------|
| \$2,162.48 | Wife Employment - 2002 |
| \$700.00 | Husband - Employment - 2001 |
| \$29,473.82 | Wife - Employment - 2001 |
| \$152.98 | Husband - Employment - 2000 |
| \$23,000.00 | Wife - Employment - 2000 |

2. Income other than from employment or operation of business

None ☒ State the amount of income received by the debtor other than from employment, trade, profession, or operation of the debtor's business during the two years immediately preceding the commencement of this case. Give particulars. If a joint petition is filed, state income for each spouse separately. (Married debtors filing under chapter 12 or chapter 13 must state income for each spouse whether or not a joint petition is filed, unless the spouses are separated and a joint petition is not filed.)

Sixty-One Creditors, Including 1997-2000 Student Loans

Sixty-one creditors are listed which include ten student loans in the years 1997 to 2000 and two years listed as 1977, totaling \$14,248. It is not known if the "1977s" are typos. Danny B Crain was 13 years old in 1977. Bill Hamilton raises the question, "If these are student loans for Dan Burisch, what school/s has he attended and what subjects has he taken?"

Among other unpaid bills are \$8,000 for federal taxes from 1996 to 1998 and \$4,507 for

[illegible][illegible]

The last half of 1999, Dan, Deborah and Deborah Burisch's parents lived together in an Ocean Springs, Mississippi apartment near Biloxi. By 2000, Dan and Deborah Burisch were back in Las Vegas, Nevada.

According to reporter, Jarred Schenke, this lawsuit took place in the last six months of 1999 and involved unpaid rent. Marcia McDowell says it was "a single family house." Ocean Springs is in the Biloxi, Mississippi region which has gambling casinos like Las Vegas. Burisch's friend and casino co-worker, Marcia McDowell, had published a book entitled *Signature Bets*, "one of the first surveillance books ever to detail what the House is looking for when it suspects a player has found a Biased Wheel." McDowell had also written and self-published *Eagles Disobey* in 1998 about Dan Burisch's alleged Mars research. (See Publications in Danny Crain 1991 Resume under More Information below.) Marcia says it was the U. S. government that moved Dan, Deborah and Deborah's parents to Mississippi because Burisch was becoming more rebellious and whistleblowing about his microbiology work for the U. S. government's MJ-12. Marcia says the family fought with each other and eventually at the beginning of 2000, were moved back to Las Vegas. Two and a half years later, the Chapter 7 bankruptcy was filed.

Bill Hamilton told me he had never seen the Chapter 7 bankruptcy filing before and agreed it would seem to contradict the Burisch claim that both Dan and Deborah worked for the federal government. But Bill said he thought that Dan had mentioned a bankruptcy back in 2002. Allegedly, Deborah Burisch handled finances while Dan did science.

Reporter Jarred Schenke phoned Deborah Burisch at the Mirage casino in Las Vegas on June 30, 2004, to ask her about the 2002 Chapter 7 bankruptcy filing. Her only comment was: "Don't ever call me at work again." And hung up.

More Background from Bill Hamilton

In April 2002, then Executive Director of Skywatch International and computer programmer Bill Hamilton, first met Danny B (Crain) Burisch and Marcia McDowell in a Las Vegas library. The meeting was arranged by McDowell after Bill Hamilton emailed her concerning a "Q-94" document she had posted at her *Eagles Disobey* website.

Command/Naval Space Command

RELEVANT SCOPE

This document is routed to the appropriate MAGIC-level directorate authorities of the Naval Space Command, pursuant to UNQST (adopted 19 December 1986; enforced 10 October 1987). The final routing has been approved to Razor Back, by direction of 92-NSC-117. The contents of this document are to be regarded as a final report (spec: K-24) of the Principal Investigator, Working Group Leader (R-4800, Occupant Papoose Site 4), as determined by his Commanding Officer, Cmd. John Anthony McGuinness, M.D. (U.S.N., N.S.A.), under final routing to R. Adm. J. McConnell. (U.S.N., N.S.A., MJ-Cosmic) for disbursement.

ORDER

Directed by the N.R.L.: "Determine, to scientific certainty, the reasons for *in vivo* neuronal repair failure, at dendritic terminal ends, from a set of cellular samples, *in vitro*. Classify such reasons, functionally, to ascertain the mechanisms of such failure, then isolate the most probable pre-existing cellular conditions giving allowance to proper regeneration."

SPECIFIC SCOPE

This results of *in vitro* experimentation under NSA/NSC directed Project Aquarius (Subintegument Neuronal Aspirative Avulsion Sampling Subsection King-24 (K-24), Extraterrestrial Biological Entity (EBE) A.K. "AQ-J-Rod" (JR)) are herein related.

One of four pages translated from original difficult-to-read "Q-94-109A" document which Marcia McDowell as "B. J. Wolf" placed on her *Eagles Disobey* website after McDowell published the book, *Eagles Disobey*, in 1998. This alleged government document references "*in vitro* experimentation, ... Extraterrestrial Biological Entity (EBE) A.K. 'AQ-J-Rod.'"

Four years before in 1998, Marcia McDowell as "B. J. Wolf" - had self-published the book "*Eagles Disobey: The Case for Inca City, Mars*, co-authored by Albert 'Butch' Howell, Robert Charles and Dr. Dan B Catselas Burisch" through her Candlelight Publishing Co. based in Las Vegas. (Catselas was added in Danny Crain's full legal name change in 1995.) In that book on Page 255, she included an e-mail she had received "from an unknown host that said, 'RE: Dr. Danny Crain' in the header:

I have just learned of the new book that Dr. Crain is involved with. I worked with Dr. Crain from 1988 to 1989, at the Papoose Lake Facility, known to most as S-4 inside the N.T.S., near the Facility at Groom Lake. I am under a restriction not to contact him as he has already returned the ire of those under whom we have worked. I am worried that this book will compromise his safety and possibly get him killed. I write this letter with the best intent, for his welfare. Maybe you can explain that to him. At the time I worked with him, he was a vibrant Navy biologist that never let anything stand in his way. He was a practicing M3 for the Black Operations Team that worked on a Q4 secret project known as AQ-J-Rod. Dr. Crain led a small group that penetrated the subject's test area, retrieved samples and tested them through laboratory techniques and with high powered microscopes. He was the one that entered the testing sphere and encountered the being. How can I help? I have a hacker friend that has helped me break into a system to prevent tracking. Please write back. It was signed "Kay."

In April 2002, Dan Burisch told Bill he was a microbiologist who had worked for the U. S. government's MJ-12 and MAJI Committee since recruitment in 1986 by Naval Intelligence while he was completing his Bachelor's Degrees in Psychology at the University of Las Vegas in Nevada. There are no military records for Danny B Crain or Danny B Catselas Burisch and Dan explained he was never inducted in any military unit. But in his secret work as a government microbiologist, he said he would sometimes be asked to wear military uniforms for formal meetings.

Has Conferred Upon

Danny B Crain

the degree of

Bachelor of Arts

with all the rights and privileges thereunto appertaining.

In witness thereof this diploma duly signed has been issued and the seal of the University affixed.

Approved by the Board of Regents upon recommendation of the Faculty on this twenty-fourth day of December, in 1986.

Danny B Crain graduated with a B. A. in Psychology from the University of Las Vegas, Nevada, in December 1986.

According to Dan and Marcia, Psychology was a secondary option after he quarreled with his Biology Department's head over research work allegedly of interest to the National Cancer Institute (NCI).

In 1986, Dan Burisch said he was approached by the U. S. Navy to work for them and that the government paid for him as Danny B Crain to go on with his Ph.D. work in Microbiology and Molecular Genetics at State University of New York (SUNY) Stonybrook. According to Dan, no one can have access to his SUNY records because the Majestic-12 demands secrecy in the interest of classified projects and national security. Bill Hamilton says a man who did not want to speak on the record remembered Danny Crain in biology courses at SUNY. But television reporter, George Knapp, says he first received correspondence from Danny Crain back in the late 1980s about computer systems functioning through biological neuronal tissue, but has never been able to find a professor or anyone at SUNY that remembers a Ph.D. student named Danny Crain.

1990 - Danny B Crain Marries Deborah Kay Burisch

Danny B Crain married Deborah Kay Burisch on July 17, 1990, in Las Vegas. Dan Crain met Deborah while working as a parole officer in Las Vegas. She had a one-year-old child named Tiffany born in 1989 without marriage. In 1995, Dan legally changed his last name from Crain to Burisch "to match the child's and Deborah's last name," he said. Deborah Burisch did not want to change her maiden name.

DISTRICT COURT
CLARK COUNTY, NEVADA

IN THE MATTER OF THE APPLICATION)
OF DANNY B CRAIN, FOR) DEPT. NO.
CHANGE OF NAME.)

PETITION FOR CHANGE OF NAME

TO: THE HONORABLE ABOVE-ENTITLED COURT:

COMES NOW the Petitioner, DANNY B CRAIN, and respectfully avers as follows:

I

Petitioner is over the age of 21 years and is a resident of the County of Clark, State of Nevada, and has never been convicted of a felony.

II

Petitioner is, and has been for several years last past, married to Deborah Kay Crain, whose maiden name is Deborah Kay Burisch. Petitioner's wife had a child before their marriage who bears the name of Tiffany Burisch and subsequent thereto, Petitioner and his wife had a child who bears the name of "Victoria Burisch." In order to allow the children to retain the names that they have known all their lives and in order to make the relationship of parent and child more easily recognized by the public, it is the desire of

Petitioner requests that his name be changed to DANNY B CATSELAS BURISCH reflecting the surname name of his original ancestors from Greece and his wife's maiden name, respectively, and that he has no intention to defraud creditors or avoid criminal prosecution.

WHEREFORE, Petitioner prays that the above-entitled Court make and enter its Order changing the name of Petitioner from DANNY B CRAIN to DANNY B CATSELAS BURISCH so that he may from and after such Order have the name "DANNY B CATSELAS BURISCH."

In addition, Petitioner prays for such other and further relief as the Court deems meet and proper in the premises.

DATED this 4th day of June, 1995.

DANNY B CRAIN

In the early 1990s, Burisch as Danny Crain said he worked both public "cover jobs" and at S-4/Area 51, Nellis AFB, on classified projects related to "J-Rod" extraterrestrial time travelers and panspermia research. Bill understood that Dan Burisch continued to work for the U. S. government through the 1990s and up to his alleged retirement on June 8, 2004. Bill Hamilton also understood that Deborah Burisch worked for the U. S. government as Dan's government "handler," a person assigned to monitor Burisch's microbiology work, while maintaining her "cover job" as PBX Operator at the Mirage casino.

March 31, 1988 State of Nevada Department of Parole and Probation Certificate of Training to Danny Crain, one of several he received during 1988 to 1989.

2002-2004 Whistleblowing

By September 2002, Marcia McDowell ("B. J. Wolf") and Dan Burisch arranged another Las Vegas library meeting in which Bill Hamilton was allowed to videotape Dr. Burisch as a frustrated "whistleblower." See **09-15-03 Earthfiles**.

A few weeks later in December 2002, Dan Burisch was allegedly beaten up in retaliation for his whistleblowing. Marcia McDowell had already moved to Canada, she said, to escape people who were threatening her because she was trying to help Burisch. Bill Hamilton received an e-mail that Dan Burisch had died and posted the notice at his Skywatch International website.

Then in Spring 2003, Dan Burisch re-surfaced alive and claimed he was in a kind of "house arrest" situation in which he was forced to do microbiology work for the MJ-12 MAJI Committee. Marcia McDowell returned to Las Vegas from Canada with her mother ill with Alzheimer's disease and moved into a house where the two have lived for the past year. McDowell told Bill Hamilton she was given an offer by the MJ-12 group to work on the "inside" with Dan Burisch on his panspermia research at the Vishnu Schist Great Unconformity on the eastern outskirts of Las Vegas and that she and her mother would "be taken care of" in exchange for her work but she would not receive a routine paycheck because MJ-12 does not want paper trails.

By June 7, 2003, McDowell had arranged another meeting in Las Vegas in which Bill Hamilton and five other people with video cameras were given permission to videotape microbiologist Dan Burisch speaking on the record as a government microbiologist whistleblower.

A year later on Memorial Day weekend 2004 at Idaho MUFON Ike Bishops' Rachel, Nevada UFO camp out conference, Dan Burisch and Marcia McDowell showed up Sunday morning, May 30. Dan told us he had negotiated an agreement with his government handlers to retire as of June 8, 2004, and would not be making any more public statements after that date. A week and a half later, on June 12, 2004, I reported about the Vishnu Schist field trip and audio excerpts from the June 7, 2003, videotape at Earthfiles.com and on *Coast AM with George Noory*. By the third week in June, Atlanta reporter Jarred Schenke had contacted me and others about the Chapter 7 bankruptcy.

Neither A Negative Nor Positive Yet Proved

So far, the July 16, 2002 Chapter 7 bankruptcy does not prove the negative that Dan Burisch has lied about doing microbiology work for the MJ government group. But there is no hard proof for the positive either that Burisch has worked for the government. When I asked Bill Hamilton about the bankruptcy issue, he said:

"I am quoting some material from Glen Campbell's interview with Bill Uhouse in 1996 (See **06-14-99 Earthfiles**). The following is From *The Groom Lake Desert Rat* Issue #33, February 19, 1996 © by Glen Campbell, former Editor, *The Groom Lake Desert Rat* online newsletter about events at Area 51, Nellis AFB:

'Bill Uhouse says the satellite government lives by its own laws, completely separate from the conventional government except for an interface with the military. It is not controlled by any other agency, so it does not have to obey the security regulations of other agencies. The fact that Jarod is allowed to

peak does seem to imply permission from a higher level than the supervisor, but perhaps a word from management, without any paperwork, is all it takes to make something secret or not secret. Security could be both more intrusive than in any conventional defense program and more informal to those who are used to the structure. Consider the special circumstances....

"This agency was separated from the rest of the government over 40 years ago. Thus, it would have had an opportunity to evolve in its own way, adapting to the unique requirements of the subject matter.

"The organization is largely composed of older men who have worked with each other for decades. A worker's supervisor and his security officer are assigned to him for life.

"The organization is extremely hierarchical, especially given the needs of compartmentalization. A worker reports only to his immediate supervisor, and direct contacts with members of other departments and higher management are rare.

"The subject matter is so outwardly bizarre that even if parts of it were known, they would not be believed by the press or public. Most leaks and minor breaches of security would be so incomprehensible to an outsider that they would have no real effect."

Bill Hamilton also described what engineer Bill Uhouse said during a question and answer session at a public lecture:

"People like myself, we signed away our constitutional rights at the time (we joined the program). We took the secrecy oaths and signed those documents. We basically worked under a dictatorship, but a benevolent dictatorship. But I want to say this: I enjoyed myself, had no problems. As a matter of fact I just enjoyed my work. As far as dictators, we were told what to do and we were good boys. Nothing went wrong.

"But there were some who necessarily didn't make it. I don't know what happened to them. I never heard of anyone being put away or put to death. They were transferred to other places."

Bill Hamilton continued: "As I remember, Bill Uhouse said he didn't receive a paycheck during his work on the flight simulator, nor did he bother filing taxes. He said everything was taken care of for him, that he was well taken care of, but did not elaborate much beyond that."

Danny B Crain Resume from 1991

Note from Bill Hamilton about John Quincy Adams Institute referenced under "College." Bill says that Marcia McDowell told him that MJ-12 substituted this school name to cover-up Dan's State University of New York at Stonybrook (SUNY) attendance where Danny Crain allegedly did Ph.D. work in Microbiology and Molecular Genetics paid for by the government. But it's not clear why SUNY itself should not be straightforwardly acknowledged, if a legitimate degree was earned there. It's also not clear why such a Ph.D. diploma is not forthcoming from either Dan Burisch or his alleged government handlers if his credibility as a microbiologist with advanced training is now questioned.
