

## Part 1: Time Travel, Insights from USAF Sergeant and UFO Abductee

© 2006 by Linda Moulton Howe

"(*The Bentwaters AFB E.T.s*) are time travelers.  
*They are us (from far in the future.) ... They need chromosomes.*  
*...(They are using us) Like Band-Aids.*" - USAF Staff Sergeant James Penniston

**October 8, 2006 Albuquerque, New Mexico** - Time travel technology has come up so much over the years in both the abduction syndrome and military/intelligence conversations, on and off the record.

But in addition to human time travelers from a distant, damaged future trying to survive, there is no question in my mind that our government has been trying to cope for at least sixty years with a wide variety of "extraterrestrial biological entities," which interface with Earth and also use time travel technologies.

The complexity of the phenomena and the many unknown agendas keep power-humans in straightjackets. Then when you add the global animal mutilations and human abduction syndrome to the mix, a policy of strict denial about it all was, and is, provoked.

But I keep doing my work because I do not agree that lies and denials are ever the correct policies - especially in a country that is supposed to be a "government of the people, by the people, and for the people." The following was first presented in my book, *Glimpses of Other Realities, Vol. II: High Strangeness* © 1998.

Earthfiles, news category.

Christmas week in December 1980 was a tense and confusing time for several dozen men at the joint United States and English Royal Air Force Base at Bentwaters near the southeastern coast of the British Isles. In the early morning hours of December 26, odd lights were seen moving in the Rendlesham forest and various security and military personnel investigated.

Two of the security men, Staff Sergeant James Penniston and Airman First Class John Burroughs, had a close encounter with one of the lights. From that time onward, Penniston has had haunting memories and dreams of both the night in the forest and a follow-up debriefing session by intelligence agents who apparently used a drug and hypnosis combination to retrieve further information from Penniston and to possibly erase part of his memory.

On September 10, 1994, Jim Penniston volunteered to undergo hypnosis with a hypnotherapist to remember more details of the Bentwaters AFB incidents and his own involvement in them. The following is a summary with verbatim excerpts from that 1994 hypnosis session, which I transcribed from an audiocassette recording.

Penniston remembered having Christmas Day dinner on December 25, 1980, with his family. Then he returned to work that night at Bentwaters AFB. The hypnosis session began with Penniston describing the appearance of blue and red lights moving in the forest at the East Gate of Bentwaters around 2 a.m. in the early morning of December 26, 1980. Afterward, there were a series of meetings and debriefings with superior officers.

Lt. Col. Charles I. Halt, Deputy Base Commander at Bentwaters, told Penniston, "The reports will remain confidential and we should treat the incident as Top Secret and not discuss it with anybody."

Penniston remembered being told there was radiation where the lights had been, a dosage equivalent to "five or ten x-rays."

After his encounter with lights, Penniston received a call to report on December 30, 1980, to the Orderly Room at the head of the 81st Security Police Squadron, Bentwaters. There Major Malcolm Zickler ordered Penniston to report to the Air Force Office of Special

Investigations (AFOSI) for a meeting to tell his story to AFOSI Special Agent "G." Present also was Major "B." AFOSI's task is to investigate Air Force personnel crimes and other sensitive matters. Therefore, it is the only organization that can legally intrude into the command structure at any level without commanders having full knowledge.

Penniston knew he had purposely left out the most significant part of his encounter: approaching a white light, seeing a large disc-shaped craft with raised symbols on its surface, reaching out to touch the symbols and receiving binary code information.

Penniston was asked to wait while the officers talked outside in the hall with unidentified men. Through the wall, Penniston overheard the name "D. S. 8 or A," or "D. C. 8 or A." Most likely it was DS8, Britain's Ministry of Defence Secretariat "responsible for dealing with complaints of low-flying aircraft," according to *Sky Crash* about the December 1980 Bentwaters AFB mystery © 1984 by Brenda Butler, Jenny Randles and Dot Street.

Agent G returned to introduce two more men who asked Penniston to repeat his story a second time. He did, but again left out touching the raised symbols on the craft's hull.

Then Agent G left to confer privately outside his office yet again and two other agents came back to tape record the third telling of Penniston's story.

## Excerpts from September 1994 Hypnosis Session With Former USAF Staff Sergeant James Penniston

Event: Lights and Disc Encounter  
Bentwaters AFB, England, December 26, 1980

The agents asked Sgt. Penniston to sign a release so he could be given Sodium Pentothal (thiopental) combined with hypnosis. Thiopental is a barbiturate, which induces unconsciousness smoothly and rapidly and has been referred to as a "truth serum" when used with hypnosis techniques. The agents told Sgt. Penniston the session would be recorded by two tape recorders. Penniston said he agreed "to get them off my back. They seemed a lot happier after I signed the release."

Penniston remembered that the agents at Bentwaters had him "lay down on a walnut table" and that a "British guy" got the needle ready. An American said the procedure would not hurt, that "it's standard procedure and not to worry about it. We've done it before."

The questions began about the lights that appeared at the Bentwaters AFB Eat Gate at zero, zero, zero, two hours (00:02 AM) on December 26, 1980. Transcript source: *Glimpses of Other Realities, Vol. II: High Strangeness* © 1998 by Linda Moulton Howe, pages 100-106. See: **Earthfiles Shop**.

"WHAT'S HAPPENING?

I see the craft. The lights dissipate. They want to know what symbols I'm seeing. I don't want to tell them, but I tell them. They want to know what I did next. *I said I felt the symbols because they were raised.* (Howe's emphasis.) Tell them about the lights. White light. They already know about the lights. They are asking me if I see binary code? I see the binary code. They are slowing me down.

WHAT'S HAPPENING?

I understand.  
WHAT DO YOU UNDERSTAND ABOUT THE CODE?  
I'm the interpreter. They need interpreters. The lights.  
THE LIGHTS. SO WHAT IS THE CODE SAYING?  
You can't read these codes unless you have an interpreter.  
I understand what's going on now.  
WHAT'S GOING ON?  
The symbols.  
THE SYMBOLS — WHAT DO THEY MEAN?  
Oh, it's information being exchanged. That machine —  
that's for interpreters, there's lots of interpreters.  
YOU ARE AN INTERPRETER?  
Yes.  
CAN YOU INTERPRET THAT CODE FOR ME?  
Yes.  
DO THAT NOW.  
Explain. Mission. Purpose.  
AND THE MISSION IS?  
Contact.  
DO THEY SAY CONTACT WITH WHAT?  
Us.  
PURPOSE?  
Research.  
FOR?  
To help them.  
TO HELP THEM WITH WHAT?  
Themselves. *They are time travelers. They are us.*  
(Howe's emphasis.)  
THEY ARE US FROM?  
The future.  
HOW FAR IN THE FUTURE?  
A long time. Very long time.  
WHAT DO THEY NEED FROM HERE?  
They need something from all interpreters.  
WHAT DO THEY NEED?  
Not sure, but it has to do with chromosomes?  
Or something like that.  
AND HOW DO THEY GET THAT?  
They take it.  
FROM WHERE?  
From the other people's bodies.  
FROM WHAT PART OF THE BODY?  
Depends.  
WHERE DID THEY TAKE IT FROM YOU?

Didn't.

BUT YOU WERE AN INTERPRETER.

We only interrupted. ...*They* (time travelers) were interrupted. They are having problems. The program's ... I understand what they are saying, but they weren't supposed to be there. They are having problems. The odds are against them.

YOU WEREN'T SUPPOSED TO UNDERSTAND THE PROGRAM?

No. By touching these things (raised symbols on surface of craft), I activated these things.

YOU TOUCHED THE SYMBOLS AND YOU SET OFF A PROGRAM?

Yes. It was repairing itself. All they wanted was a place to stay while it repaired itself.

AND BY TOUCHING THE SYMBOLS, YOU DISRUPTED THE REPAIR PROGRAM?

I activated a binary code. The two (govt.) men want to know why.

AND WHAT DO YOU ANSWER THEM?

They ask me if I ever had any other encounters with them (lights and time travelers)? I haven't. They are discussing it between themselves. The situation. They've got a problem.

WHAT'S THEIR PROBLEM?

Their (govt.'s) problem is because I can't tell anybody. They ask no more questions about the craft. And they want to know what to do with me."

Penniston explained chromosomes were gathered for different reasons, particularly to help the time travelers because they have a "physical problem" and he felt sympathy for them. Penniston said the time travelers have "been coming here for a long time, at least thirty or forty thousand years, trying to sustain their children in the future. He explained that the children have hairless, humanoid bodies with pale skin and very large eyes "to take in more light" because the future earth will be different.

"THEIR COMING AND GOING, IS IT GOING TO HAVE ANY NEGATIVE EFFECT ON US?

No. It won't hurt us at all.

WILL IT ALTER OUR FUTURE AT ALL?

Not sure.

IF FOR SOME REASON THEY CAN'T GET THESE CHROMOSOMES, WHAT WILL HAPPEN TO THEM?

They will die.

THE RACE WILL DIE. CAN THEY REPRODUCE?

This is a problem.

REPRODUCING IS A PROBLEM. DO OUR CHROMOSOMES HELP WITH THAT?

Apparently.

ARE THEY USING US SOMETHING LIKE BREEDING STOCK?

No. Like Band-Aids.

BAND-AIDS? BAND-AIDS FOR THEIR PROBLEM?

Increase ... they are going to be increasing. We haven't noticed them (before, but now) it's becoming more cumbersome.

THEY ARE GOING TO INCREASE THE AMOUNT OF WHAT?

Visits.

DO THEY EVER TAKE FETUSES?

If it's tasked, they do. There are different ships for tasking. Everyone (the govt. agents) knows about this.

HOW DO YOU KNOW THIS?

That's what they (agents) are talking about. That's why they want to contain the situation.

WHO WANTS TO CONTAIN THE SITUATION?

Damage control.

WHO HAS DAMAGE CONTROL?

The Americans and British.

THEY SEE YOU AS DAMAGE CONTROL?

They see me and John and they're worried about Col. Halt. They know all about us.

WHY ARE THEY WORRIED ABOUT COL. HALT?

He won't leave it alone.

WHAT DO THEY PLAN ON DOING ABOUT COL. HALT? DO THEY SAY?

They have options. They were going to discredit him, but the UFO story is fine." (Howe's Note: Implication is that perhaps an extraterrestrial UFO story is easier to handle publicly than the concept of time travelers from *our* future that are having survival problems.)

Penniston was frustrated that the time travelers would not answer his questions such as what year they came from in the future. He explained that the time travelers' communication was telepathic. "Their brains are very large. More importantly, they use more (brain) than we have. We have it, but it's not developed. We don't use everything."

"WHEN YOU WERE COMMUNICATING WITH THEM,  
DID THEY EVER SAY THEY COME IN PERSON?

Oh, yes.

THEY HAVE MANNED CRAFT?

They have different tasks. Initial tasks are to find interpreters.

DO THEY EVER TAKE CHROMOSOMES OR CELLS OR THINGS FROM ANIMALS?

They have, but not for them.

FOR WHOM?

Study. It doesn't help them. ... Sometimes they make different chemicals.

WHAT WOULD THEY MAKE DIFFERENT CHEMICALS FOR?

I don't know. They've had their problems, too. ... This time they were having problems, but they got it off. They have to be out in space to travel. I thought they just had to sit there. They've got to be in space. They need speed to travel.

TO TRAVEL THROUGH TIME?

To go backwards. They can't go forward.

THEY CAN'T GO INTO THEIR FUTURE? BUT THEY CAN GO BACK INTO THE PAST?

They go to their past. It's impossible to go into the future.

HOW FAR INTO THE PAST CAN THEY GO?

These ships can go forty or fifty thousand years. They can't go back much further. They might not be able to get back.

SO THEY DON'T HAVE THE CAPACITY TO GO BACK TO THE BEGINNING OF TIME?

No, they can't generate that kind of speed. It takes a lot of speed."

Penniston said that the U. S. government gained access to one of their craft because "they mess up some times," implying there was a crash.

"HAVE THEY HAD VERBAL CONTACT WITH THE GOVERNMENT TO EXPLAIN THIS SITUATION?

No. Only through interpreters.

ONLY THROUGH INTERPRETERS LIKE YOURSELF?

That makes it hard for our government. They're not sure what the problem is. That's why I am being debriefed.

DOES THE GOVERNMENT BELIEVE WHAT YOU ARE

SAYING ABOUT THEM COMING FROM THE FUTURE?  
 Oh, yes.  
 THEY BELIEVE THAT?  
 Oh, yes.  
 DOES THE GOVERNMENT FEEL THAT THEY POSE  
 ANY THREAT?  
 No military threat.  
 WHAT OTHER TYPE OF THREAT WOULD THEY BE?  
 Sometimes they become impatient.  
 AND THEN WHAT?  
 They take what they want because it does help their study.  
 SO SOMETIMES THEY TAKE PEOPLE?  
 Sure.  
 SO IF THEY TOOK GENETIC MATERIAL FROM SOME-  
 ONE TODAY, THEN YOUR CHILDREN COULD BE BORN  
 WAY IN THE FUTURE?  
 I play a very small part depending on the offspring. I  
 might be responsible for their offspring, but it is thirty or forty  
 generations down the road who is responsible for parenting.  
 That's the person who could accept the time line.  
 WHY DO THEY COME BACK SO FAR?  
 So it doesn't affect the time line. The farther it is, the  
 better, the least affect it has on changing the future. They  
 don't want to change the future.  
 SO IT'S NOT THAT IT'S NOT POSSIBLE TO CHANGE  
 THE FUTURE. THEY DON'T...  
 They can't control it. It's too cumbersome. They're not  
 tampering with it. That's why they come back so far. Does that  
 make sense?  
 YES. OK, LET'S MOVE FORWARD TO WHERE YOU  
 HEAR THE AGENTS TALKING ABOUT WHAT THEY ARE  
 GOING TO DO WITH YOU.  
 They are going through their check list. They have a  
 scripted check list.  
 WHAT'S THE SCRIPT?  
 They tell me when I was at the East Gate with John, they  
 have five different stories to tell. *Important to scramble dates.*  
 That's the unique thing about this — all stories are the same.  
 They just have different dates. (Howe's emphasis and note:  
 Changing dates confuses and undermines consistency of eyewitness  
 testimonies and thus confounds investigators.)  
 WHAT'S HAPPENING?  
 They are reading my story to me. The dates are just  
 different. I'll remember. They're going to give me a warning.<sup>46</sup>

WHAT'S THE WARNING? WHAT HAPPENS IF YOU  
 DISOBEY THE WARNING?  
 There is nothing they can do. They tell me that I will hurt  
 the world. It will breach national security and can destroy the  
 system, cause wars, chaos in the streets. That's why it's impor-  
 tant to keep it quiet. (But) ...it doesn't make any difference if I  
 talk about the story. They could care less. It's too unbelievable."

## Time Travel in Quantum Physics

Time travel is also a serious subject in modern physics. Mathematical theory says that if matter approaches the speed of light, time appears to slow down to an external observer. If you were the matter, you would notice no difference in time. The closer you got to the speed of light,  $c$ , the slower time would go. If you reached  $c$ , time would stop. Then if you could exceed  $c$ , time would reverse - but only to the outside observer. You, the traveler going faster than light, would have no reference point for time change until you returned to your physical starting point on Earth, for example, and slowed back down to normal speeds. Then you would find you had returned to the past like the famous limerick:

*There once was a lady named Bright  
 who traveled much faster than light.  
 She departed one day in a relative way  
 and came home the previous night.*

Theoretical physicist Kurt Godel described in his book, *Albert Einstein: Philosopher-Scientist*, a particular kind of rotating galaxy in which "by making a round trip on a rocket ship in a sufficiently wide curve, it is possible in these worlds to travel into any region of

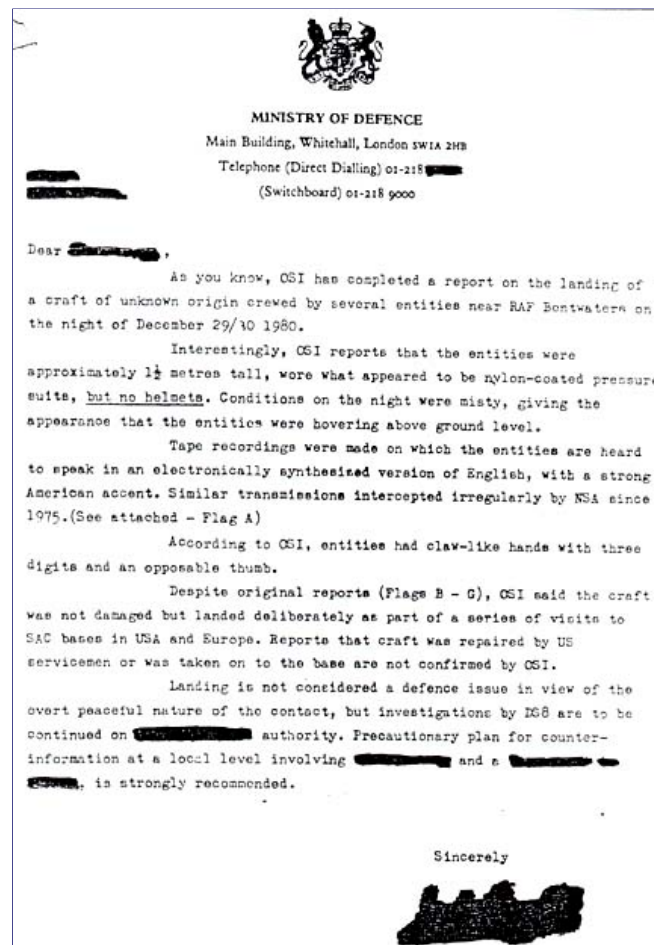

the past, present and future, and back again, exactly as it is possible in other worlds to travel to distant parts of space.

"This state of affairs seems to imply an absurdity. For it enables one, for example, to travel into the near past of those places where he has himself lived ... But the velocities which would be necessary in order to complete the voyage in a reasonable length of time are far beyond everything that can be expected ever to become a practical possibility: ...the velocity of the ship must be at least one over the square root of two of the velocity of light."

Repeating what Penniston recalled in hypnosis:

They've got to be in space. They need speed to travel.  
TO TRAVEL THROUGH TIME?  
To go backwards. They can't go forward.  
THEY CAN'T GO INTO THEIR FUTURE? BUT THEY  
CAN GO BACK INTO THE PAST?  
They go to their past. It's impossible to go into the  
future.  
HOW FAR INTO THE PAST CAN THEY GO?  
These ships can go forty or fifty thousand years. They  
can't go back much further. They might not be able to get  
back.  
SO THEY DON'T HAVE THE CAPACITY TO GO BACK  
TO THE BEGINNING OF TIME?  
No, they can't generate that kind of speed. It takes a lot  
of speed."

WHY DO THEY COME BACK SO FAR?  
So it doesn't affect the time line. The farther it is, the  
better, the least affect it has on changing the future. They  
don't want to change the future.

British Ministry of Defence Memo that references "several entities near RAF Bentwaters on the night of December 29/30 1980." The date discrepancy with Jim Penniston's account is because several events took place over several nights.

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS, ROYAL AIR FORCE  
RAF BENTWATERS

13 Jan 81

CU

Unexplained Lights

RAF/CC

1. Early in the morning of 27 Dec 80 (approximately 0300L), two USAF security police patrolmen saw unusual lights outside the back gate at RAF Woodbridge. Thinking an aircraft might have crashed or been forced down, they called for permission to go outside the gate to investigate. The on-duty flight chief responded and aligned three patrolmen to proceed on foot. The individuals reported seeing a strange glowing object in the forest. The object was described as being metallic in appearance and triangular in shape, approximately two to three meters across the base and approximately two meters high. It illuminated the entire forest with a white light. The object itself had a pulsing red light on top and a bank(s) of blue lights underneath. The object was hovering or on legs. As the patrolmen approached the object, it maneuvered through the trees and disappeared. At this time the animals on a nearby farm went into a frenzy. The object was briefly sighted approximately an hour later near the back gate.
2. The next day, three depressions 1 1/2" deep and 7" in diameter were found where the object had been sighted on the ground. The following night (29 Dec 80) the area was checked for radiation. Beta/gamma readings of 0.1 milliroentgens were recorded with peak readings in the three depressions and near the center of the triangle formed by the depressions. A nearby tree had moderate (.05-.07) readings on the side of the tree toward the depressions.
3. Later in the night a red sun-like light was seen through the trees. It moved about and pulsed. At one point it appeared to throw off glowing particles and then broke into five separate white objects and then disappeared. Immediately thereafter, three star-like objects were noticed in the sky, two objects to the north and one to the south, all of which were about 10° off the horizon. The objects moved rapidly in sharp angular movements and displayed red, green and blue lights. The objects to the north appeared to be elliptical through an 8-12 power lens. They then turned to full circles. The objects to the south was visible for two or three hours and beamed down a stream of light from time to time. Numerous individuals, including the undersigned, witnessed the activities in paragraphs 2 and 3.

  
CHARLES I. HALT, Lt Col, USAF  
Deputy Base Commander

January 13, 1981, report to the Royal Air Force/CC by Bentwaters USAF  
Deputy Base Commander, Lt. Colonel Charles I. Halt, obtained  
through a Freedom of Information Act request.
