## Iowa Minister Reports Large "Crab/Scorpion" Creature Attacked Cow

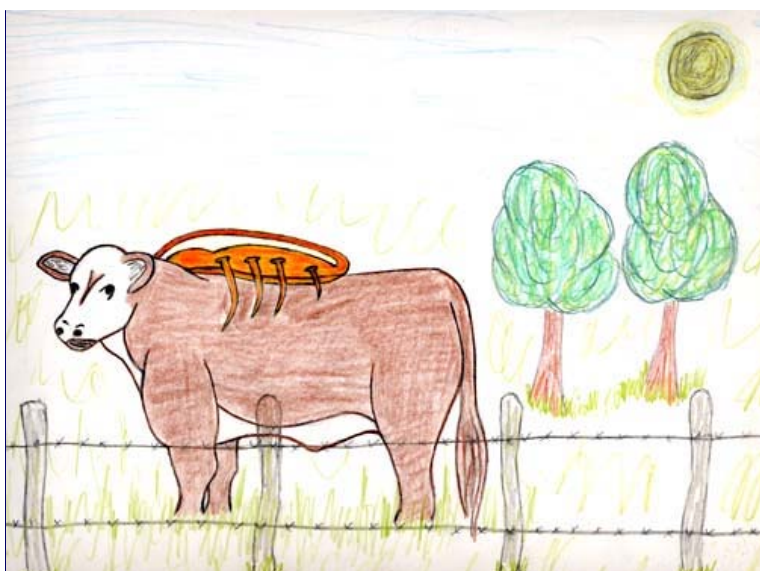

© 2007 by Linda Moulton Howe.

**Click for podcast.**

Unidentified "crab/scorpion" creature on top of cow  
bellowing in pain around 7:30 PM, in either August 1996 or 1997,  
on Highway 4 between Upland and Campbell, Nebraska.

Drawing © 2007 by Rev. John Click.

Unidentified "crab/scorpion" creature on top of cow bellowing in pain around  
7:30 PM, in either August 1996 or 1997, on Highway 4 between Upland and Campbell,  
Nebraska. Above the trees about 100 yards from the barbed wire fence and road  
was a bright light that moved to different locations. Cow attacked by creature was only  
25 feet from John Click's semi-trailer truck stopped on Highway 4, Nebraska.

Drawing © 2007 by Rev. John Click.

John Click, retired marine and firefighter/paramedic, drove trucks in 1996-1998 for Feekes, a division of KMH Trucking. In August in either 1996 or 1997, he was in an 18-wheeler semi-truck traveling from Garden City, Kansas, to Grand Island, Nebraska. Trying to make up for a time delay, he traveled north on 283 (lower left corner) to Norton, Kansas, and went east to Highway 383 cutting across to Highway 183, which he took north to a small, rural Highway 4 (upper red circle). He turned east and between Upland and Campbell (red highlighted line) was an "unearthly" creature on the back of a cow in a pasture along Highway 4.

**July 13, 2007 Council Bluffs, Iowa** - The first phone calls I made to law enforcement, ranchers and fellow journalists about the animal mutilation mystery was in early September 1979 - twenty-eight years ago. I was Director of Special Projects at the CBS-TV station in Denver, Colorado, where I produced documentaries, live studio audience broadcasts and news updates about science and the environment. That summer of 1979, hundreds of animals, ranging from cattle and horses to goats, sheep and wild game such as deer and elk, were found with the same pattern of bloodless excisions from their bodies without signs of struggle or tracks - not even their own tracks.

I remember being with one sheriff in northern Colorado at the scene of a fresh mutilated cow when he found a quarter-inch-wide hole about an inch deep where the right shoulder joined up with the cow's neck. The sheriff stuck his pen in the hole and said to me, "This is not a bullet hole."

In the nearly three decades since, I have investigated dozens of fresh mutilations and several have had an odd quarter-inch by about one-inch deep hole in the chest and neck area that have never been explained.

Further, in northern New Mexico, on October 1, 2006, a red Angus bull was found with one of its eyes, the genitals, and anus "surgically removed" without blood. On both sides of the bull's rib cage, there were three round circles impressed into the hide. See **052507 Earthfiles**.

Odd trio of round marks penetrating hide-deep on bull's left and right (shown above) rib cages. Owner Albert Martinez said there was no blood on October 1, 2006, when he discovered his bull. But small blood trickles appeared later around excision of genitals and rectal tissue. Darkened patch appears scorched. Photograph on October 4, 2006 © by Robert Allen.

Those trio of circles on either side of the Canjilon, New Mexico, bull's rib cages and the puncture holes (not looked for in Canjilon case by original investigator) might finally be explained by an eyewitness who emailed me in late June 2007, about an encounter he has never discussed with anyone until now "because I didn't think anyone would believe me."

Reverend John Click, ordained minister in a Council Bluffs, Iowa, Baptist church, was born in 1960 in Wichita, Kansas. He entered the U. S. Marines out of high school in 1976 to 1979, followed by one year in Marine Reserves. During the Carter Administration, he flew as a Marine security guard on Air Force One.

Then for sixteen years, he worked as a firefighter and paramedic. He received medical training at Wichita State University and an Emergency Medical Technology Degree from Kansas University Medical School in 1985. After suffering a physical injury, in 1996 John Click retired to driving trucks for Feekes, a division of KMJ Trucking. Then in 2006, he became an ordained minister who works part-time in a Council Bluffs, Iowa, Baptist church. To pay bills, he also continues his trucking experience for an armored service that transports money for Federal Reserve banks.

A decade ago in August of either 1996 or 1997, between 7:30 and 8 PM, he was in an 18-wheeler semi-truck traveling from Garden City, Kansas, to Grand Island, Nebraska. Trying to make up for a time delay, he traveled north on Highway 283 and went east to Highway 383 cutting across to Highway 183, which he took north to a small, rural Highway 4 used mainly by local farmers. On Highway 4 going east between Upland and Campbell, Nebraska, John Click saw a bright light above a pasture where an "unearthly" creature, like a crab/scorpion combined, was on the back of a cow bellowing in pain.

---

### Interview:

**Rev. John Click, Ordained Minister, Iowa Baptist Church, and former U. S. Marine and firefighter/paramedic, Council Bluffs, Iowa:** "It was still light out and I was just driving down the highway. The first thing that caught my eye was – I don't know how to describe it – it was a bright light and yet it was not like you were looking at a light bulb. It was just kind of a ball of light and I caught it out of the corner of my eye.

WHAT COLOR?

It was kind of a pale whitish-yellowish color.

BIG OR SMALL?

It was, in my estimation, maybe 10 feet in diameter.

AND HOW HIGH ABOVE THE GROUND?

I'd say from where I was out into the field, it appeared to be 10 or 15 feet above the treetops.

HOW FAR FROM WHERE YOU WERE IN YOUR TRUCK?

The light was about 100 to 150 yards out in the field.

STATIONARY OR MOVING?

It's just sitting there.

CAN YOU SEE LIGHT REFLECTING ON THE TREES BELOW IT?

The trees were probably about 75 yards from the road and this was on out in the open field. But I didn't notice any light coming to the ground or anything like that. And I looked at the light and then glanced down and I saw some cattle along the fence along the road. And I'm going to say they were only one or two yards from the fence.

## "Crab/Scorpion Thing" On Back of Large, Bellowing Cow

I was driving along and saw that and thought, 'That's kind of weird.' I looked at the road and looked back and when I looked back I saw this (laughs) – the only way I can describe it is that it looked like a cross between a crab and a scorpion-type thing. It was probably a good 1200-pound cow. So, it was a big cow and this thing covered, I'd say from half its back up to its neck, you know, where it starts on the back?

WAS IT JUST ON TOP OF THE COW?

Yeah, it was just lying on top, but the legs were like about half way down it. The creature itself was probably three to four feet long.

Unidentified "crab/scorpion" creature on top of cow bellowing in pain around 7:30 PM, in either August 1996 or 1997, on Highway 4 between Upland and Campbell, Nebraska. Cow was only 25 feet from John Click's semi-truck on Highway 4, Nebraska.  
Drawing © 2007 by Rev. John Click.

It was like three legs were over the back and another leg was kind of shorter and on the back toward the rear. I remember that I hit the brakes and backed the truck up. When I did, there was this – I don't know how to describe it except like a tail that had curved up over this (creature) whatever it was and it (tail-like tube) disappeared on the other side of the cow's neck. The cow had its head back and neck kind of turned to the side and its mouth was open. And the cow was making a weird noise like it did not like it at all (what the creature was doing).

LIKE IT WAS IN PAIN?

Yeah, like it was in pain. And I thought, 'What the heck is this thing?' The creature was a pale reddish color.

WHEN YOU BRAKED YOUR TRUCK BECAUSE OF WHAT YOU WERE SEEING, THE CREATURE THING ON TOP OF THE COW DIDN'T TRY TO MOVE AWAY OR HIDE ON THE OTHER SIDE OF THE COW BECAUSE YOU HAD STOPPED?

No, it didn't seem to care at all! (laughs) And that's what was kind of making me think, 'What the heck?' I could still see it in my mirror, so I put the truck in reverse and backed up.

## "Scorpion Tail" Extended from Creature into Cow's Shoulder Area "Sucking Blood"

When I got even with it (cow and creature), I looked out the window and I could see that tail-like thing stuck ... it wasn't so much in the neck. The way the cow's head was back, it was more like down by the shoulder where the neck and shoulder connect.

I could not believe what I was seeing. And then I could see like a pinkish fluid running through the tail-like tube. And then the light started moving. I put the truck in gear and took off down Highway 4 there. Where I saw this was between Upland, Nebraska, and Campbell, Nebraska. I think it's about a 12-mile stretch right in there. And I was about half way in between there.

I got kind of scared then because I didn't know what I was looking at. This thing looked like something not of this planet because I'd never seen anything like it. But that light I saw out in the field, it moved around to where I could see it through my windshield. It was still at kind of a 45-degree angle and it raised up. And when it did, I thought, 'It's time for me to get out of here.'

## Light Paces Semi-Trailer Truck CB Radio Static

I took off down Highway 4 and it (light) followed me and it switched sides of the truck, but it never went in front of the windshield. I'd see it out my driver's window and then I wouldn't see it. Then all of a sudden I'd see it out the passenger's window.

AS IF THE LIGHT WERE PACING WITH YOUR TRUCK?

Right. And I'm getting a little more worried, picking more speed up and I'm on my CB (Citizens Band radio), but I can't get anybody to talk back to me. And I'd been talking to a couple of guys before that. But it was just static. I couldn't get anybody to answer me or anything. So, I took off down Highway 4 and that followed me until I made the turn on Highway 281 North, northbound, which would be about Blue Hill, Nebraska. When I got to Blue Hill, I did not see the light anymore.

So, I went on and made my delivery at Grand Island. Then I came back the same way and turned on Highway 4 and by now it was dark, but I had a good flashlight and one of those Q-Beam type lights. I think it was about 10,000-candle power. I was shining it out in the field between Campbell and Upland and I could not find that cow anywhere. But I remember the feeling I got was that this thing (creature) was hurting the cow and I felt sorry for the cow because it was tossing its head back like it wanted the creature off and making this God awful noise – but that's what I saw. To this day, I still don't know what it was.

## More Details About "Crab/Scorpion" Creature

COULD WE GO BACK NOW AND DESCRIBE IN DETAIL WHY YOU THOUGHT IT LOOKED LIKE A COMBINATION OF A SCORPION AND A CRAB?

You know how crab legs look? That's kind of what the legs looked like. At first, I thought it looked like a giant spider. But the more I thought about it, I thought those legs were bigger, they were thicker, they were more like crab legs. And then when I saw that tail or whatever it was up over the top (of the cow) and into the cow's neck or wherever it went because I could not see because that was on the other side of the cow's head. But it appeared it went in where the shoulder attaches to the neck. I thought, 'That's like a scorpion!' So, I just put the two together that it (creature) looked kind of like a cross between a crab and a scorpion.

CAN YOU DESCRIBE THE SIZE OF THE TAIL TUBE THAT SWUNG UP OVER THE CREATURE?

I'm going to say it was at least as big around as my index finger.

OH, SO QUITE THIN THEN?

Yeah, it wasn't a big huge thing. Of course, I was looking at it from a distance (about 25 feet away), but it appeared to me it was only about as big as my index finger, maybe a little bigger.

MORE LIKE LOOKING AT THE END OF A STINGRAY TAIL?

Yeah, exactly!

IT COULD HAVE BEEN AN ARTIFICIAL MECHANICAL TUBE?

I guess it could have been, but it looked alive to me.

WAS IT THE SAME REDDISH COLOR AS THE CREATURE?

Yes, it was all one color. It was more of a pale yellowish, but it had some kind of red to it. Now, the tail – I'm not sure where it was when I first saw this thing on the cow. By the time I had got stopped and backed up, it was up over this thing (creature) and into the cow. But I do remember seeing a reddish-looking fluid flowing through this. The only way I can describe it is that this thing looked like this thing was drinking this cow's blood.

WHICH MEANS THAT WHATEVER THE TAIL TUBE WAS, IT HAD TO BE TRANSLUCENT FOR YOU TO SEE FLUID GOING THROUGH IT.

Yeah, I could see movement through the tail, but I didn't see anything like in the body part. This thing was kind of pulsating, or breathing or something. You could see the body of it moving. That's what I mean by it looked like it was alive because it looked like it was breathing or sucking or – I'm not sure what it was doing.

But I didn't see any eyes or anything like that. It was pretty attached. I don't think if the cow took off running that it was going to shake it off because it almost looked like those crab-looking things – you know, how crab legs have spiny points on them? It looked like it was dug into the cow. It didn't look like it was going anywhere.

The light I saw was about 100 to 150 yards out in the field. But the cow, I was on the highway and then there was like a little ditch that was maybe 10 feet across and there was the fence and then the cow was about 3 feet on the other side of the fence. So, I was looking at the cow and this thing at a distance of maybe 25 feet maximum.

EVEN WHEN YOU BACKED UP?

Yeah, that didn't seem to bother it (creature) at all and that's what started me getting kind of worried. I figured when I backed up, it would be gone. But nope, it was still there.

SO YOU ARE WATCHING FROM ONLY 25 FEET AWAY SO YOU COULD SEE THIS THING IN VERY CLEAR DETAIL?

Oh, yeah.

BUT YOU HAD NEVER SEEN ANYTHING LIKE IT BEFORE IN EARTH LIFE?

No! I've been scuba diving and all kinds of things and I've never encountered anything quite like that! (laughs)

WHAT DID THE BODY OF THE CREATURE LOOK LIKE THAT HAD THE LEGS HOOKED INTO THE COW?

It was weird looking. It didn't look hairy. It looked smooth, kind of like – how do I describe it? It looked smooth kind of like human skin, only with that opaque yellowish-reddish color. I didn't see any hair on it. It was weird!

THE SHAPE?

It covered the whole cow's back, but it appeared to me to be kind of from what I could see wide in the back and then came around almost like a roundish – kind of wide in the back and then came kind of straight up the back of the cow and then came around in the front laying on the cow's neck. About the only thing I could compare it to would be a football that somebody cut the back off of. (laughs) If that makes sense.

A FOOTBALL AND THE BACK IS CUT OFF ONE END?

Right.

WITH THE FOUR LEGS, THREE ABOUT THE SAME LENGTH AND ONE SHORTER COMING OUT OF THE FOOTBALL SHAPE ON TOP OF THE COW.

Right.

IT LOOKED LIKE HUMAN SKIN, BUT WAS YELLOWISH-RED.

Yeah, it was more yellow than red.

WHEN THE THIN, STINGRAY-LIKE TAIL CAME UP, IT CAME UP OVER THE FOOTBALL INTO WHAT YOU ASSUME WAS THE NECK OR CHEST OF THE COW?

Right. It was sort of like a blob sitting on the cow! But the legs did not look jointed. That's another thing I remember – it didn't look like the joints of a crab. The thing's legs were just kind of rounded and in there (the cow's hide).

DID YOU THINK OF A CRAB BECAUSE THE LEGS ARE SORT OF REDDISH AND YELLOW-WHITE?

Yeah. And the way they were stuck in (to the cow). You know, from watching a crab – what the creature's legs kind of reminded me of was kind of like a King Crab because they are bigger and have that sharp point on the end. The points were not deeply into the cow, but you could tell it was like gripping the cow, hanging on.

I JUST DID AN EARTHFILES REPORT A COUPLE OF MONTHS AGO IN MAY ABOUT A MUTILATED BULL FOUND IN CANJILON IN NORTHERN NEW MEXICO. THE PHOTOGRAPHS SHOW THREE CIRCULAR IMPRESSIONS IN THE HIDE ON EACH SIDE OF THE RIB CAGE. THE RANCHER HAD NEVER SEEN THAT BEFORE AND NOW I AM WONDERING WOULD THOSE ROUND MARKS POSSIBLY BE WHERE THE LEGS OF WHATEVER THIS IS WERE CLAMPED ON TO THAT COW IN NORTHERN NEW MEXICO?

It could be. It didn't look like the legs were deeply in (the cow), but like it was hanging on.

## Why John Click Left the Scene

WHY DID YOU LEAVE THE SCENE? IN OTHER WORDS, ARE YOU SITTING IN YOUR TRUCK TRYING TO RAISE SOMEBODY ON YOUR CB RADIO WHILE YOU ARE 25 FEET FROM THE COW AND CREATURE?

No, I was pretty fixated at what was going on. I was more curious than I was scared at first. And then when I saw what was going on and got a good look, then I started getting a little worried. And when the light moved and kind of got out where I could see it at a 45-degree angle through my windshield and I thought, 'Now, wait a minute. Something is going on here!' And I just had this overwhelming feeling that I should not be there.

SOME PEOPLE LISTENING MIGHT THINK, 'WHY DIDN'T HE GET OUT OF THE TRUCK AND APPROACH THAT FENCE AND MAYBE EVEN GO OVER THE FENCE? WHY NOT GET OUT AND TRY TO AGGRESSIVELY TRY TO INTERACT WITH WHAT WAS HAPPENING?

If I would have had a weapon with me at the time, I probably would have. But I didn't have a weapon and this thing was big and I didn't like what it was doing to the cow and I didn't want to be next!

THE COW DIDN'T TRY TO RUN AWAY?

By the time I backed up, he (cow) was trying to walk forward, but was stumbling. The cow's head was back and up. I was facing east and the cow was facing west. His head was up and kind of towards me and making a God awful noise. I never heard a cow make that kind of noise before, but it sounded like he was in pain. The cow was starting to move at that time forward. There were some other cows out there that had taken off.

THEY WERE RUNNING AWAY FROM THE SCENE?

Right. And this cow was trying to move forward, but it was like he was stumbling.

WHEN YOU SAY A HE, CAN YOU SAY FOR SURE THAT THIS WAS A MALE COW AND NOT A FEMALE?

No, I'm pretty sure it was a female, a cow. There were others out there that had horns and this one did not.

DID ANY OTHER CARS OR TRUCKS SLOW DOWN OR STOP AROUND YOU?

No, that's a pretty deserted highway. That's why I was running it because I had gotten short on time. I had got out of my previous stop late, so I was trying to make up some time and on Highway 4, you can kind of go over the speed limit. (laughs) So, that's why I took Highway 4. Usually, I would run up Highway 183 to Highway 6 and cut over to Hastings. Or just go up 283 up to Lexington and over. But this day I took 383 to cut across Kansas, which cut off some time. And then Highway 4 is pretty deserted. Mainly farmers use it, so it doesn't get a lot of traffic.

REPEAT AGAIN EXACTLY WHERE YOU THINK THE PASTURE WAS.

Between Upland and Campbell, Nebraska, on Highway 4. It's about an 8 to 10 mile stretch of road.

DID YOU CALL POLICE OR ANY AUTHORITIES?

No, I didn't mainly because I didn't think they would believe me.

IT'S A SAD COMMENT ON THE WORLD, ISN'T IT?

Yeah, and had I been able to find the cow and it had been down when I came back by, I probably would have. But I couldn't find it. I don't know if it wandered off or something picked it up (out of the pasture) or what happened.

## Animal Mutilations Caused by Extraterrestrial Biological Entities

OVER THE PAST QUARTER CENTURY AND MORE, THERE HAVE BEEN LINKS BETWEEN WORLDWIDE ANIMAL MUTILATIONS AND WHAT OUR GOVERNMENT'S OWN ALLEGED DOCUMENTS REFER TO AS 'EXTRATERRESTRIAL BIOLOGICAL ENTITIES.' THE PERPETRATORS OF THESE UNUSUAL ANIMAL DEATHS ARE NON-HUMAN CREATURES. WHAT IS YOUR REACTION TO THAT AS THE EXPLANATION FOR PERHAPS WHAT YOU SAW AND FOR WHAT OTHER PEOPLE HAVE SEEN IN TERMS OF BEAMS OF LIGHT SHINING DOWN ON ANIMALS?

I have a pretty open mind to that. I do know what I saw was not any species here on Earth that I know of.

DID YOU ASSOCIATE THE CREATURE WITH THAT LIGHT THERE THAT WAS ABOVE THE TREELINE?

Yes, they were together. I just had this feeling, especially when the light was following me. 'Oh, my God, they are going to get rid of the eyewitness!' That was my first thought.

NOW YOU ARE A PRACTICING REVEREND IN 2007. WHY DO YOU THINK THAT RELIGIONS AND GOVERNMENTS SEEM TO BE SO PROTECTIVE, HAVE SO MANY POLICIES OF DENIAL ALLEGEDLY IN THE INTEREST OF NATIONAL SECURITY TO KEEP THE MEDIA AND PUBLIC AWAY FROM FACTS SUCH AS WHAT YOU HAVE SEEN? THAT THERE IS AN EXTRATERRESTRIAL LINK TO WORLDWIDE ANIMAL MUTILATIONS.

I think the reason they try to deny all this is:

- 1) We've already made contact.
- 2) We're already sharing information.
- 3) I don't think they (govt) think we can handle the information, that it would cause a mass hysteria. So, I think our government thinks that we can't handle the truth.

WHAT DO YOU THINK?

I think we can. There have been a lot of movies out dealing with extraterrestrials. Pretty soon they are going to make it known they are around, but I don't know if our government – how much contact they've had. But I think it's a mass hysteria.

THAT'S WHAT GOVERNMENT AUTHORITIES ARE WORRIED ABOUT?

Right."

---
