Part 3: Glowing Disc Encounter with Military in Albuquerque, NM

© 2007 by Linda Moulton Howe

Return to **Part 1**

November 29, 2007 Albuquerque, New Mexico -

Paul D. McKeever served as an E-4 Army Reserve Specialist Corporal. Entered basic training on August 31, 1984, and remained in active Army reserves until August 31, 1992.

After Army basic training, Paul returned to Albuquerque where he remained in active Army reserves until 1992. What Paul did not know was that only six years after he and his Mom and Aunt saw the disc at ground level on the Sandia hill, Kirtland security guards also saw lights, or discs, land three different times inside Coyote Canyon’s restricted test range between August 8 and September 3, 1980.

That highly secure test range is used by the U. S. Air Force Weapons Laboratory, Sandia Laboratories, the Defense Nuclear Agency, and the Department of Energy.

CR 44 APPLIES		

September 1980 Complaint Form for evaluation by Major Ernest E. Edwards, Commander, 1608 SPS, Manzano, Kirtland AFB, New Mexico. “CR 44 applies.”

The complaint title is: “KIRTLAND AFB, NM, 8 August to 3 September 1980, Alleged Sightings of Unidentified Aerial Lights in Restricted Test Range.” And “CR 44 Applies.”

The definition of CR 44 is Collections Requirement for nuclear weapons security, originally established in October 1974 and revised to CR 44A in November 1983. “Under the guidance of the Joint Chiefs of Staff, the Defense Intelligence Agency (DIA), the Military Services, and the Unified and Specified Commands shall provide commanders or

organizations responsible for safety and security of nuclear weapons with current intelligence concerning threats to nuclear weapons.”

Clearly unidentified flying discs were presenting threats to America’s nuclear weapons if a threat could be defined as landing right next to a restricted, classified nuclear weapons storage area, such as ERDA’s Coyote Canyon facility. The 1980 Complaint Form was written up because a CR 44 violation had been committed by unidentified aerial lights, which landed where nuclear weapons were stored.

II SUMMARY OF INFORMATION		
REMARKS		
<p>1. On 2 Sept 80, SOURCE related on 8 Aug 80, three Security Policemen assigned to 1608 SPS, KAFB, NM, on duty inside the Manzano Weapons Storage Area sighted an unidentified light in the air that traveled from North to South over the Coyote Canyon area of the Department of Defense Restricted Test Range on KAFB, NM. The Security Policemen identified as: SSGT STEPHEN FERENZ, Area Supervisor, AIC MARTIN W. RIST and ANN ANTHONY D. FRAZIER, were later interviewed separately by SOURCE and all three related the same statement: At approximately 2350hrs., while on duty in Charlie Sector, East Side of Manzano, the three observed a very bright light in the sky approximately 3 miles North-North East of their position. The light traveled with great speed and stopped suddenly in the sky over Coyote Canyon. The three first thought the object was a helicopter; however, after observing the strange aerial maneuvers (stop and go), they felt a helicopter couldn't have performed such skills. The light landed in the Coyote Canyon area. Sometime later, three witnessed the light take off and leave proceeding straight up at a high speed and disappear.</p>		

The complaint says that on August 8, 1980, three policemen from the Kirtland AFB Security Police Squadron “on duty inside the Manzano Weapons Storage Area, sighted an unidentified light in the air that traveled from North to South over the Coyote Canyon area of the Department of Defense Restricted Test Range on KAFB, NM. The Security Policemen identified as: SSGT STEPHEN FERENZ, Area Supervisor, AIC MARTIN W. RIST and ANN ANTHONY D. FRAZIER, were later interviewed separately by SOURCE and all three related the same statement:

At approximately 2350 hours, while on duty in Charlie Sector, East Side of Manzano, the three observed a very bright light in the sky approximately 3 miles North-North East of their position. The light traveled with great speed and stopped suddenly in the sky over Coyote Canyon. The three first thought the object was a helicopter; however, after observing the strange aerial maneuvers (stop and go), they felt a helicopter couldn’t have performed such skills. The light landed in the Coyote Canyon area. Sometime later, three witnessed the light take off and leave proceeding straight up at a high speed and disappear.

2. Central Security Control (CSC) inside Manzano, contacted Sandia Security, who conducts frequent building checks on two alarmed structures in the area. They advised that a patrol was already in the area and would investigate.	
3. On 11 Aug 80, RUSS CURTIS, Sandia Security, advised that on 9 Aug 80, a Sandia Security Guard, (who wishes his name not be divulged for fear of harassment), related the following: At approximately 0020hrs., he was driving East on the Coyote Canyon access road on a routine building check of an alarmed structure. As he approached the structure he observed a bright light near the ground behind the structure. He also observed an object he first thought was a helicopter. But after driving closer, he observed a round disk shaped object. He attempted to radio for a back up patrol but his radio would not work. As he approached the object on foot armed with a shotgun, the object took off in a vertical direction at a high rate of speed. The guard was a former helicopter mechanic in the U.S. Army and stated the object he observed was not a helicopter.	
4. SOURCE advised on 27 Aug 80, three other security policemen observed the same

AFOSI FORM 11 PREVIOUS EDITION WILL BE USED.	

In Paragraph 3, the Complaint states that three nights later on August 11, 1980, a Sandia Security Guard after midnight “was driving East on the Coyote Canyon access road on a routine building check of an alarmed structure. As he approached the structure, he observed a bright light near the ground behind the structure. As he approached the structure, he observed a bright light near the ground behind the structure. He also observed an object he first thought was a helicopter. But after driving closer, he observed a round disk-shaped object. He attempted to radio for a back up patrol, but his radio would not

work. As he approached the object on foot armed with a shotgun, the object took off in a vertical direction at a high rate of speed. The guard was a former helicopter mechanic in the U. S. Army and stated the object he observed was not a helicopter.”

In summary, in August 1980 on the 8th, 9th and 22nd, security officers patrolling the Coyote Canyon Manzano Weapons Storage Area saw unidentified disc-shaped glowing lights land inside the restricted nuclear weapons storage zone.

And only six years before on May 28, 1974, several Albuquerque residents saw disc-shaped aerial craft from morning to night – until finally military security surrounded one of those discs in the Sandia hills, while some civilians watched until they were ordered away by an angry policeman. And someone managed to erase it all from the media.

I am trying to find other eyewitnesses from that night, hoping by now – 33 years later – people will now be willing to join Paul McKeever, his mom and aunt in speaking truth about yet another American government suppression of non-human intelligences and technologies interacting with this planet.

I am hoping that others will contact me who were also in Albuquerque, New Mexico, on May 28, 1974, at the Sandia hills on the eastern edge of the city beyond Menaul and Tramway Boulevards, watching the glowing disc surrounded by military - or were one of the military security police. If so, please email me: earthfiles@earthfiles.com. All requests for confidentiality are honored.
