Return to **Part 1**

**March 20, 2008 Albuquerque, New Mexico** - Continuing "Blue Planet Project" with Pages 66 through 75.

Back to our main subject of this chapter of this document, talking about Grey, Rigelian bases, we have the principal bases:

### United States of America (Earth)

- Fairbanks, Alaska
- Groom Lake, Nevada
- Dulce, New Mexico
- Utah
- Colorado
- California
- Texas
- Florida
- Georgia
- Maine
- New York
- New Jersey
- Wyoming

### The Atlantic Ocean (Earth)

- Wavenest

### The Moon

- Luna-1
- Luna-2

**Obs-1** - No report for bases at Europe, Asia, Oceanic, Africa, Central and South America.

**Obs-2** - No information about Nordic bases or any other Aliens.

**Project BETA, The Study of Grey Psychology** - The Rigelians, either through evolvement or because the humanoid types are constructed, will exhibit tendencies for bad logic. They appear to have more frailties and psycho weaknesses than the normal humans. The Rigelians are not to be trusted, because of the Rigelians apparent logic system, a key decision cannot be made without higher clearance. All are under control of what they call "THE KEEPER", yet it would appear that even this is not the final authority. Delays as long as twelve to fifteen hours can occur for a decision.

Because of this apparent control, individual instantaneous decision making by the Rigelians is limited. If their plan goes even slightly out of balance or context, they become confused. Psychologically their morale is near disintegration. There is a pronounced dissension in the ranks, even with the humanoids, because of their own internal vulnerability, (mind-wise) to each other, and additionally their is a basic lack of trust between them.

They appear to be totally death oriented, and because of this, absolutely death fear oriented, ( this is a psychological advantage to us). The prime and weak areas discovered, probed, and tested are exactly what we had thought, their mind, "being their key strength", and that which they use to manipulate and control our minds. Manipulated in reverse, by using reverse psychology we could make them face a situation where they would have a vulnerable integrated weakness, we could use against them.

**Taxonomy of some Extra-Terrestrial Humanoids** - Working under the instructions of the humanoids for Rigel (Greys, type ones (1)), CIA and former Nazi scientists have developed and deployed malignant strains of bacteria and viruses, including AIDS, in order to exterminate undesirable elements of the human population.

The Greys, especially the type ones (1) are almost entirely devoid of emotions, but can obtain a "high" by "telepathically" tuning in the different kinds of intense human emotions, such as ecstasy or agony. Does that explain why UFOs have always been seen in regions of war or devastation, where humans are in conflict ?

We have in the United States several offspring of Alien and humans living together, this is part of a sociological experiment by our government.

Throughout recorded history, as well as during pre-historic times, there has been constant genetic manipulation of inter-breeding with Uni-Terrestrial survivors trying to save his or her cosmic hereditarily, in order to breed out the less evolved affected survivors. The Nordic races have participated in this form of new beginning, which makes us much more a part of them than we might suppose.

Greys have the ability to camouflage themselves as tall blondes Nordics through mental energy projection. Blondes Nordics never project themselves as Greys. Some Blondes seen with the Greys are physically real, but are prisoners of the Greys, who have either paralyzed them or have destroyed (neutralized) their ability to teleport through time and other dimensions.

Both blondes Nordics and Greys have the ability to disintegrate matter into energy and then reintegrate the energy back into matter. This ability allows them to pass through walls and to transport abductees out of their cars with the doors still locked.

The original Rigelians were the Nordics until they were invaded by the Greys, a parasitic race, who took over and interbred with them against their will. Several blonde Nordics escaped from the Grey takeover of their system and came to Earth because the original Rigelian and Uni-Terrestrials were the Nordics and claim to be the ones who seeded the Earth. It is because of this common ancestry that terrestrial humanity is of such interest to both the Nordics and the Greys. Greys were and are easily able to impregnate terrestrial human females either on board their ship or while they sleep in their

homes. Males need not be manifested in visible form for this to occur.

The conflict between the Nordics and the Greys is in a state of temporary truce, although the conflict between Rigelians and the Sirius Star System is being fought actively. The Nordics with speech abilities will respond violently if attacked or threatened, but the telepathic ones will respond peacefully. Nordics were sometimes mistaken for Angels in earlier centuries. They do not seem to age, and consistently appear to be from twenty five (25) to thirty five (35) years of age. The Nordics now inhabit the Procyon Star System.

## **GREYS**

### **TYPE A**

Type A's are the large nosed Greys from the Rigel Star. These Greys are ones with whom our Government has a treaty.

### **DATA**

- The approximate height is 3.5 to 4.5 feet tall. Some approximately 5 feet. Their weight is approximately 40 pounds.
- Two semi-rounded black eyes, without pupils. They are large, almond-shaped, elongated, sunken of deep set, far apart, slightly slanted, appearing "Oriental" or "Mongoloid".
- The head, by human standards, is large when compared with the size of torso and limbs.
- No ear lobes or protrusive flesh extending beyond apertures on each side of the head.
- Nose is long and vague. Two nasal openings are indicated with only slight protuberance.
- Mouth is indicated as a small "slit" without lips, opening into a small cavity-mouth, which appears not to function as means of communication or an orifice for food ingestion.
- Neck described as being thin; and in some instances, not being visible because of garment on that section of the body.
- The head is hairless.
- The torso is small and thin.
- Normally they wear a metallic but flexible garment.
- Arms are long and thin and reaching down to the knee section of the body.
- The hands have four fingers each, but no thumb. Two fingers appear longer than the others on each hand. They have some kind of long fingernails. A slight webbing effect between each finger exists.
- Legs are short and thin. Their feet are like an orangutans feet.
- They have no teeth.
- Their skin description is some kind of beige, tan brown, or tannish or pinkish grey color. The texture as scaly or reptilian, and as stretchable, elastic or mobile over smooth muscle or skeletal tissue. No striated muscle. Light perspiration and very particular body odor. Under magnification the tissue of skin structure appears to be a mesh, or like a grid network of horizontal perpendicular lines. They suggest that the texture may be similar to that of the granular-skinned lizards, such as the Iguana and/or Chameleon, and may be similar to at least on other type of alien humanoid.

- No apparent reproductive organs. Perhaps atrophied by evolutionary degeneration. No Genitalia. The absence of sexual organs suggests a system of cloning reproduction may be prevalent.
- The Aliens appear to be "formed out of some sort of mold", or sharing identical facial characteristics.
- Colorless liquid prevalent in body, without red cells. No Lymphocytes. Not a carrier of oxygen. No food or water intake is evident or known at this time. It is believed at present that no food may ever be required. No digestive system or GI tract. No intestinal or elementary canal or Rectal area described.
- Many variations of anatomy exist.
- Their life span is unknown at this time.

#### TYPE B

Type B's are the Greys from Z-Reticulae 1. These Greys are also ones with whom our Government has a treaty.

#### DATA

- Physiology more or less is very similar to that of the Rigelian Greys. They are Male and Female. The differences are they need food for survival. They prefer proteins of dairy meals. They have asexual form of reproduction. The "Orulo" grow outside the female Z-Reticulae 1.

The next page shows a sketch of a Z-RETICULAE 1 Alien.

#### TYPE C

Type C, one and two, are the Greys from Z-Reticulae 2. These Greys are Alien researchers of us and our planet.

Z-RETICULAE 2

Type C

#### **DATA # 1**

- Physiology is like Z-Reticulae 1's. The differences are at the eyes, they have big black pupils.
- They have ear lobes.
- The Type C number one Greys, have the same type of reproduction as the Z-Reticulae 1's.
- The mouth has small lips and a throat which they can speak from with verbal words.

Z-RETICULAE 2

Type C

#### **DATA # 2**

- The differences are the shape of the head, see the sketch above.
- They eyes and eyeball.
- The Type C, number two Greys, have pointed ear lobes.
- They are smaller then 1st type of Z-Reticulae 2's.
- Their reproduction is accomplished by an egg.
