

Part 8 - Real X-File, Source Unknown

© 2008 by Linda Moulton Howe

"Normally the Greys during an abduction make an insertion of a 3mm device (SBMCD) through the nasal cavity into more close proximity to the brain of the abductee and after implementing subliminal post-hypnotic suggestions that could compel the abductee to perform some specific act within the next two to five years (after implant)." - Unidentified Scientist

Return to **Part 1**

March 30, 2008 Albuquerque, New Mexico - Continuing "Blue Planet Project" with Pages 76 through 85.

ALIEN TECHNOLOGY

ALIEN CRAFTS WITH DIMENSIONAL FACTORS AND/OR DIMENSIONAL ORIGIN. To understand this concept you have to realize we live in a Universe made of ten (10) Dimensions; nine (9) Spatial and one (1) Temporal. On Earth though, we just use four (4) Dimensions; three (3) Spatial and one (1) Temporal, because on Earth six (6) dimensions are compacted at one Abstract Dimension. Following the theories of two physicists Dr. John Schwartz, (USA) and Dr. Michael Green, (England) the Particles of our Atomic Structure have the consistency of ten (10) dimensions. For the system to be established, after the BIG BANG, the dimensions collapsed and created the compacted effect of the six (6) other dimensions into one dimension.

The Aliens used this knowledge, which they call the **NORDWAG FACTOR**, which increases one large field of acceleration or particles and recreates a new dimensional spaces. This means that the inside of the Alien craft is much bigger than the outside size to the Alien craft is in size and dimension.

Some similar aspect affect over 3rd Dimension (Space) and 4th Dimension (Time) to the six (6) other dimensions: **MULTIVERSE** (MULTI-UNIVERSE Theory) and not a single **UNIVERSE** Theory. Universe is a single part of the total of the **MULTIVERSE**.

THE U.S. GOVERNMENT AND ALIEN TECHNOLOGY. Of course they (Aliens) have given high technology to the Government but how do scientists, (like myself) know the difference between a toy or a real sophisticated device if they never have seen one before ? They give us primitive concepts in computer systems (micro-chips and integrated circuits) and we improve much more faster than they expect we can. After this, Aliens have been much more careful about what "Toy" they give us because we have demonstrated that we can turn a "Toy" into High Technology in short order.

The Main interests of the U.S. Government is to collect all possible Alien information in science (especially new sources of energy), technology (specially beam weaponry and tactical Aircraft), medical (extend the life expectancy of Humans and total elimination of deadly infirmities, i.e for elimination of "the weak" people from our society), and Intelligence (especially in mind control). All of these objectives are still ongoing.

The Implant or S.B.M.C.D.

Multiband Micro Receptor/Transisor

Unit's Auditory Sensors maintains a constant monitoring of wavelengths that extend into the ultrasonic frequency range as well as being able to detect sound of only a few db in strength at short distances.

W (74), V (23)

The unit's enhanced internal/external visual sensors are designed to detect wavelengths of photons (light) ranging from the ultraviolet to the infrared portion of the spectrum.

Central Power Nucleus.

Here is where energy is released to power the unit. This energy is generated by the decay of a small quantity of the radio-active isotope strontium 90, and distributed to the entire unit through a unique, direct flow of charged electrons in a fluid nutrient base of a consistency similar to human hemoglobin.

Neural Stimulator.

The device delivers a phased voltage beam directly into the nerve endings in the brain cortex -phased transducers on either side of main lobes oscillate several micro-volts of direct current stimulation per second. Total control of the brain at the end.

Self-Destruction Device

Will destroy totally the S.B.M.C.D. in case of anyone without access code frequency wavelengths trying to open this module.

The Unit's Auxillary

Data Storage Center
Maintains over ten thousand micro silicon wafers, each integrated by direct lead to the micro-positronic simulated brain center, providing instant access to tens of billions of bytes worth of information on call.

A Variety of Micro-Circuited Electro-mechaniems located beneath the Central Power Nucleus, aid circulation of the nutrients, internal solution permitting the efficient transference of power, communications and data.

The S.B.M.C.D. or Implant - The Spherical Biological Monitoring and Control Device (SBMCD) is a techno-organic enhanced synaptid processor powered by a micro-positron flow that controls or mimics the functions of the human nervous system with micro-relay's duplicating the operations of brain engram patterns.

Normally the Greys during an abduction make an insertion of a 3mm device (SBMCD) through the nasal cavity into more close proximity to the brain of the abductee and after implementing subliminal post hypnotic suggestions that could compel the abductee to perform some specific act within the next two (2) to five (5) years.

Normally the SBMCD only can be removed when the abductee dies, trying to remove it while the abductee is alive means certain death.

Aliens and the Electromagnetic Spectrum - After reading this document, there should be no question at all in your mind, that there are intelligences that can manipulate or materialize any kind of object into our dimension. Let's take a look for a second, at the electro-magnetic spectrum. As you know, our visual spectrum only makes up a small portion of the whole. Look at what spectrums are involved with UFOs:

- UltraViolet Spectrum
- Blue Spectrum (UFO entry Field)
- Cyan Spectrum
- Green Spectrum (UFO is Visible)
- Yellow Spectrum (UFO is in a Vulnerable Status)
- Red Spectrum
- Magenta Spectrum
- Infra-Red Spectrum (UFO is Departing)
- Heat Spectrum (UFO Field)
- Radio Spectrum

If you will relate this to cases that you are familiar with, as far as appearance, Spectrum Shift when in flight, etc. you will see the applicability of the above diagram.

Alien Artifacts Used at Mutilations

This biological scanner is used for field determination of general medical condition of life forms by sensing body emanations in emission groups of Alpha, Beta, Gamma, Kirlian, Tetha and XI Rays.

OBS - refer to files of Majic medicine, advanced diagnoses practices, report for scale calibration and current interpretations of readings.

Specification:	Overall Length	6.05cm
	Maximum Diameter	3,5 cm
	Weight	230 gr
	Sensitivity (Em ² /AU ²)	to 0.0001
	Reading Groups	All
	(Alpha, Beta, Gamma Kirlian, Tetha, and XI Rays)	

- A = Computer (circuits) housing
- B = Activating Control Switch
- C = Scanner Housing (#48 Mesh Screen)

D = Rotating Scanner
E = Reading Dial (increase from bottom to top)
F = Life Form Type, Select Scale
G = Ground Plane Screen (#48 Mesh Screen)
H = Select Range Scale for Different Kinds of Life Forms

The Biological scanner Type 1 consists of two (2) parts:

- Part number one is the scanner head, which you use to active the device by rotating the scanner head, which is enclosed in a microchip mesh sensor network. This will activate the unit.
- Part number two is the main body, that interprets signals received and converts them into an audio readout, which is programmable by twisting the scanner head to the desired position.

The scanner functions much as does a mini-diagnostic center, by sensing the physical emanations of an individual or an organic being, which is in close proximity. The audio signals indicate either through its period or tone one of ten vital readings:

- Body Temperature
- Blood Pressure
- Pulse Rate
- Respiration Rate
- Basal Meta-Bolic Rate
- Cell Rate
- Lung Capacity
- Heart Activity
- Brain Activity
- Homeostatic Deviation

The scanner is intended for use with a single species, although it has limited diagnostic use on physiologically similar life forms. For visual readout, the scanner can transmit signals to a bio-computer, the lights on the computer serve the same functions as the oscillating tones, and can be enhanced for a more detailed appraisal of the being if desired.

NOTE: A regular physician must undergo extensive training before being able to "Read" precise information out of the sounds emitted by the scanner, and there is no simple method allowing the layman to do the same.

The Spray Applicator - The spray applicator is a small cylindrical dispenser of epidermal drugs employed by depressing the major axis of the unit between thumb and forefinger. Although it is capable of dispensing a variety of liquids, foams and gels, it is normally pressurized for field use with

an organically based flesh-colored compound that acts as a coagulant to stop the flow of blood, as well as, an antibiotic to protect against infections. A mild local anesthetic deadens pain in the affected area. The applicator contains about five (5) to ten (10) doses, depending on the amount needed in field operations.

The Field Reader Tube - The reader tube is used when the low powered scan is not effective to diagnose a patient's condition, like a species that may possess a thick epidermis. It transmits life readings from a sensor head to four (4) independently, activated lights, which indicate through their intensity or period the following:

Green	Heart Rate
Red	Pulse Rate
Blue	Body Temperature
Yellow	Blood Pressure

The pointed sensor end of the tube must be placed into direct contact with the patient's exposed skin. Due to the narrow reading range provided by the reader tube, it is suitable for any Life Form.

Surgical Scalpels - Six (6) scalpels are contained within the Surgical Kit, Class: ABR-5, with cutting widths varying from one (1) to five (5) angstrom units. Activated by gripping the cylindrical base, they employ converging Laser beams for a very precise subcutaneous incision.

Skin-Grafting Lasers

The type one (1) low power Laser is used to quickly and painlessly heal external wounds by closing severed blood vessels and nerve endings, while stimulating the victim's anabolism, (constructive metabolism, i.e. regeneration of tissue).

The type two (2) laser can also be used to graft skin, (removed by scalpel from less sensitive parts of the body) onto areas where tissue has been damaged or completely destroyed. This procedure should be followed, as it is really necessary. The Laser is activated by depressing the dorsal bar increasing the pressure, causes and increase in intensity.

The Blood Attracting Device - This device is an emitter of a force-field, like some kind of Tractor-Beam emitter that can focus a wave or particle beam. The device is set for locate hemoglobin cells and attract them through the skin, using the principle of Gravitational Electromagnetic Focus Contention. This device can also be used for repelling, or mutual repelling and attracting mode to seize and hold stationary, repel, or attract even large objects.

The device can operate at a full 180/360 degrees, allowing it to function at almost any angle. Because the beam has its limits the wave particles are short-lived and will disintegrate into by-products at longer range, i.e. in excess of 100 meters.

U. S. GOVERNMENT SECRET TECHNOLOGY

The helicopters themselves have been seen in areas where UFOs were reported, in many countries. In some of the more interesting accounts, the mystery helicopters were seen with UFOs or shortly after UFOs were sighted.

In a documented Mystery Helicopter wave in England, accounts place oriental appearing occupants in a unidentified chopper. Slant-eyed, olive skinned, oriental seeming occupants have been a staple at the heart and at the periphery of UFO accounts for years, significant numbers of the infamous "Men in Black, (MIBs)" have a similar appearance, but very often they are seen as very pale and gaunt men who are sensitive to light.

In "Stigmata" ne5, (fall-winter 1978) Tom Adams outlines the most prominent speculative explanations, accounting for the mutilation helicopter link, including the following possibilities:

- The helicopters are themselves UFOs, disguised to appear as terrestrial craft.
- The choppers originate from within the U.S. Government Military and are directly involved in conducting the actual mutilations.
- The helicopters are Government Military and are not involved in the mutilations but are investigating them.
- The helicopters are Government Military, and they know about the identity and the motives of the mutilators and by their presence, they are trying to divert attention to the possibility of involvement by the Military.

Mystery Helicopters and Mutilations - Normally the mystery helicopters belongs to the DELTA/NRO division. For a normal mutilation research mission they send one helicopter with a team of seven agents and two Remote Piloted Vehicle, (RPVs). The RPVs are small devices of look-a-like small saucers of three (3) feet in diameter and radio controlled.

Surveillance Devices

Airborne Remotely Operated Device, AROD
THE RPV

NOTE: This vehicle was created by Aerojet Electro-Systems in California.

The RPVs also carry a surveillance robot Airborne Remotely Operated Device, (AROD). A flying pizza with a tail, three (3) feet across, carrying a high-tech video camera aboard. Also surveilling the surveillance device from above, is a device known as a High-Altitude, Long-Endurance Drone, (HALE). HALE is designed to reach altitudes up to 100,000 feet. The device is powered by microwaves from the main helicopter.

The HALE, ADR/238F

The Teledyne Ryan Aeronautical corporation is responsible for the mysterious Helicopters or "XH SHARKS", as they refer to them.

The TRA, SN-75
XH-75D

I believe a cover-up of the capacity of this helicopter, is operating which overrides the real and total capacities and capabilities of this helicopter, but the following is only what I've been able to learn, and may not be the total capacity and/or capabilities.

- Type Rotor: Advanced Blade System, Experimental Research Demonstrator.
- Engines: One (1), 1,825 horsepower Pratt & Whitney engine, Canada J60-3A Turbojet, Turboshaft and two (2) 3,000 lb. (1361Kg) Pratt & Whitney Turbo's.
- Dimensions: Diameter of three (3) blade, double main rotors are thirty six (36) feet in (10-97m) length of the fuselage forty (40) feet.
- Performance:

Maximum Speed (level flight)	276 MPH (445 Km/h)
Rate of Climb	5,000 Ft./Sec.

Some helicopters (XH-75D Type) also have a Gravitational Electromagnetic Projector to create a "Cocoon" around the helicopter as a disguise. A 360 degree global arc with a radius of fifty (50) feet, more or less, provides a photonic force-field.

A black Helicopter (XH-75D Type)

When activated, turns into a UFO, as shown below, with no inertia and no acceleration effects.

This provides 82% Higher protection against attacks. When used during a normal Mutilation Research Mission, the XH-75D Type black helicopter carries a crew of seven agents, two (2) RPVs, and one (1) HALE drone.

To be continued in **Part 9** - Alien Abductions
