**Our Genetic Code is Under Siege** - In focusing on the gynecological and reproductive procedures that have been performed on abductees, we have to come to firmly believe there is some type of ongoing genetic manipulation that is occurring within various family generations. For purposes of clarification, it is essential for us to use some medical terminology to explain specific facts. The way to genetic manipulation lies within the Deoxyribon Nucleic Acid (DNA) molecules of the human gene cells. These genes control the reproduction and day to day functions of all cells. It has been estimated that there are probably 30,000 to 400,000 essential genes in the human cells, assembled in lengthy linear arrays that together with certain proteins form rod-shaped structures known as chromosomes. Chromosomes from certain individuals, through certain altering techniques, form a customary arrangement or “Standardized Format” known as Karyotype.

We believe it is the manipulations of the genetic codes on the Karyotype of individual chromosomes that the Aliens are researching, specifically looking for Mutation Patterns. Mutation patterns would allow them to re-arrange the genetic coding on certain LOCI. In Genetic terminology, the specific site of a gene in a chromosome.

In this manner, they would be able to experiment with a multitude of LOCI in the various chromosomes, thus bringing about new genotype individuals in proceeding generations. Perhaps each succeeding generation of families is subjected to a different comparable type of experimentation by the Aliens.

It is interesting to note, just where the residual scars are located on abductee bodies. Now I would like to pose a new interpretation of the evidence found in our ongoing research of abductees. Many scars are found over the shin bone (tibia) and the hip bone (ilias crest), which are common areas for obtaining bone marrow samples and/or aspirations. Simply speaking, bone marrow produces the red blood cells in our bodies, and it is significant, in our opinion, that it is through a humans bone marrow and blood that it is possible to study their individual chromosomal pattern.

The timing of abductees first experiences also correlates to the hypothesis. The marrow of essentially all the bones in the human skeletal structure produces red blood cells until a person is 5 to 6 years old. The marrow of the long bones, except for the proximal portions of the humer, (upper arm bones) and tibiae, becomes quite fatty and produces no more red blood cells after the age of twenty. Beyond that age, most red blood cells are produced in the marrow of such areas as the vertebrae (Spinal Column) and sternum (Chest Bone), ribs and hip bone (ilias), and as we get older, these bones become less productive.

Most initial abduction experiences occur when the abductee is between the ages of five (5) and twenty (20) years old. Based on these observations, we are probably dealing with two very important phases of an abductees life as it relates to this apparent Alien exploitation:

**Pre-Adolescent/Teen-age Phase**

Initial blood samples, bone marrow aspirations and tissue samples are taken between ages five (5) and twenty (20) years of age. This would be the time frame for specific and early genetic studies on the chromosomes of abductees as a follow-up from another generation with studies performed to see if a certain pattern is consistent within the particular family. During this time, some type of implants are inserted so that the individual can be followed and found at some future date, after further analysis of samples have been obtained by the Alien researcher. Some of these individuals

may be abducted again, possibly due to a failed implant or for re-confirmation on certain genetic information.

**Adult Phase**

The pattern we are seeing at the present seems to reveal abductees are undergoing some form of ongoing genetic exploitation, implementation or manipulation, such as genetic coding. This is where we see the most consistent, most documented procedures of the abduction phenomenon, such as artificial insemination techniques, which are continued on some abductees throughout their reproductive years.

- Perhaps in their own way, if you believe in the "Space Brother" theory the Alien scientists are meticulously, methodically and clinically re-structuring the human race through procedures of genetic manipulation, so that we will be "designed better" for resolving our own problems, rather than requiring their more direct intervention into our petty world affairs.
- Maybe there is a double-blind study on the human race ongoing, for reasons known only to the Aliens, who are running the program.
- Or consider the possibility of this being an Alien scientific research mission, where studies are being performed on technologically less advanced planets.

All of this is pure speculation and wide open to other theories or hypotheses.

A new eugenics movement has recently sprung up in Southern California. Eugenics is the science dealing with improvement, by control of human mating, of the hereditary qualities of a race or breed.

These issues that bear on the eugenics movement can be argued both pro and con. However, we feel that overall it is a very emotional issue with implications that could correlate with the Alien agenda, and either certain problems that could very well rival our nation's controversial abortion decisions.

The techniques of selective breeding which seem to be utilized by the Aliens are beginning to appear in our own culture. For example, Dr. Robert Graham, who founded an organization called Repository for Germinal Choice, has come under heavy attack by his adversaries. Essentially, Dr. Graham's program allows women to 'shop' in his repository (Sperm Bank) for a specific type of donor sperm that they can retain for later use in artificial insemination procedures. In other words, a woman could select the sperm of a Nobel Prize Winner, an Astrophysicist, or an extra-ordinary professional such as an Astronaut, Physician, or a Mathematician, etc. It appears that this organization is out to create a new generation of super-intelligent children who will be eventually adults, through the techniques of selective artificial insemination. The socio-economic, political, psychological and theological implications of this controversial new technique, whether put to use by Aliens or humans, go beyond the scope of this document. Exactly what are these implications, you might ask? Only time will tell!

**The Metagene Factor** - The Metagene is a biological variant lying dormant in select members of the human race, until an instant of extraordinary physical and emotional over-stress activates it. That's an energochemical, in response to adverse stimuli. A chromosomal combustion takes place, as the metagene takes the source of biostress, be it chemical, radioactivity, or what ever and turns the potential energoresponse into a catalyst for genetic change. The main focus of the catalyst power is a gland in the middle of the human brain called the PINEAL gland, and the nutrient for increasing the Pineal's action is the adrenalin. The metagene factor gives the ability of Psionic Power.

The main interest of the Aliens especially the Greys is to understand and control the Metagene for their own race. They try to do this using Biological Experiments to make Hybrids from both humans and Aliens.

They believe perhaps the men from the planet Earth are the deadliest creatures in the Universe. Because only on Earth people are apparently capable of generating the Metagene Factor, which means Natural Psionics ability, 'Real Power'. The principle races in the Universe are psychologically the same. The pure cold logic is a normal order to most important races. Basic sameness makes for predictability and security, the enemy one knows, are the ones you can guard against. This is not the case with mankind.

While most are uniformly human, some, many more, apparently, than anyone had dreamed possess a latent tendency towards super humanity, Natural Psionic Abilities. That in itself could prove dangerous for any idea of Alien domination on Earth. But couple of mankind's inherent belligerence with the fact of the Metagene affects, each human is unique and Earth becomes a spawning ground for a unpredictable super-race, 'if we have the chance'.

Others have already demonstrated an awareness of Man's Potential along the human history, (Nordics treat). This is because the Aliens are here to try to control Earthlings before we dominate them, and they want our most important secret: THE METAGENE FACTOR, which is the Aliens only hope.

#### **ABDUCTION BY GREYS**

There is a large number of Grey abductees living all over the world. Most are either unaware or just partially aware of their involvement with the Aliens.

Grey abductees seem to be taken for a large variety of reasons, some apparently having nothing to do with the person, him or herself.

They might have been manipulated, to various degrees, for no other reason other than that they were with a person scheduled to be abducted. Others have been abducted apparently only once or very rarely, compared to throughout life. As with Nordic contactees, it would seem that genetics and artificial racial background plays a part in their selection processes.

People have been abducted by Greys for a long time. This contact can exist during generations in the same family, and even cases of the abductee having contacts with same entity during the process of past lives.

All this means, that there may be a clear indication that a large percentage of the human race could very well be a "Sleeping Army", and were picked up only once or twice and implanted, but not generally bothered or contacted throughout their lives. This suggests that these people are on hold for something, or that they are simply walking transmitters of some kind of information, basically bio-energolismic psychowaves, back to the Aliens.

Most Grey abductees are first taken as children, and many adult abductees know or feel their children are being abducted. It would seem that most children who appear to be involved don't want to consider the possibility of actual abduction or think about it at all. It would also seem that the best policy with most children is to leave it at that, not push them to remember. Hypnotic regression, especially, is considered too much to ask of a child, even adults, actually should not take lightly the decision to have themselves hypnotically regressed to recall abduction experiences.

Children and adults alike, if they are involved, will tell you of their weird dreams and experiences even when they don't believe there is anything going on.

Women are frequently abducted largely for reproduction purposes, through some never experience that kind of interaction. Some of those who are involved in that part of it report that their earthbound, human children that "live with the Aliens" have several different reactions to the situation. Some are perfectly happy with the program as it is, many don't express any opinion about it at all because they don't see it as being anything they can do something about. Some are repulsed by the children and by their own involvement with them. Some have felt that the children we produce will be used against us.

Some of the weapons and aircraft training that abductees are involved in is actually done by the abductee for the sake of the unborn child. Training the mother as received is thought to be transferred psychically to the unborn child. Things along this line are part of what might inspire some abductees to fear their halfbreed children. Others love their halfbreed children as they would any others. Many who feel this way would like to recover their children and bring them back to Earth where they would have a better life than with the Aliens. Many also feel that the children are better off where they are but would certainly like more open contact with them, more interaction with their children.

#### **Aspects of Bio-Field Differential**

The bio-physical field of the Grey entities is in opposition to the field of the human body. The reaction produced by the interface of the two fields can produce a sensation referred to as "body Terror" by abductee Whitley Strieber. A human may or may not experience this reaction, depending on their ability to develop a "Mental Block" to the reaction created by the field differential, on occasions, the same possible reaction with some Nordics is experienced. The fields emitted by the Greys parallel the type of field emitted by much of their technology. The Greys use technology to amplify the effect of their bio-fields on the humans. It allows them greater control over the ordinary humans, who may react to the field differential with the human emotion of fear.

#### **Using Internally Generated Tones to Interfere with some kinds of Manipulations**

Anyone can produce high pitched tones in his or her own head. It would render the manipulative technology inert. Just maintain the tone during the presence of the Greys and anyone is capable of arguing with them. Generation of the tone is an important part of the human defense programming against intruders.

#### **Awareness Parameters for Tone Maintenance**

Since the technology used to manipulate humans encourages relative paralysis of conscious functions, maintenance of tone-interference or other mental techniques must be handled by a form of bridging, or cooperation between conscious and sub-conscious awareness. Effective use of counter acting techniques depends on an increasing awareness of both states. The sub-conscious areas are where all memories are preserved, and all experience there relative to abduction is subject to blocks placed there by both the abductee, (as a programmed response to a function which the Aliens have connected with the survival impulse) or the Aliens. Lucid dreaming indicates a closing of the gap between awareness of both mental areas. Being able to interact with the Greys, on their own turf, so to speak, is a threat to Alien manipulation and control.

#### **Effects of Multiple Level Alien Manipulation**

The most interesting aspect of Alien control and manipulation is that the technology they use allows the separate and distinct manipulation of both the gross and the finer densities that comprise the physicality of the human body. They have the ability to place a human on a table, put him or her into Delta Sleep, shock him or her with a static charge, separate his or her finer bodies, and manipulate

them at will. Manipulation of finer areas that involve the formative forces of the physical body have tremendous effects at the physical level.

They also have the ability to withdraw experience and memory from a human and place that experience and memory into another body, or container, whether the container is a natural or synthetic one.

Manipulations of these type have effects on the ability to have one's consciousness leave the body, emotional response patterns and programming, ability to deal with psychic blocks, and a host of other parameters.

To begin to counteract this, work must be done by the individual to work on expansion of awareness. Connections must be developed between the conscious self and the "second self", which may be the self that is projected astrally. After a while, the conscious maintenance of the connection begins to combine both conscious memories and memories which lie deeper. Work on self hypnosis and regression techniques with a qualified individual. These techniques will aid in the process of developing more awareness and control. Constant experimentation while in Alien presence must be done by the abductee, who must make an effort to note results of various mental manipulations on the Alien control efforts.

#### **Some Major Indicators of Alien Interaction and Possible Hidden Involvement**

- Missing Time
- Waking up during the night or in the morning with unusual bodily sensations, such as tingling, numbness, dizziness, heaviness, or paralysis. Any of these are often accompanied by disorientation.
- Nightmares or vivid dreams of Aliens and/or their technology.
- Sleep disorders, also waking up at a specific time.
- Physical marks or evidence of bodily manipulation.
- Repeated sightings of Alien craft.
- Clear remembrance of Alien contact and interaction.
- Healing or inexplicable improvement in your physical condition.
- Reactions of fear, anxiety or unusual bodily sensations upon viewing visual images of Aliens or their technology.
- Feelings of having had a communication.
- Un-explained behavior totally inconsistent with previous patterns.

Any or all of the above indicators may appear in combination with other ones. Many of the indicators could also signal a physical problem requiring medical attention.

Clinical psychologists have reported that a significant number of people have been helped by their

interaction with alien species, mostly through Alien physical manipulation that resolves a physical condition.

#### **Bio-Conditioning of the Hybrid-Fetus in a Human Host**

The nature of the Alien physiology is quite different from that of the human host. Through the autopsies that we have done on the Greys, it has been found that the tissue is very often a composite that reflects a blending of animal and plant genetics. Some species have black tissues with green blood and appear to function on a light based nutrient system.

Many human hosts have reported mysterious infections, often yeast-like in nature. Through analysis of many cases, it has been pretty well established that the Aliens often purposefully introduce systemic organisms into the human female in order to acclimate the hybrid fetus to the physiological environment of the Alien life to come. These substances are thought to be micro-fungi and/or micro-viruses. The implantation of these substances is thought to be critical for some species in their hybrid breeding program.

It is quite apparent that there is no concern for long-term affects of hybrid breeding on the human. They apparently make adjustments during the breeding cycle. These adjustments can include substances which physically wear down the human host, as well as, manipulation of the various fields inherent with the human body.

The question always seems to arise, if these Aliens can produce synthetic tissue, why couldn't they just grow a torso or create a synthetic clone to bear the fetus for them. Why do they have to use humans for this process ?

There are two main parts to the answer.

1. The first one is that they need the genetic input. The whole reason for hybridization is to enrich the genetic capability of the organism, for this they need human genes.
2. The second part of the answer is that they need the effect on the fetus or human emotional and psychic experiences. The hybrid being will develop growing sentience, (unlike a synthetic, where the sentience does not extend past the physiologically determined by the matrix, the programming is set) and must be exposed to these factors.

One would then ask why they could not sit around and project psychic energy at a clone, (using artificial ways, of course). The answer is that the emotional component would be missing and the psychic energy not so pure.

The hybrid fetus is extracted from the human most about ninety (90) earth days and development then continues in a totally Alien environment.

The whole process causes premature deterioration of the human female host, which simply increases the vulnerability to Alien manipulation due to a weakened condition. During the hybrid breeding process, the body of the human female host will be manipulated.

There have been cases where fillings in teeth, which may contain mercury and other metals, have been taken out of the humans mouth in order to seemingly promote the health of the developing fetus.

## INCULCATION DEVICES AND THE PRACTICE OF MANIPULATION OF THE MIND

(The following material is copyrighted by Nevada Aerial Research)

### **Learning, teaching and assimilation techniques of electronic space societies**

Through the experience of those who have had and are continuing to have various contacts with non-human entities, we have learned some data regarding these advanced societies. Overall, life appears to be rather regimented, social codes are sufficiently advanced beyond those of the human being, that they become a part of existence rather than the subject of existence.

In electronic space societies of positive orientation, knowledge and data are generally assimilated under duress, in that training and education are accomplished by forceful means, such as implant technology.

Techniques of electronic space societies incultation, (to teach or impress by force or frequent repetition) is the usual term used.

One of the prime patterns of activity is what is called direct observation. During this process face to face contact occurs between the Alien species and a volunteer humanoid for the purpose of exchanging cultural information. Direct observation also appears to include various types of medical analysis. Abductees in this situation are actually volunteers, but incultation methods block their knowing or awareness of their own participation. Of course this is not the procedure of some Alien races, who take abductees against their will, i.e. the Greys.

**Direct observance operational procedures** are as follows:

- A human target is sensed.
- The human's ridge response system is examined and checked.
- The craft is allowed to appear to the human, releasing old implant blocks.
- The subject is monitored and picked up when appropriate.

Sometimes a targeted human being will be picked up in childhood and taken to an underground facility for crystal implantation. They will be monitored through the growth period. In young adulthood, the human is picked up, and the crystals are removed and the human is kind of "Placed in Reserve" for future triggering and employment. The Andreasson Affair is an excellent case which features these elements.

#### INCULCATION DEVICES

Several kinds of devices have been noted by those who have had contact with various Alien species.

**Incultation Bar** - A rectangular box of metal with multi-colored lights displaying a sequence of blue-green-red-green-blue and the numerical sequence of 1-2-3-4-5-4-3-2-1. The subject lies on his/her back, on a metal table directly beneath the bar. At the foot of the table, level with the surface in a metal console box with cables connecting to the table. The attendants are dressed in red jump suits and the room itself is bathed in red light, except when incultation therapy is in progress.

**The Incultation Monitor** - This monitor, when coupled with the data banks in the ships computers, can be used to implement the enhancement of a being by infusing abilities through implantation of data. During this process, it appears as if negative mental states are removed and mental barriers are set aside. The monitor is a modulated catecholamine encoded laser beam, which pierces the eyeball of the subject in a earths nano-second (one billionth of a second). It resonates down compatible optic frequencies, which sets up harmonic vibrations which disseminate the encoding to the proper receptor sites.

**Catecholamine Beta-Lipotropin 4753** - is a technical name for a substance often given to the abductees. It has the effect of removing certain body neuronal blocks and at the same time gives a boost to the awareness/intelligence level of the abductee. It is a mixture and distillation of slightly enkephalinic melanocyte-stimulating adrenocorticotrophic hormone in a neural metastasizing, neurotransmitting medium; i.e., a cerebral cortex "Roto Rooter".

#### Rapid Incultation Processes

In one method, one dons a helmet bearing wires, (old Zeta Reticulae-2 technology, almost obsolete) and needles. A crystal cube is put into a niche on top and a type of strobe light flashes in resonance with the brain waves of the abductee. The abductees head becomes filled with pictures which gradually form a pattern of responses. The abductee is given a learned motion, pattern, response system, and may be trained in a brief amount of time to do a complicated task.

Sometimes the abductee is hypnotized or made to sleep and a high frequency microwave emission is used as a rapid incultation method. Rapid Incultation processes an ocular wave with which to send encoded data into his or her nerve/ridge response system. This data may be triggered later by a pre-arranged stimulus response signal that will be present in the environment of the abductee.

Sometimes the bio-energetic field itself is used as a carrier wave and the data is encoded in sound-code-symbols. The Grey hybrids, (Rigelians and Betelgeustans) have an interesting variation on which the abductee sits in front of a screen and computer console type and interacts with images on the holographic display.

**NOTES:**

1. **The Ridge Response System** = A series of energy focal points formed by the energy streams around the physical body. Ridges can impinge on each other and cause an enduring state. Ridges exist in suspension around the human and are the foundation upon which facsimiles are built.
2. **Facsimile** = A facsimile is a recording of all perceptions, effort, thought, and emotion experienced by the organism, during any one point in time. It is recorded by the reactive mind. A facsimile can also be considered the physical universe's impression on thought, specifically that section of thought which has a physical universe impression with a time tag on it.
3. **Reactive Mind** = A reactive mind, are portions of the mind which works on a stimulus-response, which is not under conscious control and which exerts force and the power of command over the beings awareness, purposes, thoughts, body and altiosis.

The reactive mind never stops operating. What is thought to be unconsciousness is always conscious.

**21st Century Power: Bio-Tech.** - We are leaving the Era of expendable resources, like oil based products. The power of the future is renewable resources like Biologically Engineered products. The Dulce Genetic research was originally funded under the cloak of "Black Budget" secrecy, (Billions of dollars).

They were interested in intelligent disposable biology, (Humanoids), to do the dangerous Atomic, (Plutonium) propulsors and saucer experiments. They cloned their own little humanoids, via a process perfected in the Bio-Genetic Research center of the world, Los Alamos ! Now they have their disposable slave-race. Like the Greys (EBEs), the U.S. Government clandestinely impregnate human females, then removed the hybrid fetus's, also after about ninety (90) days, like the Aliens, (for more details about how the Government does their abductions, see volume two of this document, called the PULSAR PROJECT, ATR-25A, CODE: ARAMIS V - ADR 3 -24AT) then accelerate their growth in the lab Bio-Genetic, (DNA Manipulation) programming is instilled, they are implanted and controlled at a distance through regular RF (Radio Frequency) transmissions. Many humans are also being implanted with brain transceivers, these act as a telepathic channels and telemetric brain manipulation devices. The network, net was set-up by DARPA, (Defense Advanced Research Project Agency). Two of the procedures were R.H.I.C. (Radio Hypnotic Intracerebral Control) and E.D.O.M., (Electronic Dissolution of Memory). The brain transceiver is inserted into the head through the nose, they learned this from the Greys. These devices are used in the Soviet Union and the United States, as well as, Sweden. The Swedish Prime-Minister Palme gave the National Swedish Police Board the right in 1973, to insert brain transmitters into the heads of human beings covertly !

They also developed ELF and E.M. wave propagation equipment, rays which affect the nerves and can cause nausea, fatigue, irritability, even death. This is essentially the same as Richard Shaver's cavern "Telaug" mechanism. This research into biodynamic relationships within organisms, (Biological Plasma) has already produced a ray that can change the genetic structure, heal, or even kill. Shaver's cavern "Ben-Mech" could heal !

**Warning: Manipulation and Control - Fear, Fraud, and Favor >>>>** The Pentagon, the CIA, NSA, DEA, FBI, NSC, etc. seek to capitalize on the beliefs of the American Public. The secret Government is getting ready to stage a contact landing with Aliens in the very near future. This way they can control the release of Alien related propaganda. We will be told of an inter-stellar conflict, but what looks real, may be fake. What is disinformation ?, is your attention being diverted by the strategy of a Shadow Plan ? I believe you already know the answer !
