

Part 3: Non-Human Entities (NHEs): One View from Alleged Government Insiders

Return to **Part 1**

June 25, 2009 Albuquerque, New Mexico - On August 16, 1994, I received a reply to my letter of questions about the Writers' earlier first floppy disc dated July 16, 1994. The second floppy disc contained the following five pages from the two men who had originally contacted Ray Boeche and showed identification from the Department of Defense in Washington, D. C. The Christian religious context of this reply by the Writers might relate more to their upbringing than hard, objective facts about non-human entities (NHEs), but personal background details are unknown. Content in Real X-Files at Earthfiles.com is presented for consideration in a wide range of phenomena and interpretations, not as proven fact.

Dear Ms. Howe:

First, don't get too bogged down in either Bohm, Talbot, or Penrose and Hameroff's work. Quantum mechanics and quantum theory are very interesting, but definitely side issues in this whole problem. This is definitely not the key to the enigma, intriguing as it may be. At best, these men are describing the possible mechanics that the NHE's could use to conduct their operations. It is a gross simplification of the matter, however.

It is much like trying to explain life and consciousness by saying that the heart is a pump, and the brain operates electrically by opening and closing "switches." In a purely mechanical sense, this explanation may hit close to the mark, but it doesn't explain the mystery of man's sentient nature, and it certainly doesn't allow us to create "life" in the same manner as a mechanic builds a car.

There is a personal, transcendent power behind all of creation, which is also immanent. That is God. God also possesses the attribute of aseity—existence stemming from and dependent on nothing but Himself. He is the uncreated source of all that is. He created everything that exists, and sustains it. As Creator, he is transcendent—apart, different from His creation. As Sustainer, He is immanent—He is omniscient, omnipresent, and omnipotent. He is sovereign over the entire creation. Not a single sub-atomic particle moves through space without God's express will and guiding hand behind it.

Let us use this background to ease into your questions.

1) The NHE's ability to control human minds, to monitor them, and to "take out minds" as you put it (a process more accurately termed possession), is related entirely to the fact that the NHEs exist at a different level of reality. They are spiritual beings. We may as well be blunt, and call a spade a spade, so to speak—beyond any reasonable doubt, the NHEs being dealt with are demonic forces.

The NHEs are fallen angels, in the classical, orthodox sense of the term. The Bible makes it quite clear that God created a race of spiritual beings greater than man, generally termed angels (meaning, in the original Hebrew, "messenger"). When one of the chief angels (Lucifer) decided to try to usurp his Creator's place in the universe, God cast him, and a third of the total angelic population who had also rebelled, from heaven, and gave Lucifer, now referred to as Satan ("the accuser" in Hebrew) dominion over the earth (Satan is referred to as the prince of the powers of the air, the god of this world, the god of this age, etc.)

However, Satan and his demonic hosts, as created beings, may only exercise the amount of influence on mankind which God allows. After all, He is still God, and

- 1 -

ultimately in control. The mechanism for the NHEs to effect people's minds rests on the fact that these are non-material, superhuman spiritual beings, who can manipulate us in ways we don't, and possibly never will fully understand on a scientific basis. Our mutual friend is much better equipped to address these theological issues than are we. Our understanding of these forces has been greatly sharpened through discussions of these matters with our mutual friend.

2) MKULTRA was an effort to establish the ability of mind control techniques designed for use against hostile groups (domestic and foreign) as needed. MKULTRA was one of many mind-control projects that helped to spawn the current research that has now reached frightening levels of involvement with demonic forces. Methods being used range from seemingly benign meditation and bio-feedback like experiments through methods including ritual magic, human sacrifice, etc.

One important fact to remember is the VERY dangerous and vulnerable condition in which one exists when one alters one's consciousness, either through chemical means, Eastern 'mind-emptying' meditation, so-called brain-wave synchronization devices, hypnosis, etc. Altered states of consciousness achieved through various means allow a perfect "window" for these forces to enter into the human psyche, or more accurately the human soul. Once you relinquish control of your mind to what you believe is the great cosmic nothingness, or a neutral, cosmic force, you may be very surprised to learn who (or what) has really come to call.

3) The person and power of Jesus Christ is the only successful counter-offense to NHE mind control (possession). Jesus was God incarnate, and in rising from the dead, and ascending to heaven, he conquered the power of death and of Satan. Satan is allowed to exert his influence on mankind, within boundaries which God has established. However, the only effective counter-measure to the assault of the NHEs is Jesus Christ. Again, our mutual friend is better able to explore these areas with you. His prior involvement in occultic studies has made him aware, through personal experience, of how crucial protection from these entities really is.

We can tell you that there is no technological defense against them, and that much of what we _seem_ to have developed technologically is nothing more than a mask, if you will, for demonic forces to operate on cue. The work that we have done to create equipment to function in the manners described to our mutual friend, is, we now believe, relatively worthless from a purely technological basis. Bohm's work is theoretically possible, but the practical applications that we have achieved are far beyond anything that should be possible based upon our current level of research.

To put it plainly, we have created machinery based to the best of our ability on Bohm's theoretical work, but we don't believe that it functions apart from direct involvement of the NHEs. They are the real driving force behind the actions and effects observed. In

- 2 -

passing, we are aware of nearly a dozen classic exorcisms performed by members of the Chaplaincy on research team workers at various military testing locations. This, naturally, affords the powers that be with a double cover under which to hide these events-the "sanctity of the confessional," so to speak, and the restrictions of military security regulations. Unfortunately, several suicides among those involved in the project have also occurred, directly related to the individual's involvement with attempting to harness these NHEs (read demonic forces).

4) As to a "secret war" against these NHEs-if anyone is waging it, we are. The prevailing attitude seems to be one of desire for increased cooperation/exploitation of these forces. This will lead only to chaos and destruction. The possibilities are truly disturbing.

We must say, however, that we are certainly not privy to all facets of this research. We believe that the information being provided to some concerning alien (as in extraterrestrial) intervention, etc., is true in an apparent sense. However, it is our contention, and we believe our exposure to the type of research we are conducting is adequate confirmation, that the "appearance" of alien intervention has been created by the NHEs to confuse the issue and mask their true nature. Again, our mutual friend spoke quite eloquently to that issue at the April conference in Lincoln, as evidenced on the tape of his presentation.

As to a "secret war," as far as we know, the answer is no. This very idea, however begs your question number 5.

5) The real question is, how can the US. Government, or any governments for that matter, hope to control/exploit/manipulate beings that are spiritual in nature, and of much greater power than man? The answer is they cannot, and the deception lies in the fact that the NHEs promise benign cooperation, unlimited power for good, and the best interests of humanity on the one hand, while on the other hand they destroy mentally, spiritually, and often physically, those with whom they are working. They are neither benign or neutral, they are evil.

6) We are unable to speak to Teller's motivations, but again, if he is motivated by a sense of fear of alien invasion, for instance, in our opinion, he is a victim of disinformation concerning the true nature of the NHEs.

7) Again, this is not an area of "need to know" for us, but our opinions would be that these two projects are unrelated to the NHE phenomenon so far as we know.

8) Not all moving lights are hard physical objects, and in a sense your contact is right in stating that the NHEs have come into this dimension from another. The concept of tears or gateways in the time/space continuum is something that has been explored in

- 3 -

our areas of research, and is essentially the point of ritual magic, for instance.

The ritual is performed to "open a gateway" for a being (demon) to enter and materialize from another dimension. It is our opinion that the nuclear testing of the 1940s and onward had little or nothing to do with the ability of the NHEs to traverse dimensions. After all, they are extra-dimensional, supernatural beings who already possess these abilities, and have been "invading" our dimension, so to speak, since time immemorial.

As to Oppenheimer's alleged abduction, we are unable to speak to that. Oppenheimer held somewhat of an occultic/mystic outlook on many things, and may well have had knowing or unknowing contact with NHEs, however, this is pure speculation based on a complete lack of knowledge of any such situation.

9) The NHEs are little concerned with mankind, except in the sense that they can deceive them, manipulate them, and prevent belief in their conqueror, Jesus Christ.

10) The motive for the NHEs to come here is exactly as outlined above. They are here to deceive mankind, in whatever manner possible, so that man may be prevented from seeing Jesus Christ for whom He really is-the incarnate Son of God, who came to redeem fallen mankind from sin by His death on the cross. Again, our mutual friend can more succinctly explain the theological and philosophical implications of this.

11) Homo sapiens sapiens was created by an advanced intelligence, but that intelligence was God-not another race of created beings.

12) The answer to this should be obvious-yes, the NHEs we are concerned about are in direct conflict with the Creator of the human race.

13) No-NHEs have an ability to mimic many of God's abilities, but in an imperfect way, and with an evil intent. That is why the Roswell material was, if our information is accurate, such an important part of their deception. To create non-earthly debris, and non-human bodies, and even possibly to appear as a living entity is a remarkable way to eventually convince humanity that salvation will come from an advanced technological race from the stars.

Examine the claims made during contact between percipients and NHEs, and you will find the NHEs claims are in direct conflict with Jesus' claims. Both can't be right. Either Jesus was lying, or the NHEs are lying. Again, our mutual friend outlined this in some detail in his April presentation.

14) We've covered this earlier-we are certain our friend could elaborate on this if you desire further clarification.

- 4 -

15) This is a question best left to the theological expertise of our friend. He will be able to give you some insight into these areas of church history and heretical thought that we are not competent to answer.

16) Again, one for our friend. We will be presumptuous, however, and say that the NHEs do not have souls-only man has a soul.

17) Again, deferral to our friend-all of our research has indicated, and we firmly believe that what you refer to as soul recycling, or reincarnation, is another falsehood perpetrated by the NHEs. We have recorded clinical evidence stemming from several of the exorcisms mentioned earlier that indicate the NHEs are responsible for fostering belief in false past-life experiences. If one can be convinced that one will come around again, and get a second chance, then that successfully negates any need to accept Jesus' vicarious death to atone for humanity's sinfulness. Once more, the grand deception in action.

18) God, after all, is God, and only He knows all the secrets of the universe. We are unfamiliar with this rather strange cosmological viewpoint, and it is based on nothing scientific or factual of which we are aware. Our response would be that the truest picture of cosmology with which we are familiar is outlined in three books by an astrophysicist named Dr. Hugh Ross. The volumes are (in chronological order) "The Fingerprint of God," "Creator and Cosmos," and "Creation and Time". Our backgrounds as physicists enable us to speak to this issue with some degree of authority, and we are of the consensus that Dr. Ross' work is an exemplary piece of accurate cosmological thought that is, for the most part, readily understandable by the layman.

As to a possible meeting in November, we will entertain the idea, but we cannot make any promises. Our schedules may not allow us to be in the area at the time, and we are still somewhat unsure of revealing ourselves to others. This is, as some might say, risky business. We hope you understand. We will discuss this further through our friend.

If you have further questions, please pass them on to our friend, and again, we will answer to the best of our abilities. Keep up your good work, and don't give up the search for the Truth. We hope to hear from you again soon.

We appreciate your name for us, so we will say goodbye for now,

The Writers
