**July 6, 2009 Wiltshire County, England** - Mark in Colorado, who worked in computer signal processing for thirteen years, has sent two more PDFs concerning the July 4, 2009, crop formation at the West Down Gallops near Beckhampton, Wiltshire, England, followed the next day by what Mark calls the “Quetzalcoatl headdress” reported July 5, 2009, at Silbury Hill near Avebury, not far from the Beckhampton pattern.

July 4, 2009

West Down Gallops near Beckhampton, Wiltshire

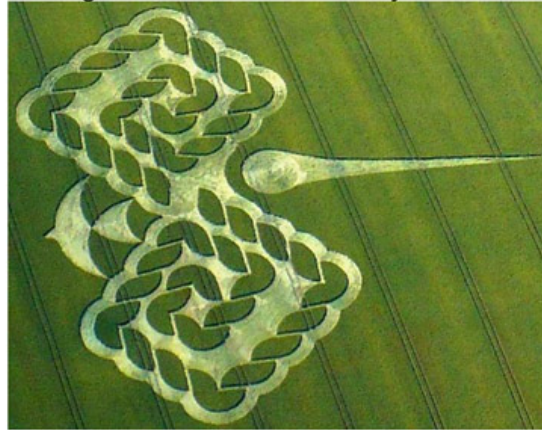

Green circles mark West Down Gallops a little southwest of Avebury on left and Silbury Hill a little south of Avebury on right.

### Eagle and Condor united by Quetzal

**West Down Gallops near Beckhampton, Wiltshire. July 4, 2009**

<http://www.cropcircleconnector.com/2009/westdown/westdown2009.html>

Why have I called this crop circle "*Eagle and Condor united by Quetzal*"?

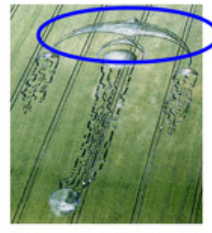

I call it this because this crop circle relates to words that Mayan Elder Don Alejandro has spoken concerning the "*Prophecy of the Eagle and Condor*" about which he said:

"Those of the **Center**, with their mystical bird **Quetzal**, make unite the **Eagle of the North** with the **Condor of the South**; we will meet because we are one, like the fingers of the hand."

In this July 4, 2004 crop circle, starting in the center of one wing the spiral moves counter-clockwise and relates to Eagle because stars in the northern hemisphere move counter-clockwise in the sky. As you cross thru the center of the body into the other wing the spiral now moves clockwise and relates to Condor because stars in the southern hemisphere move clockwise in the sky. The crop circle's body relates to Quetzal because it unites the Eagle and Condor wings. Now read Mayan Elder Don Alejandro's words above again.

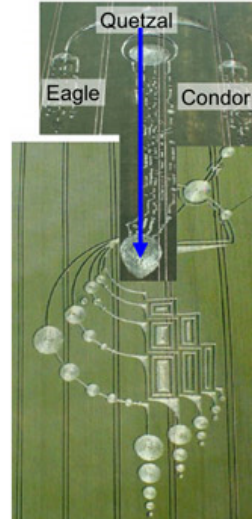

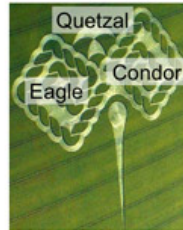

Since the Quetzal body is in the center that unites the two wings of Eagle and Condor then what does that Quetzal body tell us about unity?

The head of the crop circle tells us that it relates to the June 27, 2009 crop circle like this:

South Field near Alton Priors, Wiltshire. Reported June 27, 2009.

So Quetzal, Eagle, and Condor relate to three crop circles like this:

The July 4 crop circle's head of the Quetzal body connects to its tail like the June 27 crop circle connects its head and tail into the head of the June 21 Kokopelli crop circle of the summer solstice.

Thus the June 27 crop circle with the song lines has its Quetzal song line connecting to the head of Kokopelli as shown by the blue line in this picture.

Each wing of this July 4, 2009 crop circle has 21 parts forming its spiral so the Eagle and Condor spirals united is  $21 + 21 = 42$ . The number 42 relates to the *Sixth Sun Tzolkin* calendar because that Tzolkin has exactly 42 symbols that form all of its day-signs.

## Head-Dress of Quetzalcoatl

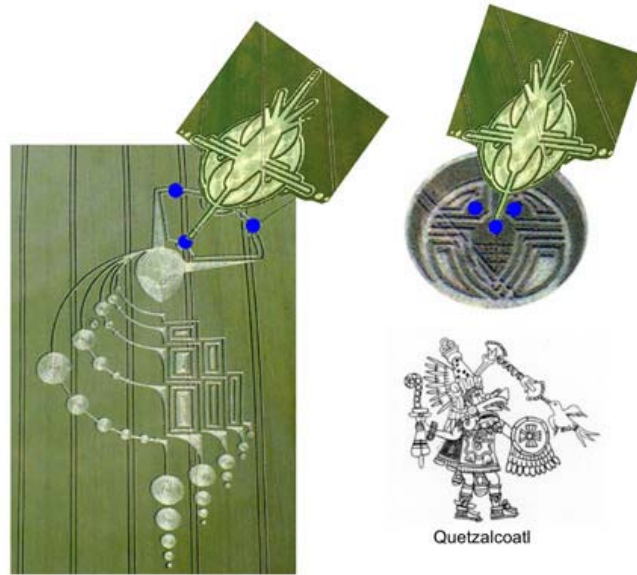

Silbury Hill near Avebury, Wiltshire. Reported July 5, 2009

<http://www.cropcircleconnector.com/2009/silburyhill/silburyhill2009.html>

I am calling this the "*Head-Dress of Quetzalcoatl*" that also could be called the head-dress of Kokopelli because the head of Kokopelli from the June 21, 2009 crop circle is in this July 5, 2009 crop circle.

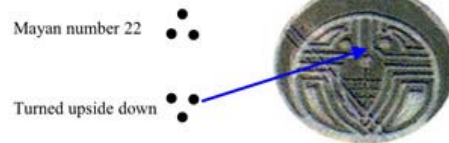

Remember the Hummingbird comes into *Quetzalcoatl's* head-dress so let us see more pictures that speak to us about the crop circles and *Quetzalcoatl* / Kokopelli.

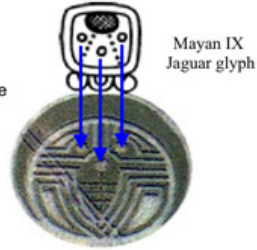

Quetzalcoatl

In the picture above we see the Hummingbird connecting to the head-dress of *Quetzalcoatl* or Kokopelli. The 3 circle pattern on the head of Kokopelli in this July 5, 2009 crop circle relates to the Mayan number 22 and *Quetzalcoatl*. As we have seen in previous the writings day 22 in the Mayan Tzolkin calendar is 9 IK the day-sign of *Quetzalcoatl*. The number 22 rotated is found in this July 5 Head-dress crop circle as shown below.

The three circles in the Head-dress relate to *Quetzalcoatl's* day 22 and the same three circles also relate to the Mayan Tzolkin Jaguar glyph of IX as shown here:

In the Mayan account the first of the 3 Hearthstones setup at the start of this World Cycle was the *Jaguar Hearthstone* which would relate to the IX glyph. Read page 3 of my writing about the July 2, 2009 crop circle called "*Hummingbird and World Cycles*". Also read page 3 of my writing "*The Polar Weaving of Quetzalcoatl*" about the June 25, 2009 crop circle. Reading those may help you understand what the Mayan writers may have been talking about when they said at the end of the last world age before our present world age that "*three hearthstones marked out a new place in the sky*".

Remember in Mayan tradition it is important for a message of authority to be able to connect itself back in time to the very beginning of our World cycle. I will do that with these pictures.

Hummingbird crop circle connecting to the IX (Jaguar) in the July 5, 2009 crop circle

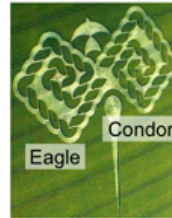

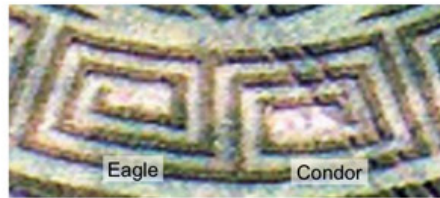

Hummingbird crop circle connecting to the Jaguar Hearthstone and IX glyph

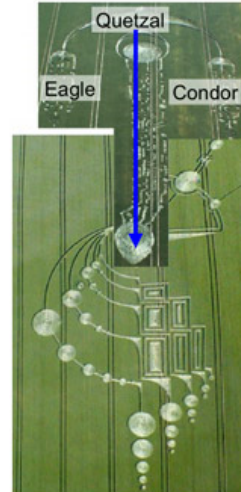

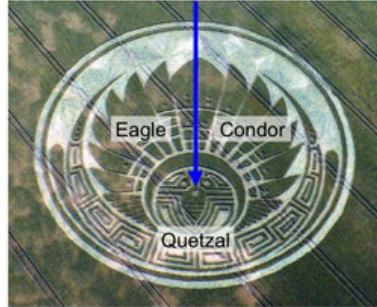

This July 5, 2009 Head-dress crop circle also speaks of another prophecy concerning the changing of World cycles which is the "*Prophecy of the Eagle and Condor*".

This July 5, 2009 crop circle has the same Eagle and Condor as the July 4, 2009 crop circle.

The feathers in the head-dress are turned in the opposite direction which would again symbolize the Eagle (North, counter-clockwise) and the Condor (South, clockwise). The crop circles feathers also speak of Eagle and Condor. Because the left side has 15 feathers and the right side has 16 feathers. These feather counts relate to Eagle and Condor in the Mayan Tzolkin calendar whose glyph 15 is Eagle and glyph 16 is Condor. So we may label the crop circle as shown below and notice how its relationship to this other picture.

So this crop circle relates to words that Mayan Elder Don Alejandro has spoken concerning the "Prophecy of the Eagle and Condor" about which he said:

"Those of the Center, with their mystical bird Quetzal, make unite the Eagle of the North with the Condor of the South; we will meet because we are one, like the fingers of the hand."

So we see that the Hummingbird is connecting into the Quetzal part of the July 5, 2009 Head-dress crop circle. Just like the Hummingbird connected into the Quetzal part of the Kokopelli crop circle. Consider how a Hummingbird and a Quetzal bird relate.
