

We will 'open' here with some wise words spoken by Morpheus in the Hollywood Blockbuster Movie called 'The Matrix'. If you recall, Morpheus said to Neo: "... This is sparring programme, similar to the programmed reality of the Matrix, it has the same basic rules, rules like gravity. What you must learn is that these rules are no different than the rules of a computer system. Some of them can be bent, others can be broken..." So what are we all waiting for, let's find out how to 'bend' and 'break' the Matrix....

Here we go...

This is George

Oh, and a quick message for Prince Charles of the UK - If you 'think' that using my name can stop me, then I would recommend that you 'think' again...

So you want to be a 'sorcerer?' Very well... just follow my Twenty One steps to learning Yogic-Magic, and your wish will come true.

Believe it or not, George is one of the most powerful sorcerers that this Universe of Mind has ever seen.

And now George is going to teach you the reader how to change the world for the better.

The number seven repeats throughout this current Universe of Mind. In fact the God-head created seven evolving Super-Universes, each with seven Local-Universes, and each with seven Realms of Material Being, and each with seven Sub-Realms.

Here, I am drawing upon the Hindu, Lamic, Jewish and Toltec Cosmology that takes the name of 'The Tree of Life'.

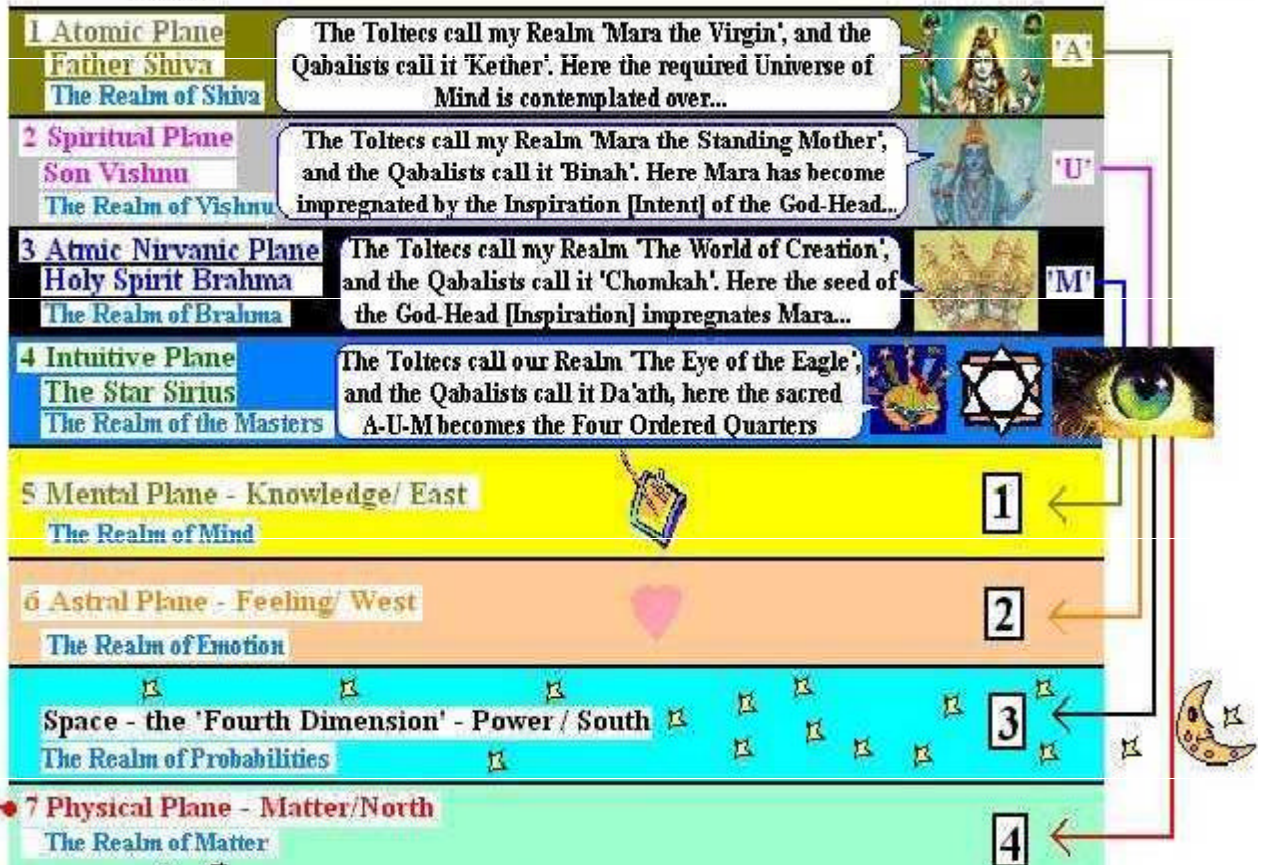

For sure there are other 'Tree Of Life' Cosmologies [models] with 10 or even 13 Realms presented. But the simplified 7 Realm Cosmology given in this presentation is one of the easiest to understand. More-so, the more complex versions of the 'Tree Of Life' are all expansions of the 7 Realm version anyway.

The best and most accurate version of 'The Tree of Life' is contained within the African Wolf nagueal's book called: 'Cry of the Eagle', by Théun Mares, 1997, ISBN 0 620 21198 9.

Occult Science informs us that our localised system of time-space is made-up of Seven Major Realms [or Planes] of 'being', which are all contained within seven grades of 'Space' itself. The 'top-most' of these three Major Planes are governed by the God-forms that are being [1] Father Shiva in the Atomic Plane, [2] Son Vishnu in the Spiritual Plane, and [3] Holy Spirit Brahma in the Atmic Nirvanic Plane. And between them they sound the Sacred AUM that passes through the star body of Sirrius, and which continues 'downwards', in an orderly progression to produce the Four Directions. Here the Mental Plane takes on the qualities of the East, the Emotional Plane takes on the qualities of the West, 'Space' itself takes on the qualities of the South, and the Physical Plane takes on the qualities of the North.

Plate 1

Plane

The Complete Physical Plane

- 1 Atomic Earth
- 2 Spiritual Earth
- 3 Atmic Nirvanic Earth
- 4 Intuitive Earth
- 5 Mental Earth
- 6 Emotional Earth
- 7 Physical Earth

The same occult science also informs us that each Major Plane of Being within our localised system of time-space is again divided into seven Sub-Planes, and that these Sub-Planes take on the qualities and ordering found to exist in the Major Planes. For example we find that the Physical Plane, where Mankind is found to reside, is made-up of [1] Atomic Earth, [2] Spiritual Earth, [3] Atmic Nirvanic Earth, [4] Intuitive Earth, [5] Mental Earth, [6] Emotional Earth, and [7] Physical Earth. Of course a trained Yogi can see all these Sub-Planes employing the 'Third Eye' function, whereas an untrained observer would probably confine most of their awareness to the Seventh Physical Sub-Plane itself.

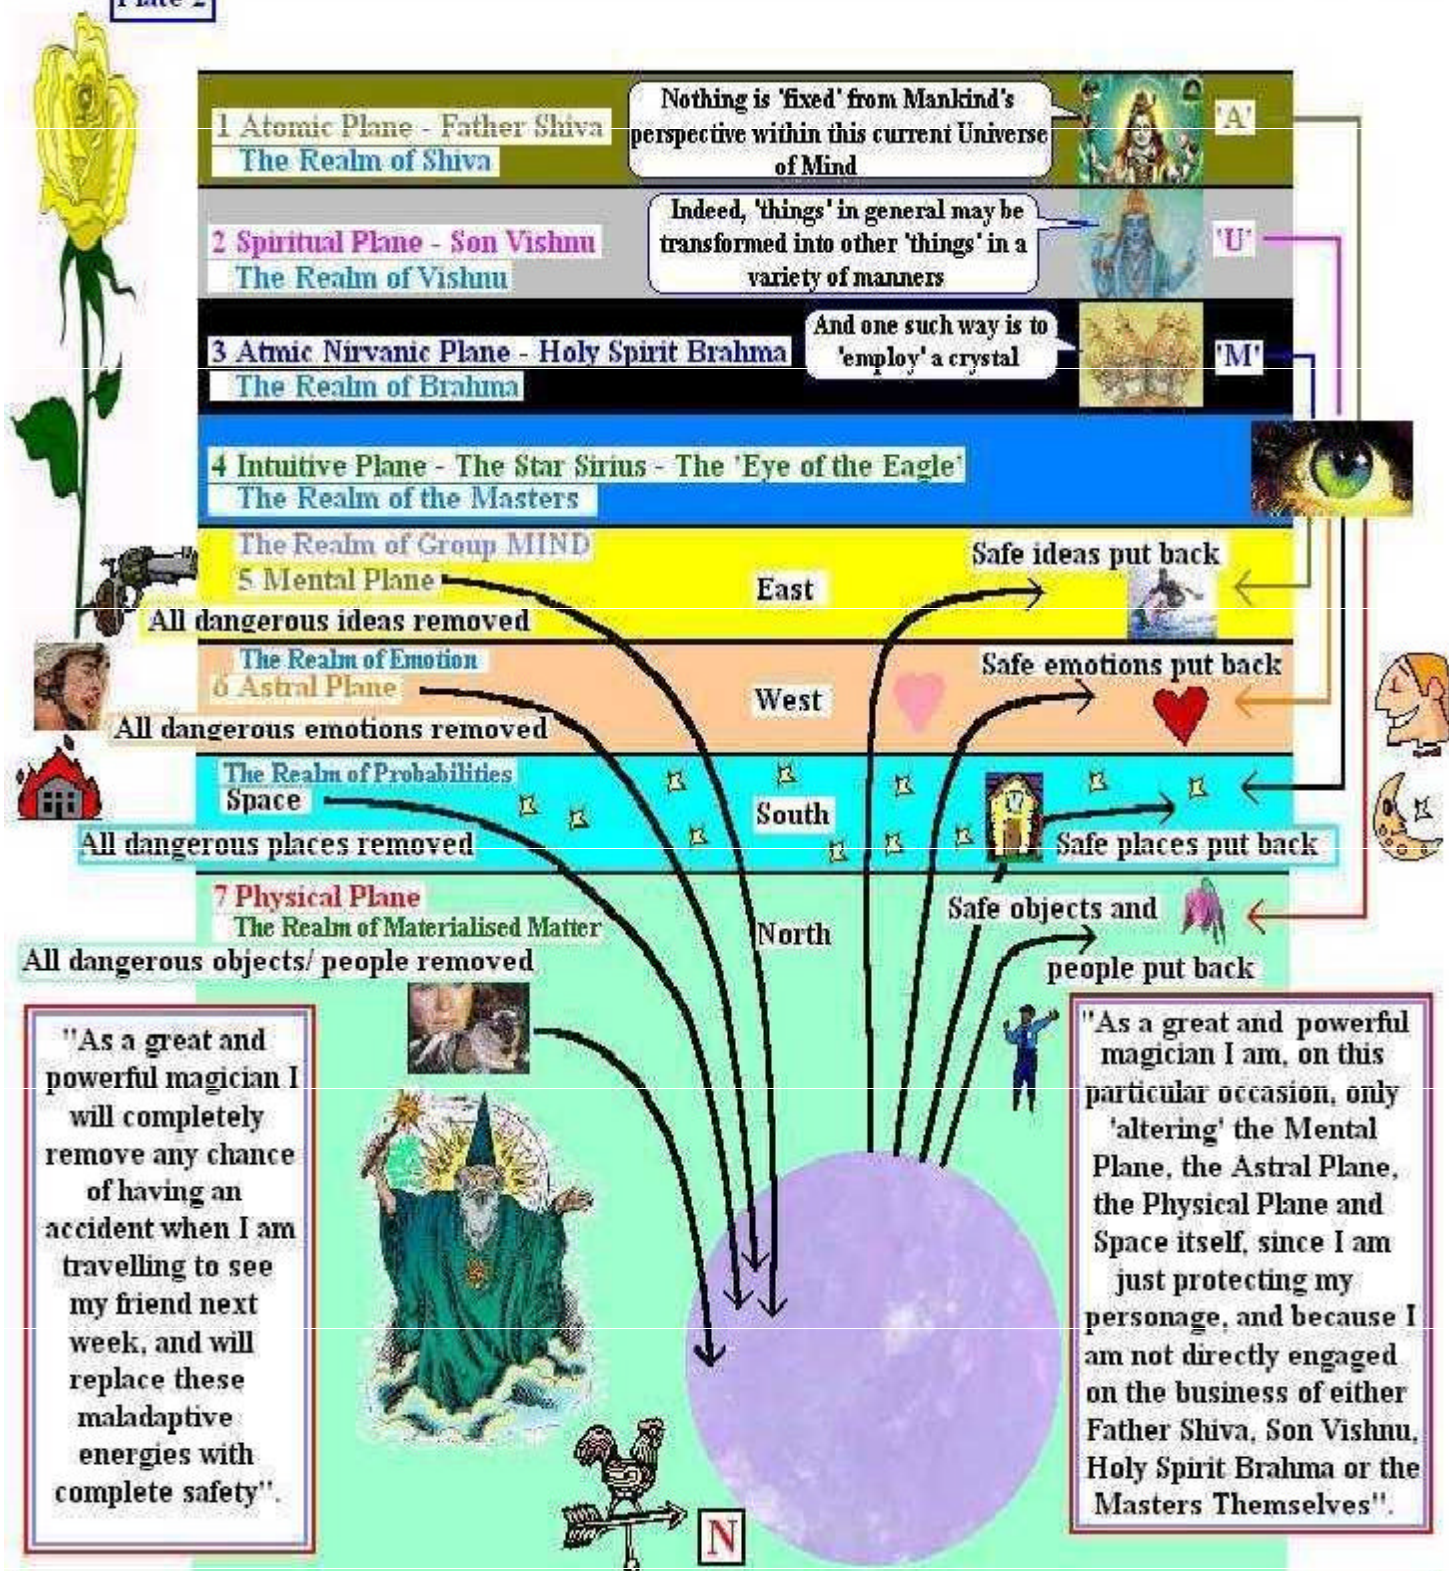

This Universe of Mind is made of living energy, which is called 'Prana' by Hindus, Yogis and Occultists alike. More-so, we find that this 'Prana' is both 'programmable' and 're-programmable'. And bearing all of this in mind, we find that physical reality is nothing more than a conjuration of singular and group MIND, and of singular and group EMOTIONAL input.

If you want to learn about 'Prana' or indeed 'Raja' Yoga in general try reading : 'Raja Yoga', by Swami Vivekananda, 1956, ISBN 0-911206-23-X.

Of course all these apparent 'Occult Secrets' have long since been known by many witches and wizards from time immemorial. And such people know full well that Realms of Being may be manipulated by, for example, programming a crystal to remove some unwanted event or situation, etc, and to return a more preferable event or situation, etc.

Plate 2

Of course every 'great and powerful magician' knows full well that to 'bend' the Intuitive Plane, which is also known as the 'Realm of the Masters', or to 'bend' the Atomic, the Spiritual or the Atmic Nirvanic Planes is possibly a very bad idea, since the Major God-Forms governing these Realms may not appreciate such a 'magical manoeuvre'. In short, the rule here is that unless you are on 'friendly terms' with such God-forms, you would only 'bend' the Mental Plane, the Emotional Plane, Space itself, and the Physical Plane.

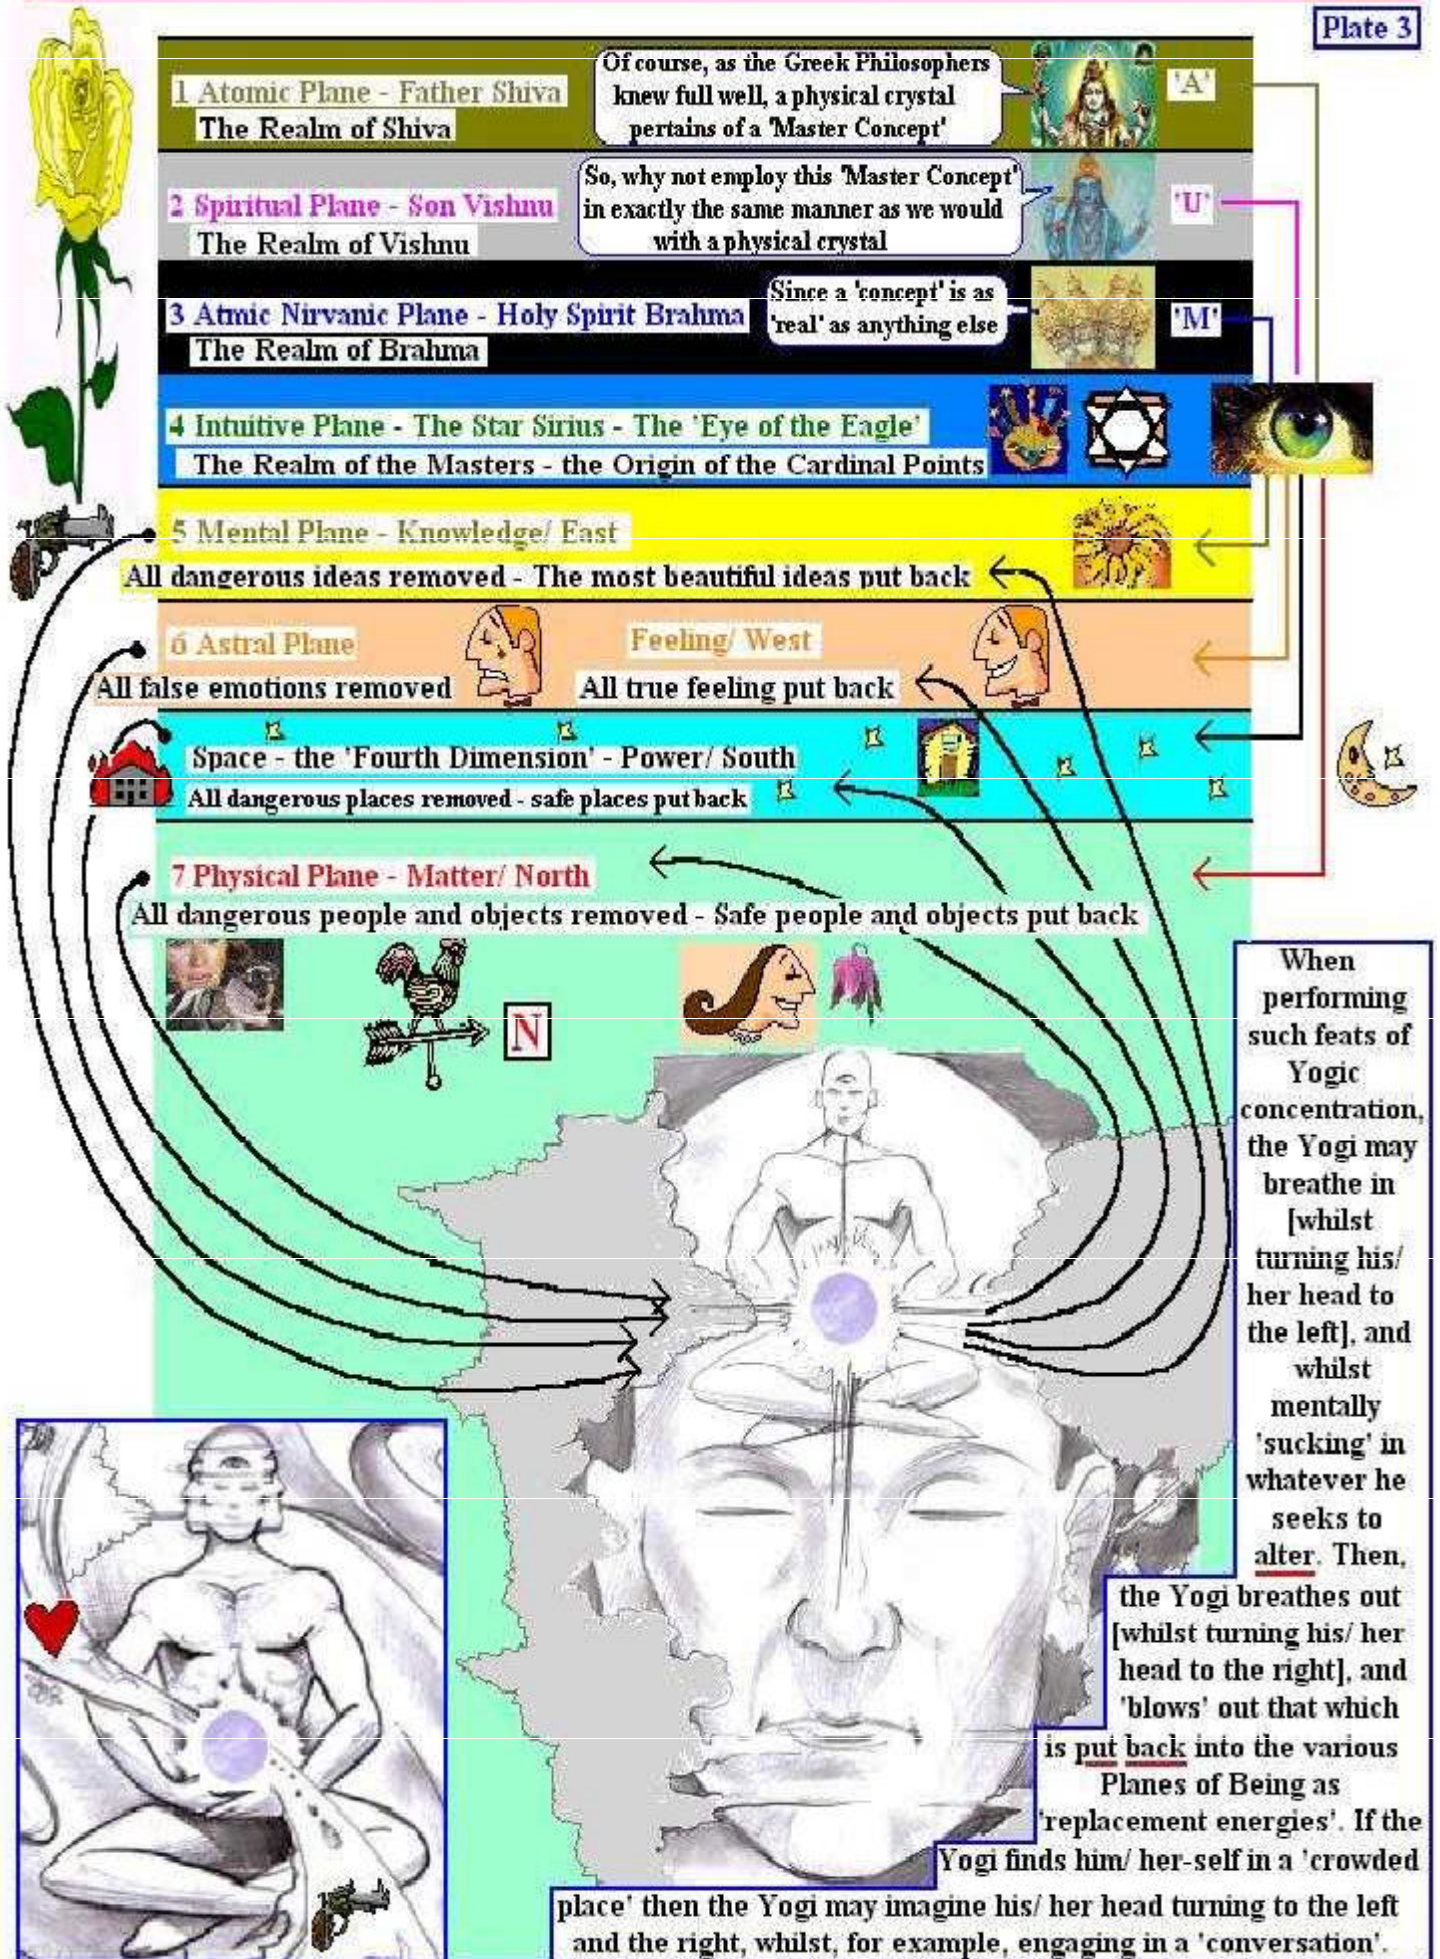

We find that 'objects' are quite 'interchangeable' throughout the various Realms of Being, as well as within their Sub-Realms. This, of course, means that a visualised 'object' is just as real, and just as alive, as a physical object.

To learn about visualising objects, to the point of materialisation, read [1] 'Raja Yoga', by Swami Vivekananda, 1956, ISBN 0-911206-23-X, and [2] 'Invisibility', by Steve Richards, 1982, ISBN 1 85538 168 0.

Of course, any good Yogi will tell you that a crystal is nothing more than a materialised thought-form, and that IMAGINING a crystal is just as powerful as having one. And, in this manner, the Yogi 'affects' the Planes of Being, always for the betterment of mankind, using only his mind. So, you can probably see why, esoterically speaking, our particular Universe is known as 'The Current Universe of Mind'.

Plate 3

The 'Heropass' [or 'Time' itself] does it's best to 'arrange' the Four Quarters of this Universe of Mind into an understandable sequence. This sequencing is not the same for everybody, and is 'presented' to a group [or individual] in the best manner to suit the level of objective knowledge obtained. In fact this is why you can be sitting along-side a person that is having a 'horrible time', whilst you are having an 'excellent time'.

The Four Directions themselves are personified as four dimensions of time-space. These being the Mental Plane [personified as the East], the Astral Plane [personified as the West] 'Space' itself [personified as the South] and the Physical Plane [personified as the North]. Because the 'heropass' enters our time-space system via the Mental Plane and then works 'downwards', we find that 'ideas' must always come first. Indeed any thing that enters Mankind's time-space system always follows the structured ordering of the force that is 'Power' throughout the four 'Quarters', with this being [1] East, [2] West, [3] South, and then [4] North.

Unfortunately, the current [c. 2004] black magickal 'aristocracy' perverted true Yogic knowledge thousands of years ago, and introduced a system of 'talking' and 'thinking' that 'seemed' to promote a three-dimensional world. Here people remarked about this thing and that 'afterwards', which, because the East [ideas] always comes 'first', really made 'before'. In this manner the 'aristocratic' black magician-yogis led Mankind into a terrible series of karmic retributions, because of all the negative 'spelling' [talking and thinking] that everybody did 'after' some horrible event. And in this manner, we can clearly see why many black magicians preside over various 'charities', since the charity 'afterwards' co-creates the need for such an organisation 'before'.

The information on the 'ordering' of the Four Quarters comes from the African Wolf nagual's book which is called: 'Shadows of Wolf Fire, by Théun Mares, 2002, ISBN 1-919792-04-X, [2] '

So, let us take an expanded view of the Four Directions, manifested as [1] the Mental Plane, [2] the Astral Plane, [3] Space itself, and [4] the Physical Plane and let us examine ONE MIND [personified as a man or a woman] watching television news 'program'. And let us SEE what we can SEE.

Time 'Itself' has a name, it's called the 'Heropass'

A Rad Idea

Objective Science [Yoga] informs us that 'time' is attributed to the East. And this, of course, means that if you 'think' about something 'afterwards', then this will be part of, or all of, the reason such a thing happened 'before'.

6 Astral Plane - Feeling/ West

My great friend Beelzebub once explained, to his grandson, all about the true essence of 'time' itself. Firstly, Beelzebub said that: "Time in itself does not exist; there is only the totality of the results ensuing from all the cosmic phenomena present in a given place". And secondly, he said that: "It is possible to judge Time only if one compares real cosmic phenomena which proceed in the same place and under the same conditions, where Time is being constated and considered".

Space - the 'Fourth Dimension' - Power / South

As the gateway to the Fourth-Dimension, the character that is being 'Space' lets through worthy, un-worthy, insane, interesting, boring, maladaptive, useful, helpful, lovely, etc., etc., situations, objects, events, places, and people. What 'Space' lets through from the fourth dimension [via the nucleus of every atom] into the Physical Plane depends upon Mental and Astral input from individual and group MINDS. Un-needed probability is 'ejected' back into the Fourth Dimension via the ELECTRON, which is really a 'rip' in the fabric of 'Space'.

IDEA

Blimey, if I watch or 'think' about this television 'show' then I lend my BELIEF to the demise of this unfortunate chap. But surely, this would mean that writers such as David Icke are correct when they say that the current [c. 2004] British 'Aristocracy' controls all television 'content' to suit their own black magickal 'ends'.

A bad 'matter'

Today, a soldier cried his eyes out because he had just seen his best friend killed in a gun-fight.

In fact ANY conjured Universal Event must always take the form of a TEMPORAL VOTRTEX, in that the singular and group MIND input transcends linear notions of 'time'.

The North, or, if you like, the Physical Plane is the Place of 'materialised objects'. but the part Mankind needs to be aware of is that the Physical Plane is Conjured from a combination of the East [ideas] and the West [feelings], which is channelled through 'Space' [South].

Any media, be it Television, Radio, Newspapers, Books, Stories, Hearsay, or whatever, is controlled by the current [c. 2004] black magickal 'aristocracy' along with all of it's 'content'. In this way political black magicians can often 'conjure' some event 'before' by the sheer amount of reporting about it 'afterwards'. And this, of course, is the reason that all medias focus heavily upon negative 'stories' of violence, drugs, abuse, theft, and 'tragedy', etc., etc. As an example here, if a newspaper 'story' [spell] says that you did something horrible, and is then read by 1000,000 minds 'after' the event, then the reason that you behaved in such a criminal manner 'before' is because you only had one mind with which to counter such an attack. Of course, there is another way of handling such 'information' when viewing or listening to such 'medias'. The white Yogi, for example, knows that this Universe of Mind is made of re-programmable 'Prana', and so he/ she changes what is watched and viewed into something much nicer. Indeed, to 'not do' such a thing once you know how to, will result in the most terrible karma for the act of lending belief to such negative subject matter.

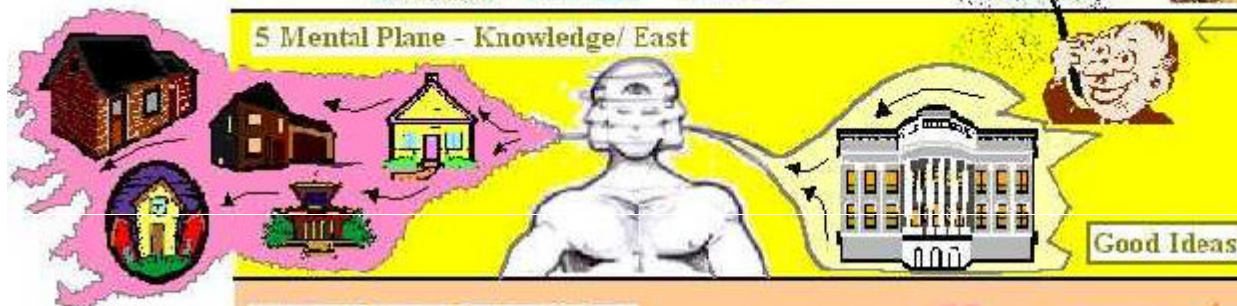

Should you want to find out about the Druidic/ Atlantean premise that 'Belief Imparts Reality', then check: 'The Twenty One Lessons of Merlyn', A Study in Druid Magic and Lore', by Douglas Monroe, 1992, ISBN 0-87542-496-1, pages 279 ~ 294). This information comes from Lesson Fifteen.

So, how should we watch T.V., read a 'Newspaper', or listen to some negative 'story' that a supposed friend is telling us, without creating the very same 'event' that we are looking at or listening to? The method in question is shown below, and is employed by Lamas, Yogis, witches and sorcerers to this day.

Space - the 'Fourth Dimension' - Power / South

Here we have two distinct groups of energies that are both competing to pass through 'Space' and become 'materialised' upon the Physical Plane. The first group of energies is that of a black magickal aristocratic 'spell', which seeks to maintain its unfair hold over 90% of the Earth's resources, and the second and more powerful group is that of the now DISBELIEVING 'watchers' and 'listeners'

Today, the British 'aristocracy' announced plans to build yet another huge new palace.

Just 'suck' in what you don't want, then 'blow' out what you do want

Using nothing more than my MIND I can alter Physical reality, by removing unwelcome thought-forms

Here, I am 'absorbing' all of the energy that might have built a new castle, and I am transforming the same energy into free homes for needy people.

N

Even 'talking' and 'thinking' is made of re-programmable 'Prana' just like everything else in this current Universe of Mind. And from this standpoint, we can easily see why the Biblical character known as Christ Michael once said "... even my words are spirits". This means that if, for example, we are subjected to the negative verbalisations and mentations of some unpleasant individual, then even this electrical 'Pranic' energy may be turned into something else. And in this manner the white Yogi separates his/ her karma from those negative people around him/ her by transforming any negative 'utterances' [Mantras] and 'thoughts' into something much nicer.

Of course, many of our 'employers' are freemasons that are 'employing' the black magickal version of these thinking [and talking] techniques. And to 'combat' such people, it is necessary to understand and to employ the methods given here. Here follows an example of 'Yogic conversation'.

"Yes George, that IS an absolutely terrible thing to happen, and I HEAR that many decent people are quite incensed about the whole thing. Now, back to work, and be quick about it!"

Tee, Hee! If I 'talk' in such ways, I escape all the negative karma, since I have only really 'said' that I hear other people are very 'upset', which I have indeed heard!

George isn't 'listening' mate, at least not in the manner your kind wants him to listen. Here George is IMAGINING a crystal that removes all of the effect of your twisted language system, FOR GOOD!

Extra, extra! Today, a large area of the Middle East was blown up by British and U.S. 'forces'

Of course we know that everything that anybody says is also a spirit [or entity] in it's own right. And the danger of being 'talked about' by an average person is that they will accidentally surround your totality with a mass of subjective and inappropriate 'spells' [thoughts] about you. In the case of the black magickal freemason, or the standalone devil-worshiper, this kind of person will 'spell' you to fail or to become ill to suit their perverted 'ends'. Because of this, sometimes, when dealing with this kind of 'person' the White 'Yogi rebounds all entities 'launched' at him/ her back into the aura of the offending individual.

The Yogi, however, can sometimes be much nastier with the usage of his/ her mind techniques. And so, in this example, the entities [word symbols, at the Physical level] produced by the black magickal freemason are rebounded straight back into him by the method of four-dimensional 'thinking'.

7 Physical Plane - Matter/ North

One example of the power that a group of entities has when they all join with somebody's auric totality, is that of the masonic 'death-spell'. Here many, many black magicians are told to direct a barrage of life-destroying entities at a person or group of people. Of course, with one of the founding Laws of Magic being that 'Like Attracts Like', what happens next is that all of these maladaptive entities 'head for' and then 'stick to' the personage of the chosen victim. For a person with no Occultic/ Yogic knowledge, this kind of an attack will often mean the physical death of the poor victim.

Also, in the case of the accompanying example Plate, please note the way that the black magicians speak. By only saying that George 'looks ill' they are not really subject to any negative karma. However, 'looking ill' is like 'being ill', and Magic and Yoga are four-dimensional subjects. This means that when poor George 'looks ill' he probably 'gets ill' because of all the other people that now 'join in' this maladaptive 'spell' by remarking something like "shit George, you must be really ill to look like that". Unfortunately, all the uneducated people that 'spelled' in this directive manner will be subject to negative karma, whilst the black magicians that 'chose their words carefully' are subject to no such thing, relatively speaking.

Since we have been looking at some nasty ways of 'spelling' people, we should examine the masonic method of the 'death spell'. This kind of spelling is accomplished by taking a huge collection of dangerous entities [from a variety of sources], and then re-directing them all back at the poor unfortunate victim...

Some employ just their MINDS and others redirect entities from various 'sources'...

Of course a 'masonic death-spell' is nothing to be concerned with by somebody with Yogic knowledge. And this is because a death-spell is also nothing more than re-programmable 'Prana', and so can be changed into anything else that the White Yogi feels is needed. In this case the 'death-spell' is turned against the originator.

Also in this case, the rebounded 'spell' is much more powerful than any of the individual spells turned against the White Yogi, since he/ she has now rebounded a thousand 'spells' against one person. I should add here that perhaps a nicer usage of this kind of re-structuring of 'Pranic emanations' would have been to transform the masonic 'death-spell' into something like equally-shared-wealth-for-all-of-mankind.

Over thousands of years the black magical 'aristocracy' modified the Earth's language system [in all tongues] to visualise a three-dimensional world when, in fact, it was really a four-dimensional Universe [from Mankind's true perspective]. Unfortunately, this meant that being subjected to negative medias [of any description] 'afterwards' was often the sole reason that such a thing happened 'before'.

Of course the black magical 'aristocracy' never 'watch' or 'listen' to such things themselves, since the karma of doing so is quite terrible. And so, what is needed here, is to apply four-dimensional 'thinking' techniques to restructure those negative energies that Mankind is repeatedly subjected to. And to 'adopt' these Yogic four-dimensional 'thinking' techniques, is to negate any negative karma whilst viewing or listening to any negative subject matter.

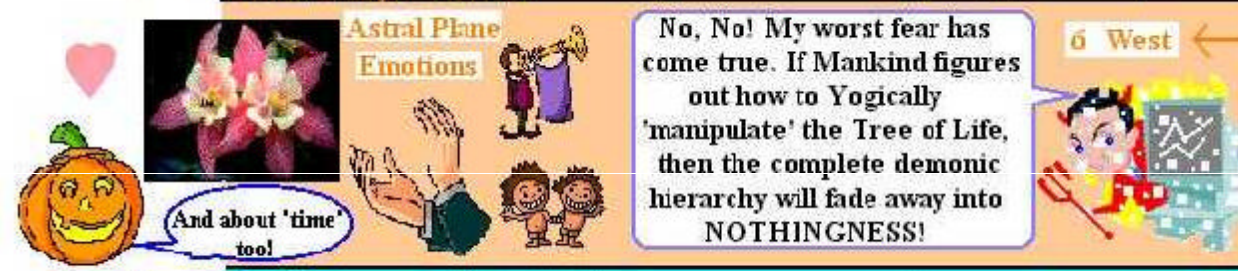

Let us now study a common place, but sadly, an inappropriate Universal Activity, that is found to reside in Mankind's localised area of time-space. The inappropriate activity in question is that of lending MENTAL ENERGIES to negative locus points of localised time-space, ergo, in this instance, 'watching' and 'thinking about' some negative occurrence or other. What is suggested here, is that the 'observer' of such 'things' IMAGINES some other much nicer thing, that runs on the power of the negative thing that is seen. And in this manner, for example, the POWER from all gun-shots, may be RE-BORROWED, and put to a much better usage. Here, the 'much better usage' is that of the advent of GLOBAL PEACE.

Plate 10

A good example, if I may use such a phrase, of a three-dimensional mentality seeking out some 'answer' in a four-dimensional Universe is that of a detective 'solving a crime'. Unfortunately, at the four-dimensional level, the detective in question really 'creates' the very 'event' that is under consideration. Sadly, the same is true for many armed forces personnel, security officers, and policemen in general. Three-dimensionally such people really believe that they are seeking something out, whilst four-dimensionally, they are in all actuality creating the outcomes that they 'find'.

I think that one of the funniest examples here is that of the 'archaeologists', since it is often these misguided people that actually make somebody drop something [or kill somebody] all that 'time' ago. This won't happen in every archaeological instance, but where there are more 'finders' than the people studied, this will indeed be the case.

The same may be said of 'doctors', 'lawyers', 'teachers' and many other hoodwinked 'persuasions'. One of the strangest examples I have seen lately surrounding this subject is Southampton City's Police department, who now have a 'Crime Catcher' vehicle, surrounded by many cameras. At the three-dimensional level [complete with 'before' and 'after'], it really will appear that such a 'vehicle' will indeed 'catch' many criminals. Though sadly, at the four-dimensional level, such a 'vehicle' actually manifests the apparent 'crime'.

At the four-dimensional level the 'Crime Catcher' vehicle works as follows. Several 'officers' sit inside and 'expect' to find a 'crime'. They 'view' the locale with the massive array of cameras on their monitors inside the 'vehicle'. Soon they have one 'suspect' shown on thirty cameras, and with four 'officers' firmly-believing the poor person is 'about to do something'. Next the poor victim, since they only have ONE MIND is controlled by the expected outcome of [1] the four 'officers' inside the 'vehicle', [2] the thirty cameras, and [3] the array of Court staff and Police headquarters staff 'afterwards'. In this way, it is plain to see exactly how the freemasonic 'Method of Temptation' really works. In-fact the next thing that happens is that the poor 'victim' finds themselves in Court, and is, of course, fined an amount of money by the freemasonic 'bench'.

Here, we will investigate a very negative occurrence which is found to be prevalent in this localised area of time-space c. 2004. The activity is that of 'seeking out a crime', which as it transpires, amounts, four-dimensionally, to 'creating a crime', and is found to 'occupy' many of the police [particularly detectives] and armed forces personnel in all of their working hours.

2

3

In this Plate, since only 'nice things' are being considered, then only nice things may 'pass through' from the ever-folding rubix-cube that is the Fourth-Dimension into the Physical Plane. More-so, we can see that any 'non-considered' subject matter is actually ejected from the Fourth-Dimension, and so cannot be materialised upon the Earth Plane under any circumstances.

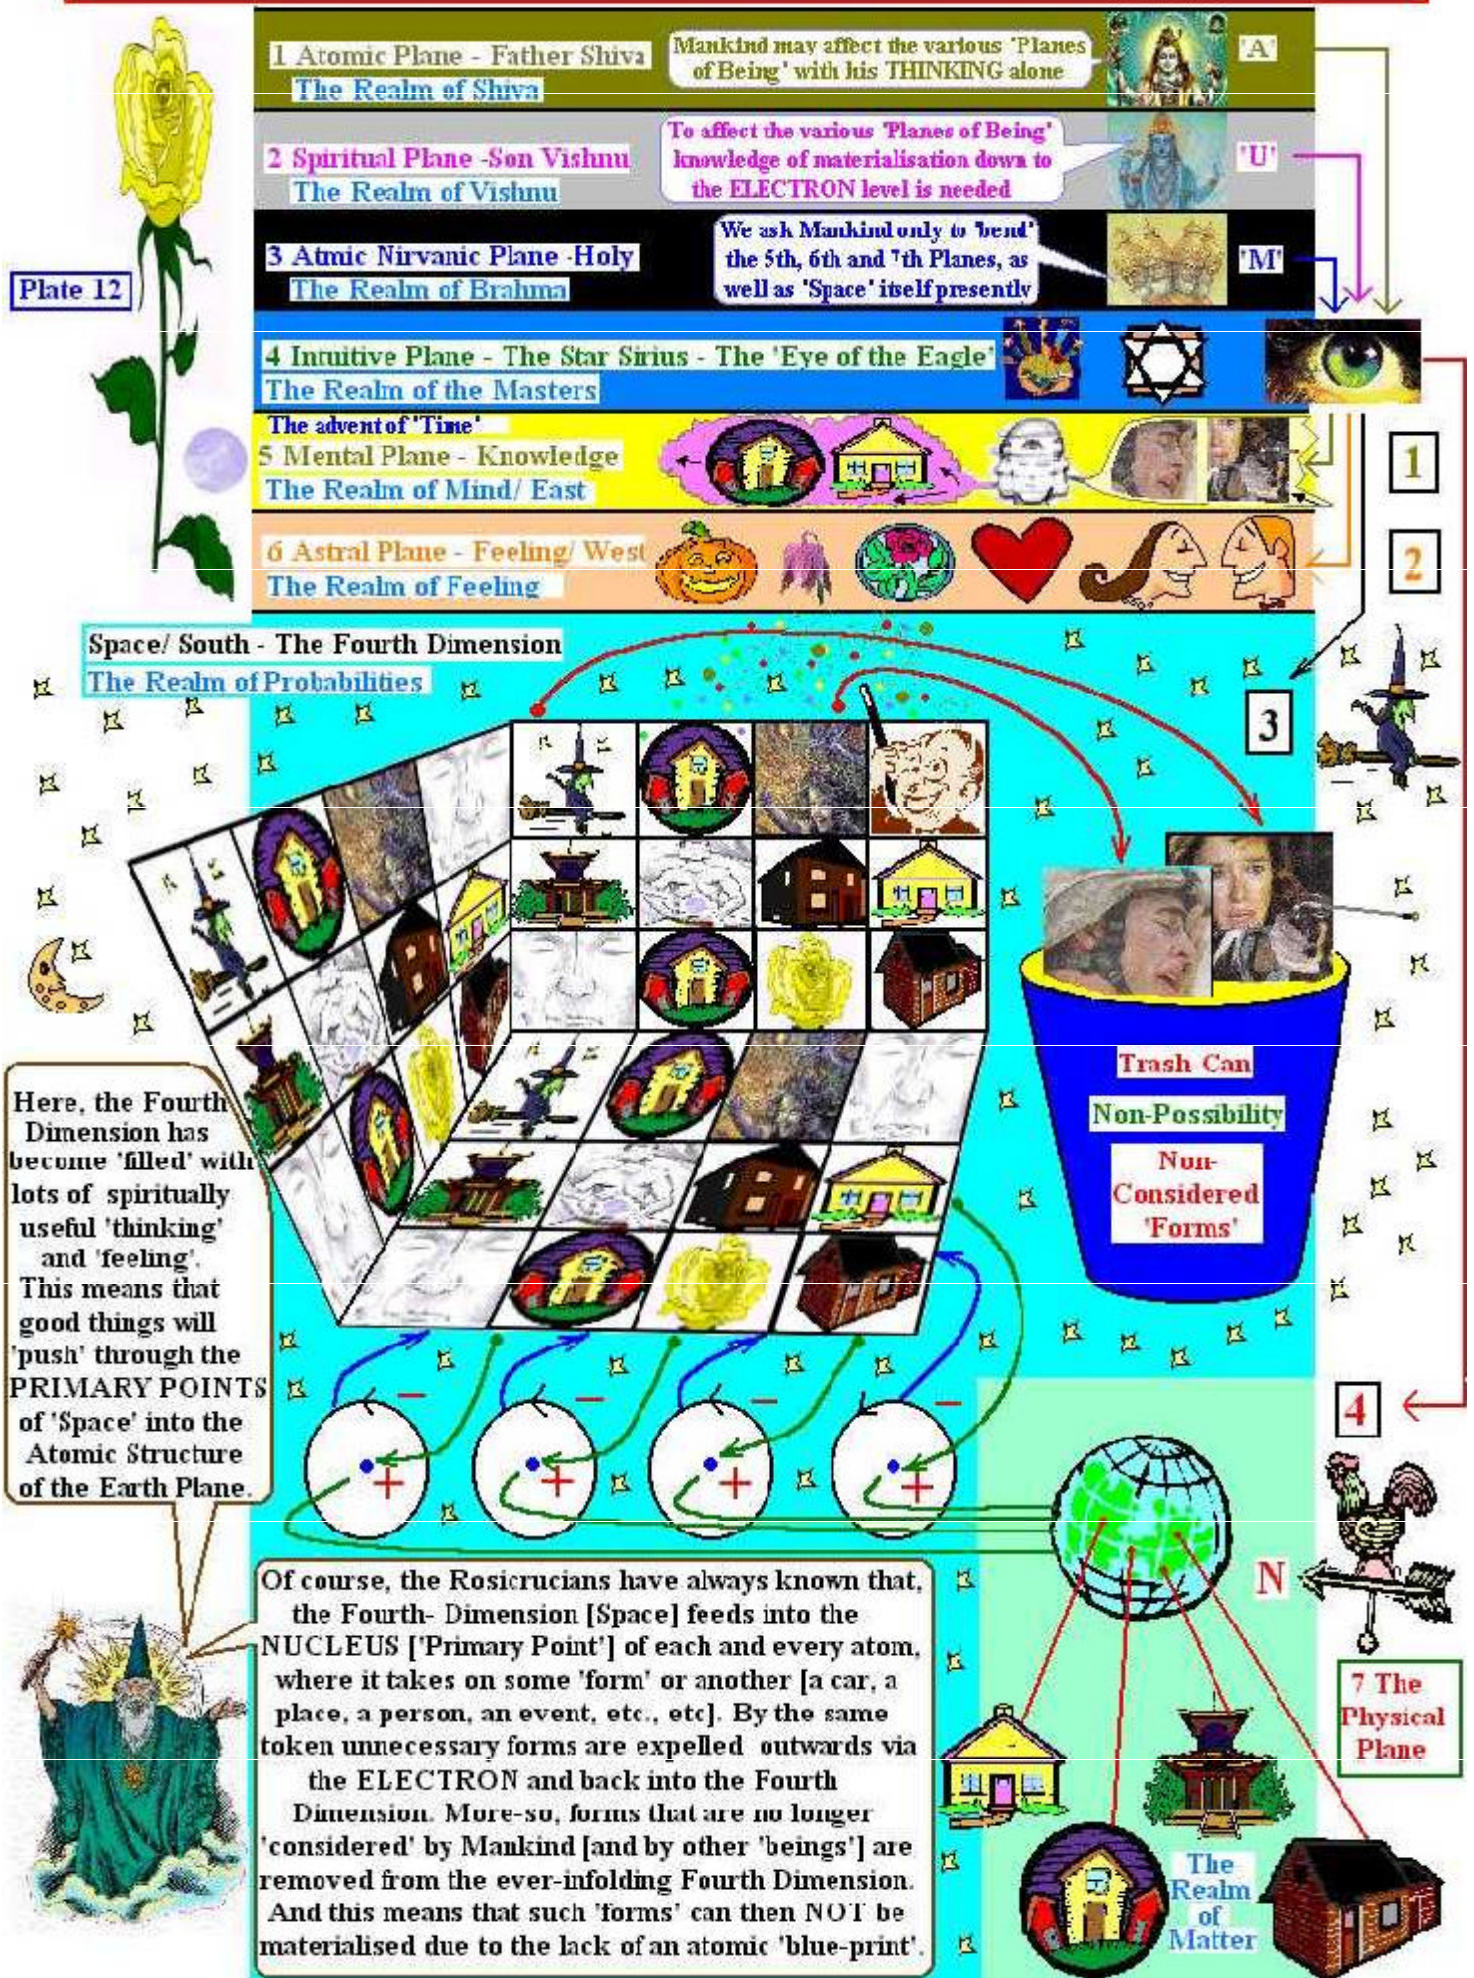

Believe it or not, the Lamas, Toltecs and many other 'Masters' can actually 'walk' within this Realm, and check out what is forming and about to 'happen' on the Physical Plane. And this is the reason that sorcerers the world over have now announced the advent of the 'Final Battle', this being the part when Mankind 'takes on' the 'fallen' inorganic beings [the 'Demonic Hierarchy'], in a 'Battle of Minds'.

To find out about the 'Final Battle' check the African Wolf nagual's book called: 'Cry of the Eagle', by Théun Mares, 1997, ISBN 0 620 21198 9.

So, we are realising that the Yogi-Magician needs to understand the constant re-formation of the Physical Plane down to the Atomic Level, and to aid us in this task I am reminded of the words of the African Wolf Nagual Théun Mares, who makes clear the following: "... think of matter as being like the inert neutrons contained in the nucleus of the atom, and think of energy [4D 'input'] as being positively charged protons, which are also in the nucleus... then visualise the centre of this sphere as being in constant motion in such a way that, as the centre moves, the sphere redefines itself by being drawn inwards by the movement of the centre. Yet every position of the centre marks a definition of the sphere of beingness and as such can never be lost... Therefore all positions of the centre, past, present and future, exist simultaneously within the context of time. It is the constant movement of the centre that constitutes the fourth dimension, for had the centre been fixed, there would only have been three dimensions, in which case the fourth dimension and, for that matter, the evolution of awareness, would not have been possible (from 'The Mists of DRAGON LORE', by Théun Mares, 1998, ISBN 1 919792 02 3, pages 257 & 258).

Here because unwelcome objectives are being non-considered, and because nice things are being considered [nobody's 'seeking out a crime' here] the Fourth Dimension will 'spill' out 'Free Homes For Needy People' into the Physical Plane via the atom's NUCLEUS, whilst non-considered 'material' will exit the Earth-Plane via the ELECTRONS [or vortex 4D 'rips'] in rotation about the Nucleus.

Plate 12

Here we will examine the subject of the 'Heropass' [or 'Time' itself] again, though this time from the standpoint of 'creation'. We already know that anything entering our localised time-space system must follow the sequencing of [1] East, [2] West, [3] South, and then [4] North. But then what does this all mean to the average man or woman?

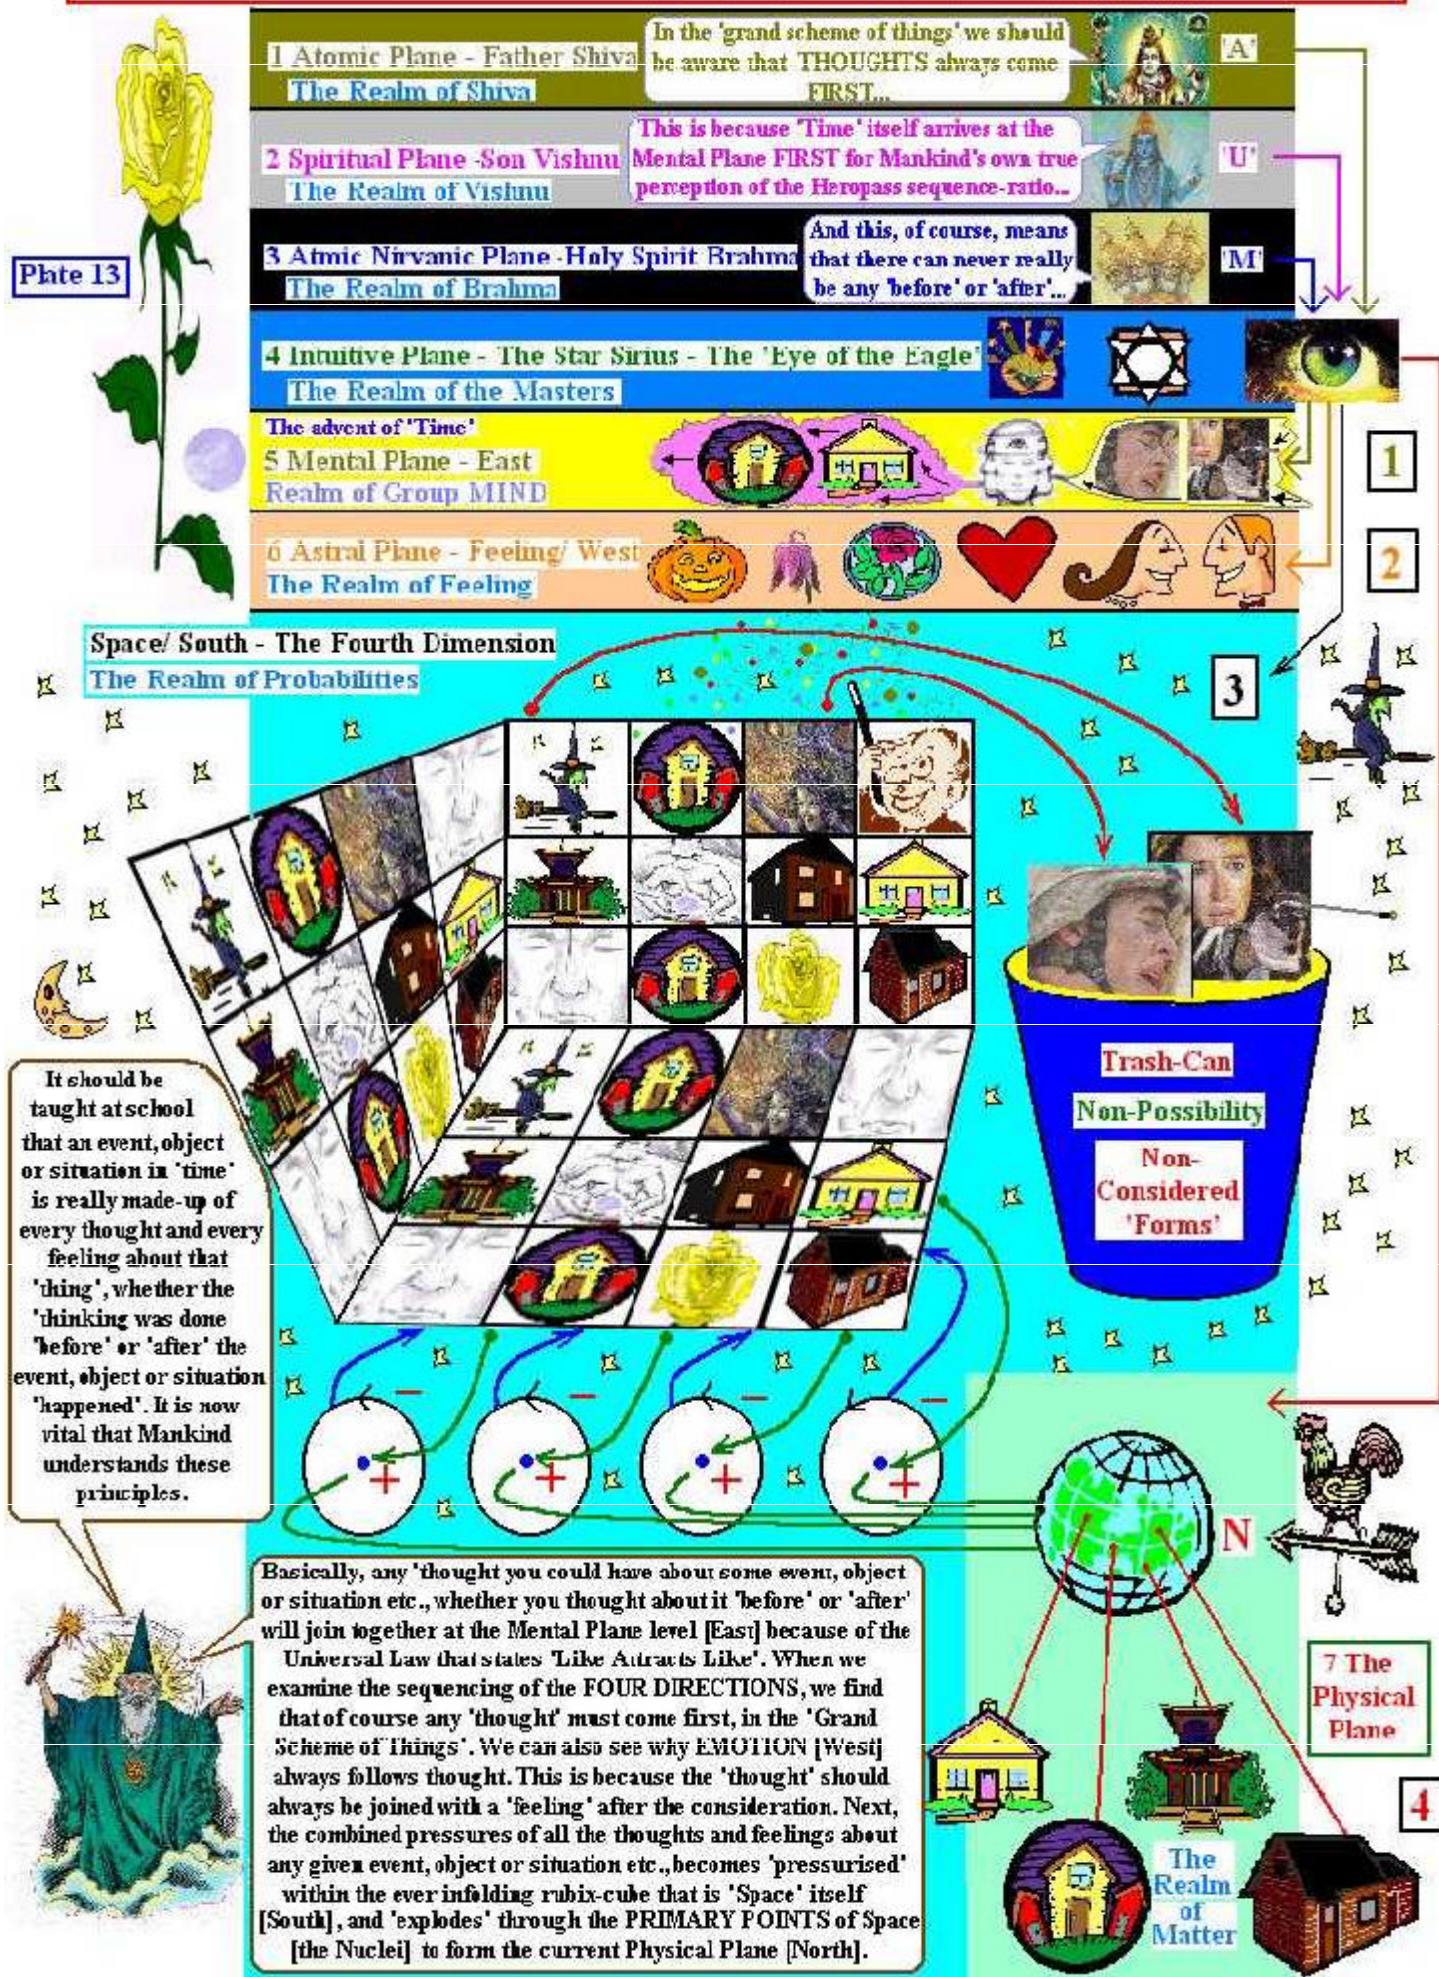

Well, the ordering of the Four Directions means that first comes the idea [even if it is considered 'afterwards'], second comes the feeling about the idea [which ought to be wonderful], third comes the immense 'pressure' of the weight accrued in the Mental and Astral Planes which combines within the fourth-dimension [Space], and then fourth comes a 'popcorn' expansion in the Physical Plane via the 'Primary points' [Nuclei] of 'Space' itself to materialise some thing or other.

Once again, I remind the reader that this information can readily be checked. You will find the ordering of the Four Quarters in the African Wolf nagueal's book called: 'Shadows of Wolf Fire, by Théun Mares, 2002, ISBN 1-919792-04-X, and the 'popcorn' expansion' information in: 'The Nature Of Reality', by Hilarion, 1979, ISBN 0-919951-34-1.

Further information is given [down to the 'Electron' and 'Nucleus' level in: 'Invisibility', by Steve Richards, 1982, ISBN 1 85538 168 0. This is a tough book to locate, though the British Library lent me their last copy ~ thanks guys.

The 'Heropass' [or 'Time' Itself] 'arranges' the perception of events in an understandable 'sequence-ratio'. This sequencing arrives in a range of 'formats', depending upon the level of Objective Cosmological Knowledge held by the 'observer' of the sequences.

Platte 13

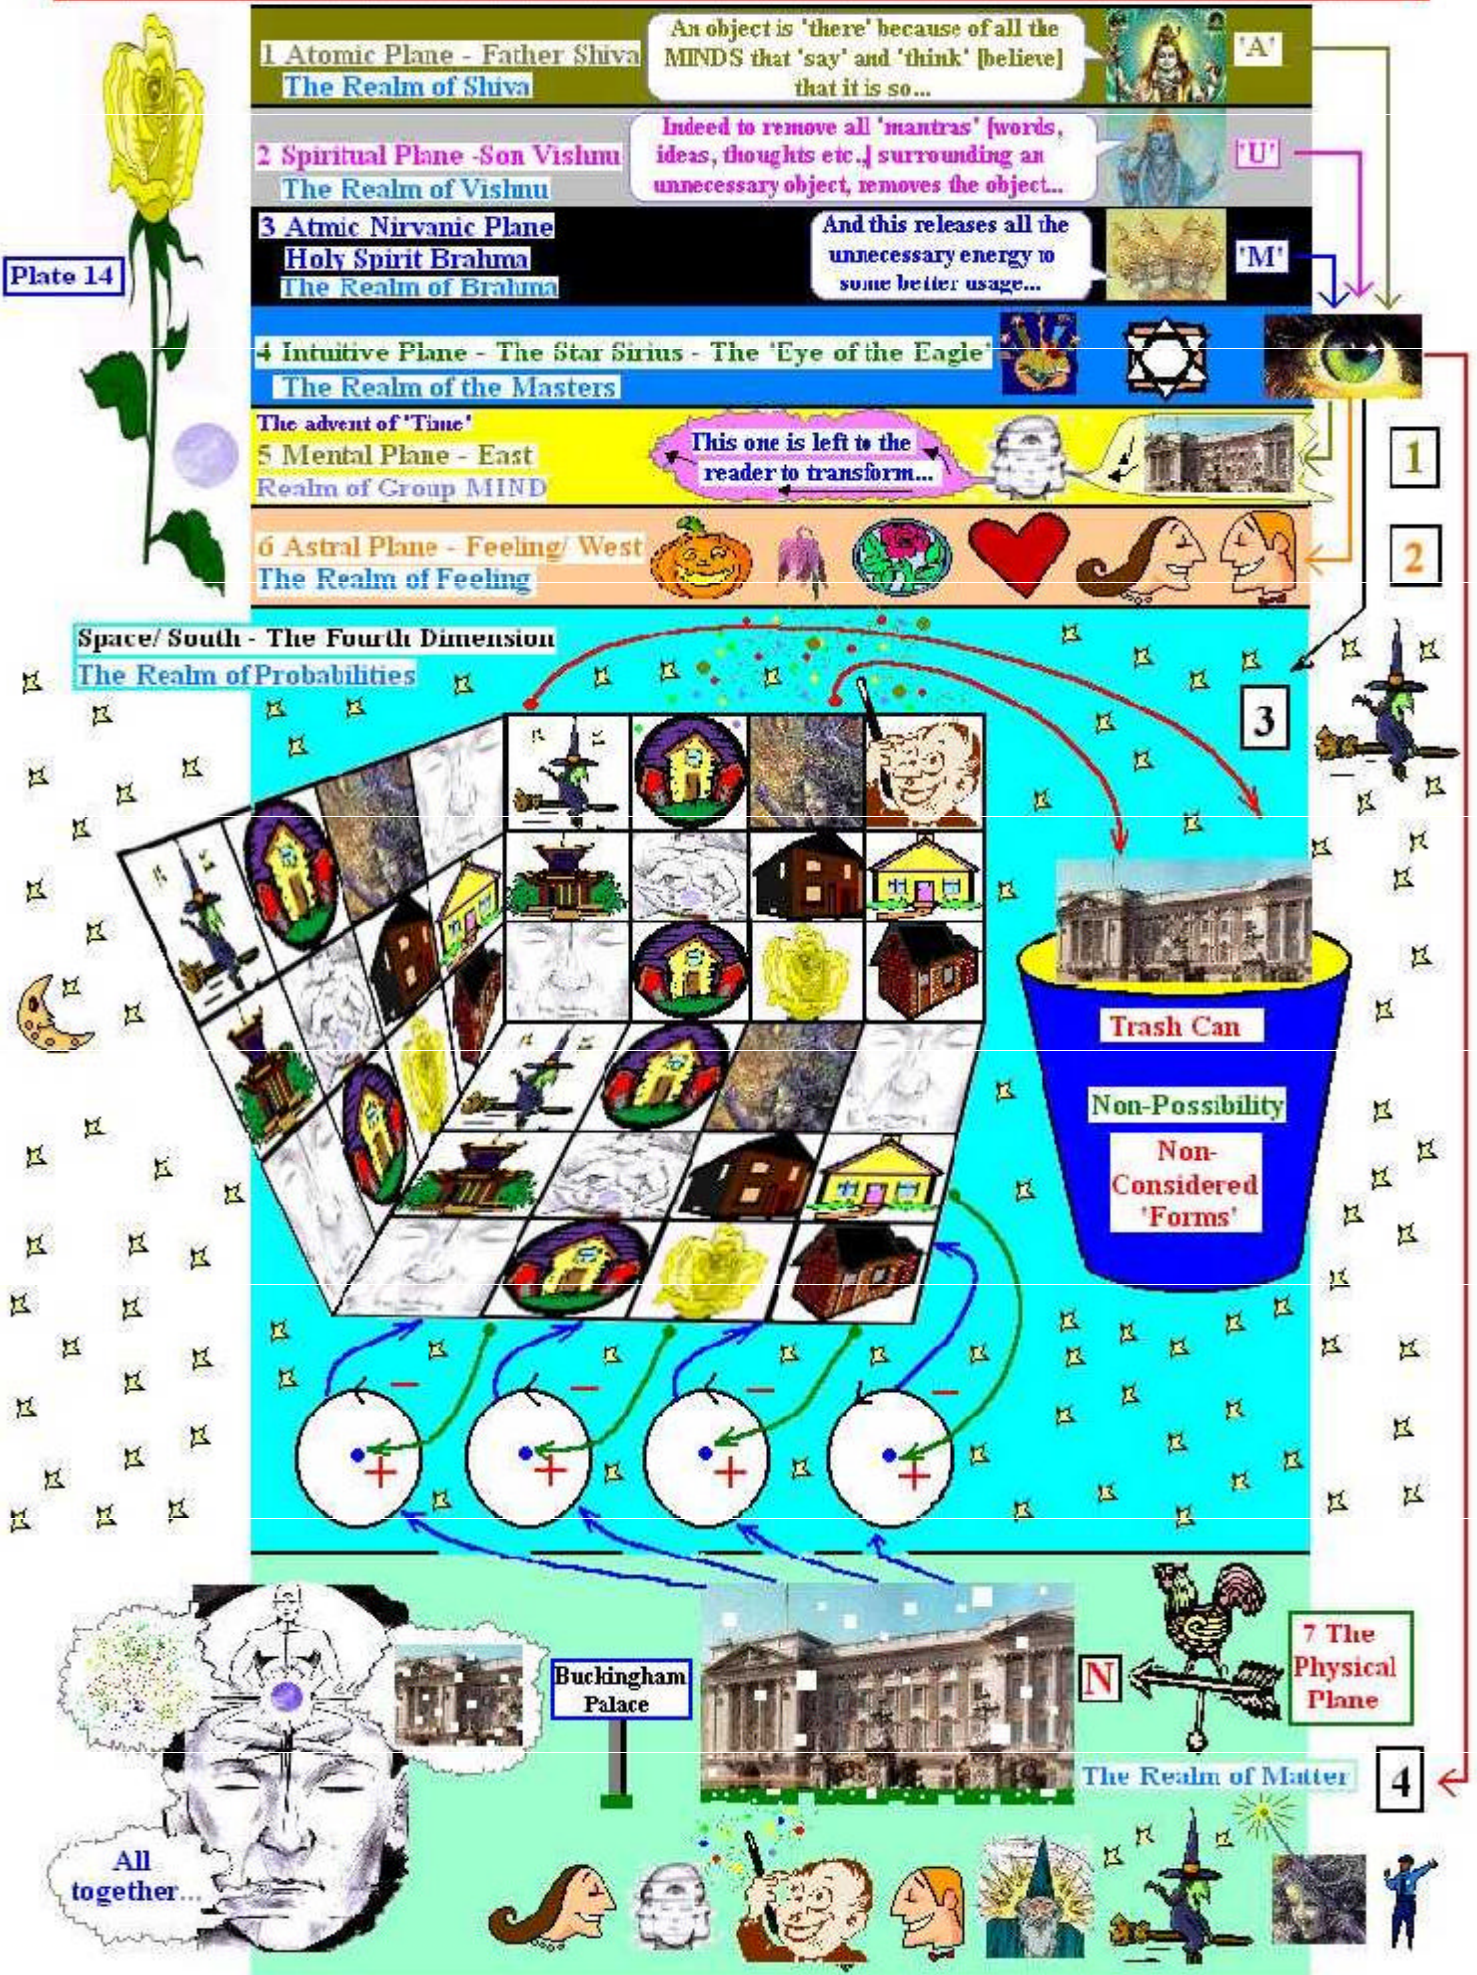

Since all 'Pranic emanations' are actually re-programmable, it naturally follows that even the largest of 'structures', is in all actuality a 'transient reality form'. And by way of example, should more than half of the 'thinking populus' of the planet Earth firmly-believe that a structure is no longer there, then such a structure will indeed no longer be there. In a way this could be argued to be a 'tricky' spell to prove, since [1] many people may well 'say' that they joined in such a 'Magical Manoeuvre', when they really didn't, and because [2] they would also have to firmly-believe in such an outcome, as much as they believed that the structure was there in the first place. Indeed, another of the founding rules of all Magic is that 'belief imparts reality', as it certainly must. So reader, what do you 'believe'?

You can find some quite fascinating material on the subject of 'Materialisation of Matter' in a book called: 'The Nature Of Reality', by Hilarion, 1979, ISBN 0-919951-34-1. This book even includes a schematic of an 'Argon Ray Projector' that can 'Materialise' [or de-materialise] a thought form in the same manner as a Master can do with just His MIND.

Using this knowledge of the ordering of the Four Quarters ~ expressed as [1] the Mental Plane, [2] the Astral Plane, [3] 'Space' itself, and [4] the Physical Plane ~ and of the functions of the NUCLEUS and ELECTRON of each ATOM in 'Space', a large object, for example, may be removed if enough people's MINDS were to JOIN IN. In this case, enough MINDS would be more than 50% of the 'populus'.

Plate 14

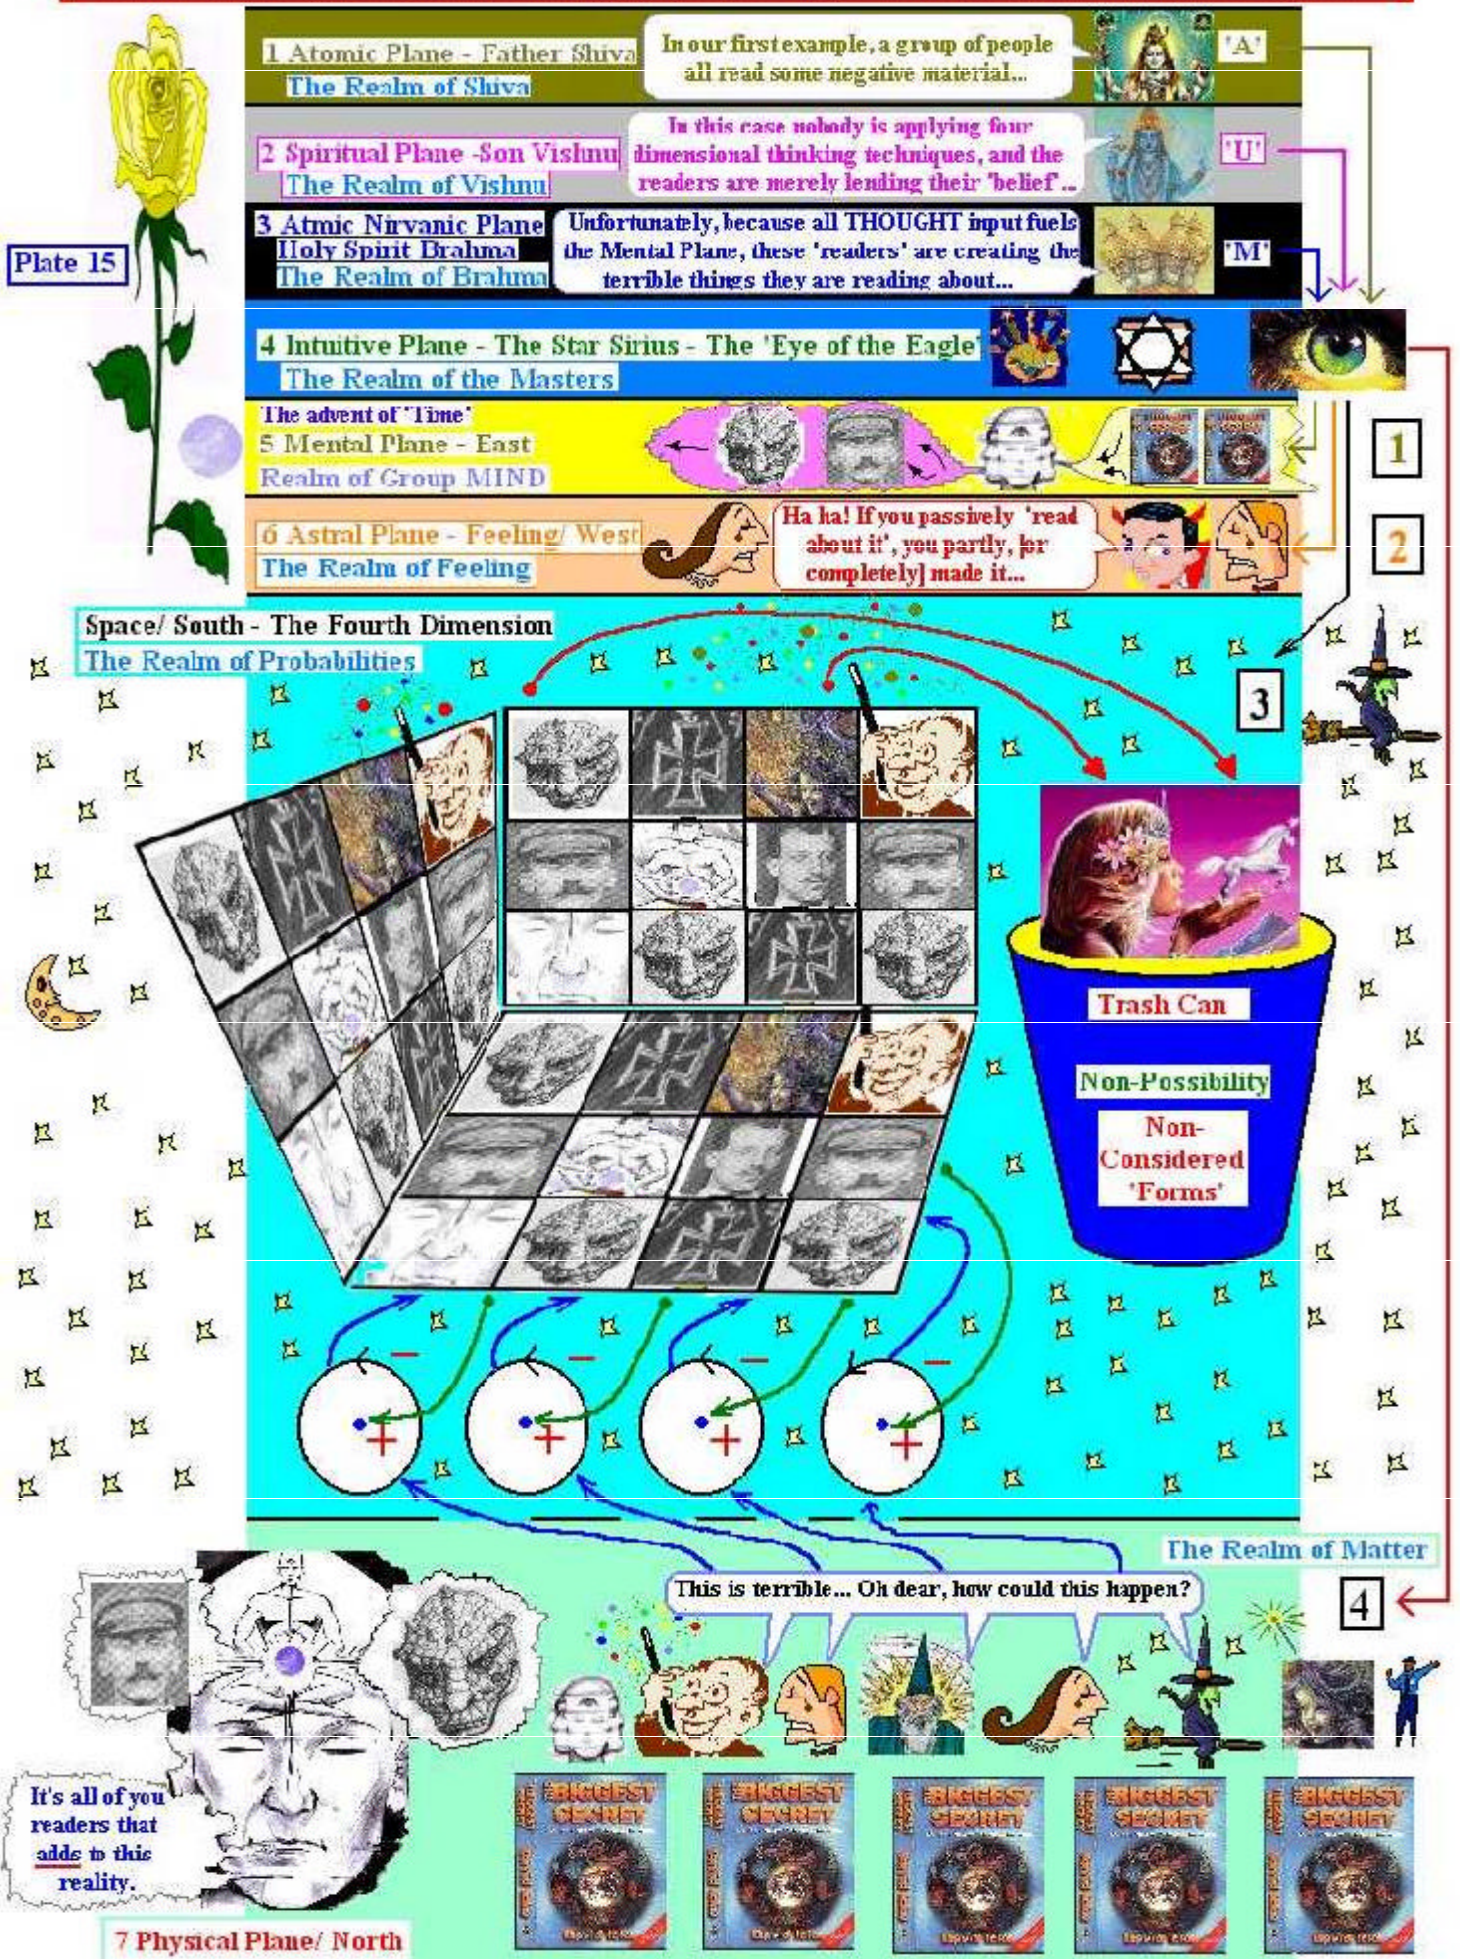

There is a great danger when 'passively' learning material from any source. Since we already know that 'belief imparts reality', and since we also know that the East [ideas] is ordered first, regardless as to whether you 'consider' such things 'afterwards', then the great danger is that the 'reader' actually 'creates' the very same things that he/ she is 'reading about'. Indeed, in this example, a large group of readers 'believes' an array of terrible 'things', and then wonders how such terrible things could ever 'come to be'. Well, sadly, part [or all] of the reason that such terrible things 'came to be' [in this example] is because of the misunderstanding of the ordering of the 'Quarters' within our localised system of time-space: and in particular with regard to the fact that 'ideas' must always come 'first'.

To read about the methods employed by the Masters when 'Materialising' a physical object read: [1] 'The Nature Of Reality', by Hilarion, 1979, ISBN 0-919951-34-1, and [2] 'Invisibility', by Steve Richards, 1982, ISBN 1 85538 168 0. To find out about the 'Ordering of the Quarters', read: 'Shadows of Wolf Fire, by Théun Mares, 2002, ISBN 1-919792-04-X. I should point out that the 'Ordering of the Quarters' was only released by the African Wolf nagual, following an injunction by the Tibetan Masters Themselves in 2002. Prior to this date the subject was forbidden to be 'put in print'.

So now we can see that physical reality is a perceptual time 'sequence-ratio', which is made-up from relatively 'timeless' mental input, astral characterisational input, spatial input, and physical input. To learn more, let us take a look at the first of two examples of reading some negative subject matter. In our first example, we see how reading passively actually lends SUPPORT to the material studied.

Plate 15

In this Plate, the very same negative subject matter is learned about, however, this 'time' the 'readers' REMOVE any personal/ group input from the subject matter whilst it is being learned, which rapidly alters the structure of the fourth-dimension. In this manner, the reader's karma is corrected, and the Physical Plane is re-programmed due to a new 'atomic blue-print' immediately. In fact, here, the 'reader's' only interest in the subject matter is to remove it from Universal space-time, or to put it in another way, to 'disbelieve the material into a state of non-possibility'.

Be aware that one of the founding rules of all Magic is that "Belief Imparts Reality". Indeed, this is one of the main methods 'employed' by the current [c. 2004] black magickal 'aristocracy', when they 'took Mankind's belief'.

And now, in our second example of reading some negative subject matter, we will apply our newly-learned four dimensional 'thinking' techniques, and we will read the same book. Bear in mind that sometimes negative subject matter needs to be learned, but that such matters should never be fuelled in the process. In this second example, any 'fuelling' of the subject matter is removed as it is read about.

Plate 16

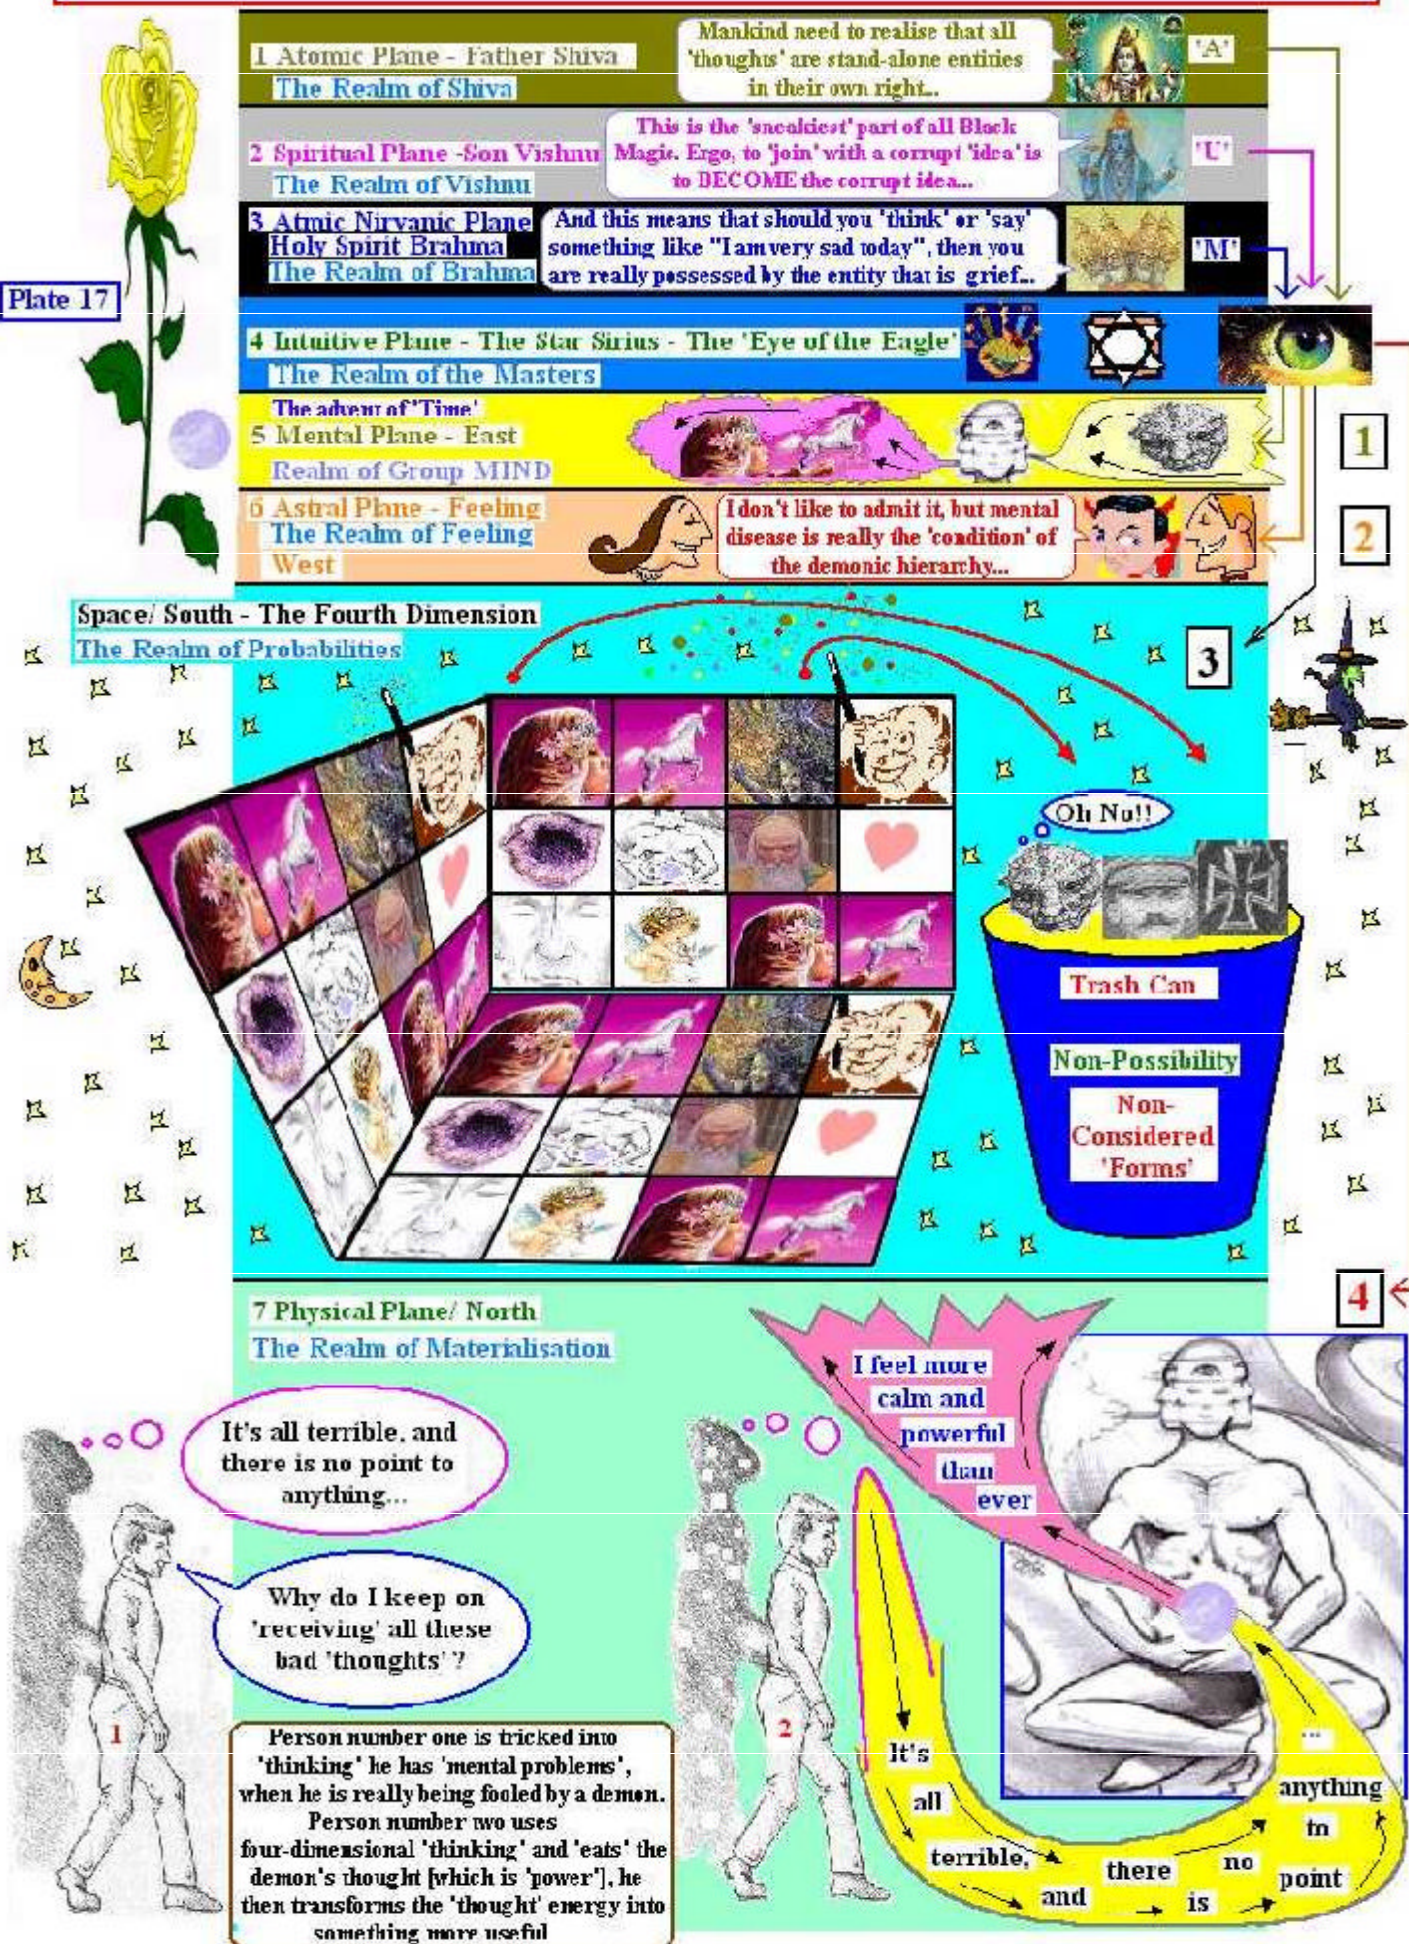

What Mankind calls 'mental disease' is nothing more than a 'spirit overlay' within the damaged aura of an afflicted soul. In cases like this the demon-energy [spirit] sneakily places 'bubbles of negative ideas' about the 'thinking locale' of the host man or woman. This kind of 'thinking' is 'sneaky' on the part of the demon, as it says to itself something like, 'I'll just place a silly bubble of thought about the mind of this person in the genuine hope that they will ignore it and become much stronger as a result of my excellent test'.

Indeed the very same technique is employed by freemasons and solo devil-worshippers alike as a part of their program of social 'control'. Of course, once again there is actually no bad karma accrued by the demon/ black magician employing such 'techniques', since they really were 'hoping' that the poor victim would 'pass the test'. However, since we are told in any psychology manual that at least 7 out of ten people never make it as far as 'objective reason' [realising that ideas are as alive as us, and are not us], what often happens here is that the poor victim falls for the terrible karma of 'considering' such a silly idea in the first place. More-so this kind of 'thought' is actually a 'spell' in itself, and so we find that because of the true ordering of the Four Quarters of this localised area of time-space that a large part of the reason that the poor victim was 'mad' 'before' was that so many 'stories' were told about their 'condition' afterwards. Something for 'Psychiatrists' to 'consider'.

In this instance a line from one of the Tibetan Lama manuals by the Master Djwhal Khul springs to mind, who informs the reader: "If man only realised it, the devas of the Astral Plane at present very largely control what he does and says, and his goal of evolution is to liberate himself from their control in order that he, the real Ego or thinker, may be the dominating influence. If the man is controlled by them, he is as yet under deva influence, and must free himself. If the deva life is of a low order, the man will demonstrate low and vicious instincts, and desires of a vile calibre" (from 'Ponder On This', a selection of writings by Alice A. Bailey and the Tibetan Master, Djwhal Khul, ISBN 0-85330-131-X, pages 76 ~ 79).

Mankind should also be aware that what Mankind calls 'mental disease' is nothing more than a collection of four-dimensional 'spells' surrounding the totality of the person in question. A good step forwards here, would be to employ four-dimensional 'thinking' techniques to remove such auric 'clutter'

Plate 17

The 'Law of the Backlash' is a most interesting premise, and is also an extremely important facet of all Magic. This 'Law' states that whatever is put out from a single or group MIND and directed towards some other person, situation or event, etc., etc., will be re-bounded straight back towards the originator sooner or later to the power of three. And so in the case of a helpful 'spell' on your part, the 'Backlash' would be that three nice things happening to you sooner or later. In the case of a nasty spell [that was ill-founded, and karmically undeserved] the result would be three nasty spells placed about your auric totality. And yet, sometimes even the White Yogi finds him/ herself in a 'tight spot' and needs to 'vanish' some probability using four-dimensional 'thinking', and whilst hopefully maintaining the best karmic outcome possible. A good example here would be removing the probability of anybody 'looking up' as you walked past a window at a certain time, and replacing the removed energies with healing-energies-for-all-concerned. In this instance, whilst a black Yogi might be able to karmically backlash you, and stop you from 'looking up' at a certain time as well, you could only be healed in the resulting process. Etc., etc.

The 'Law of the Backlash' is so vitally important, that should the aspiring Yogi-Magician not understand this premise, then he/ she is in serious danger of 'spelling' themselves literally to death by way of the repeated 'Backlashes'. Should you wish to learn about this Law more, then check a book called: 'The Book of Divine Magic', by the White Master Omraam Mikhaël Aïvanhov ISBN 1-895978-16-5, you'll find this information in Chapter 11).

One of the founding rules of all Magic is called 'The Law of the Backlash'. This Law states that **HOWEVER** you 'spell' against any person, object, situation, event., etc., etc., that you will receive 'that which you put out' multiplied by three times. For example, should you attack some person mentally, then you can expect three people to attack you back. And yet this information is actually very helpful...

George, would you do some extra work this weekend?

Oh George, would you carry lots of heavy things for me?

IDEA

I have it! What if I remove ANY UN SPIRITUAL ENERGY THAT COMES OUT OF THIS IDIOT'S MOUTH OR MIND, and put back EQUALLY SHARED WEALTH FOR ALL OF MANKIND. In this way the 'Backlash' actually helps me!

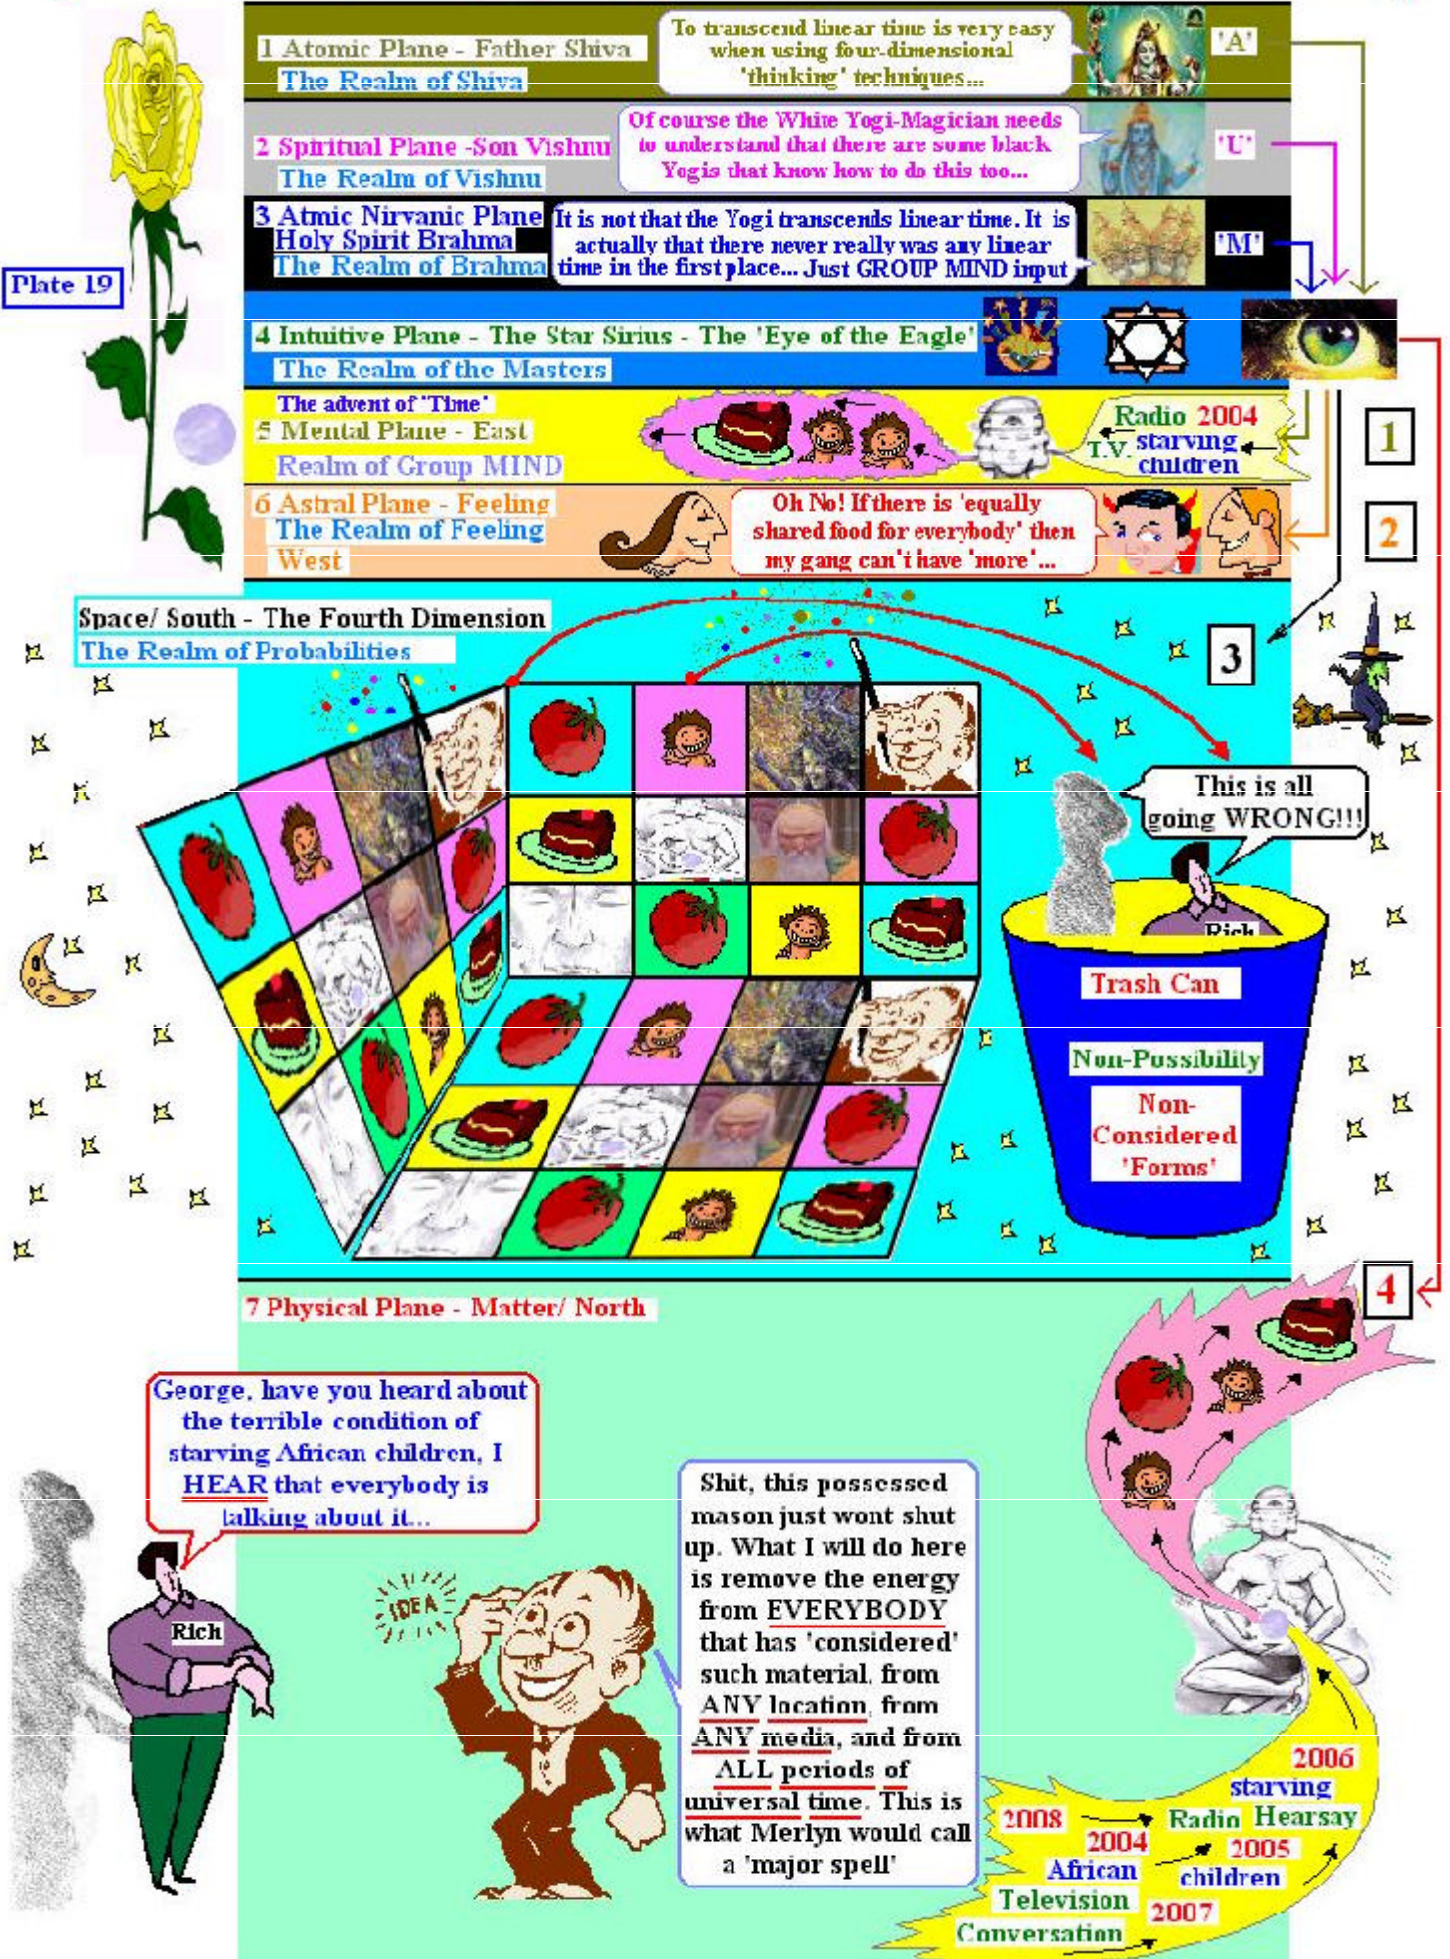

Sooner or later the aspiring Yogi-Magician figures out that groups of 'Pranic' energies may be removed throughout all periods of linearly-perceived 'time'. A good example here, would be removing any masonic death spell 'about your auric totality', from any date, location, era, etc., etc., and then putting all of this energy to some better usage, employing four-dimensional 'thinking'. In the example Plate, George restructures a large group of 'Pranic' energies into free-homes-for-needy-people which would, of course, be a karmically excellent manoeuvre. Of course, the White Yogi should also be aware that some of the black magicians he/ she is dealing with, know about this kind of a spell too. And this means that sometimes the White Yogi still needs to remove a 'spell' throughout all periods of linearly-perceived 'time' again and again because somebody else is 'putting it back'.

To learn about the true nature of the 'Heropass' [the entity that is currently being 'Time'], then check: 'Beelzebub's Tales to his Grandson', by the White Master G. Gurdjieff, 1950, ISBN 0 7100 1479 1. You'll find this information in Chapter Sixteen, which is called 'The Relative Understanding of Time'. More-so, to read about how the Demonic Hierarchy attempted to 'short-circuit time', check: 'The Urantia Book', ISBN 0-911560-50-5, paper 53, pages 601 ~ 620). This book is the real 'Bible' and was written by a selection of Archangels and other Major Universal Personalities in 1955. Basically, the Demonic Hierarchy attempted to 'jam time' by introducing a perverted language system that 'created before's' by 'intoning them afterwards'.

A popular phrase in Magic states that "sooner or later the Yogi-Magician's MIND starts to transcend linear notions of time". All this becomes possible when the Yogi-Magician starts to design his/ her 'thinking' throughout all periods of time, as we can see in the example below...

Plate 19

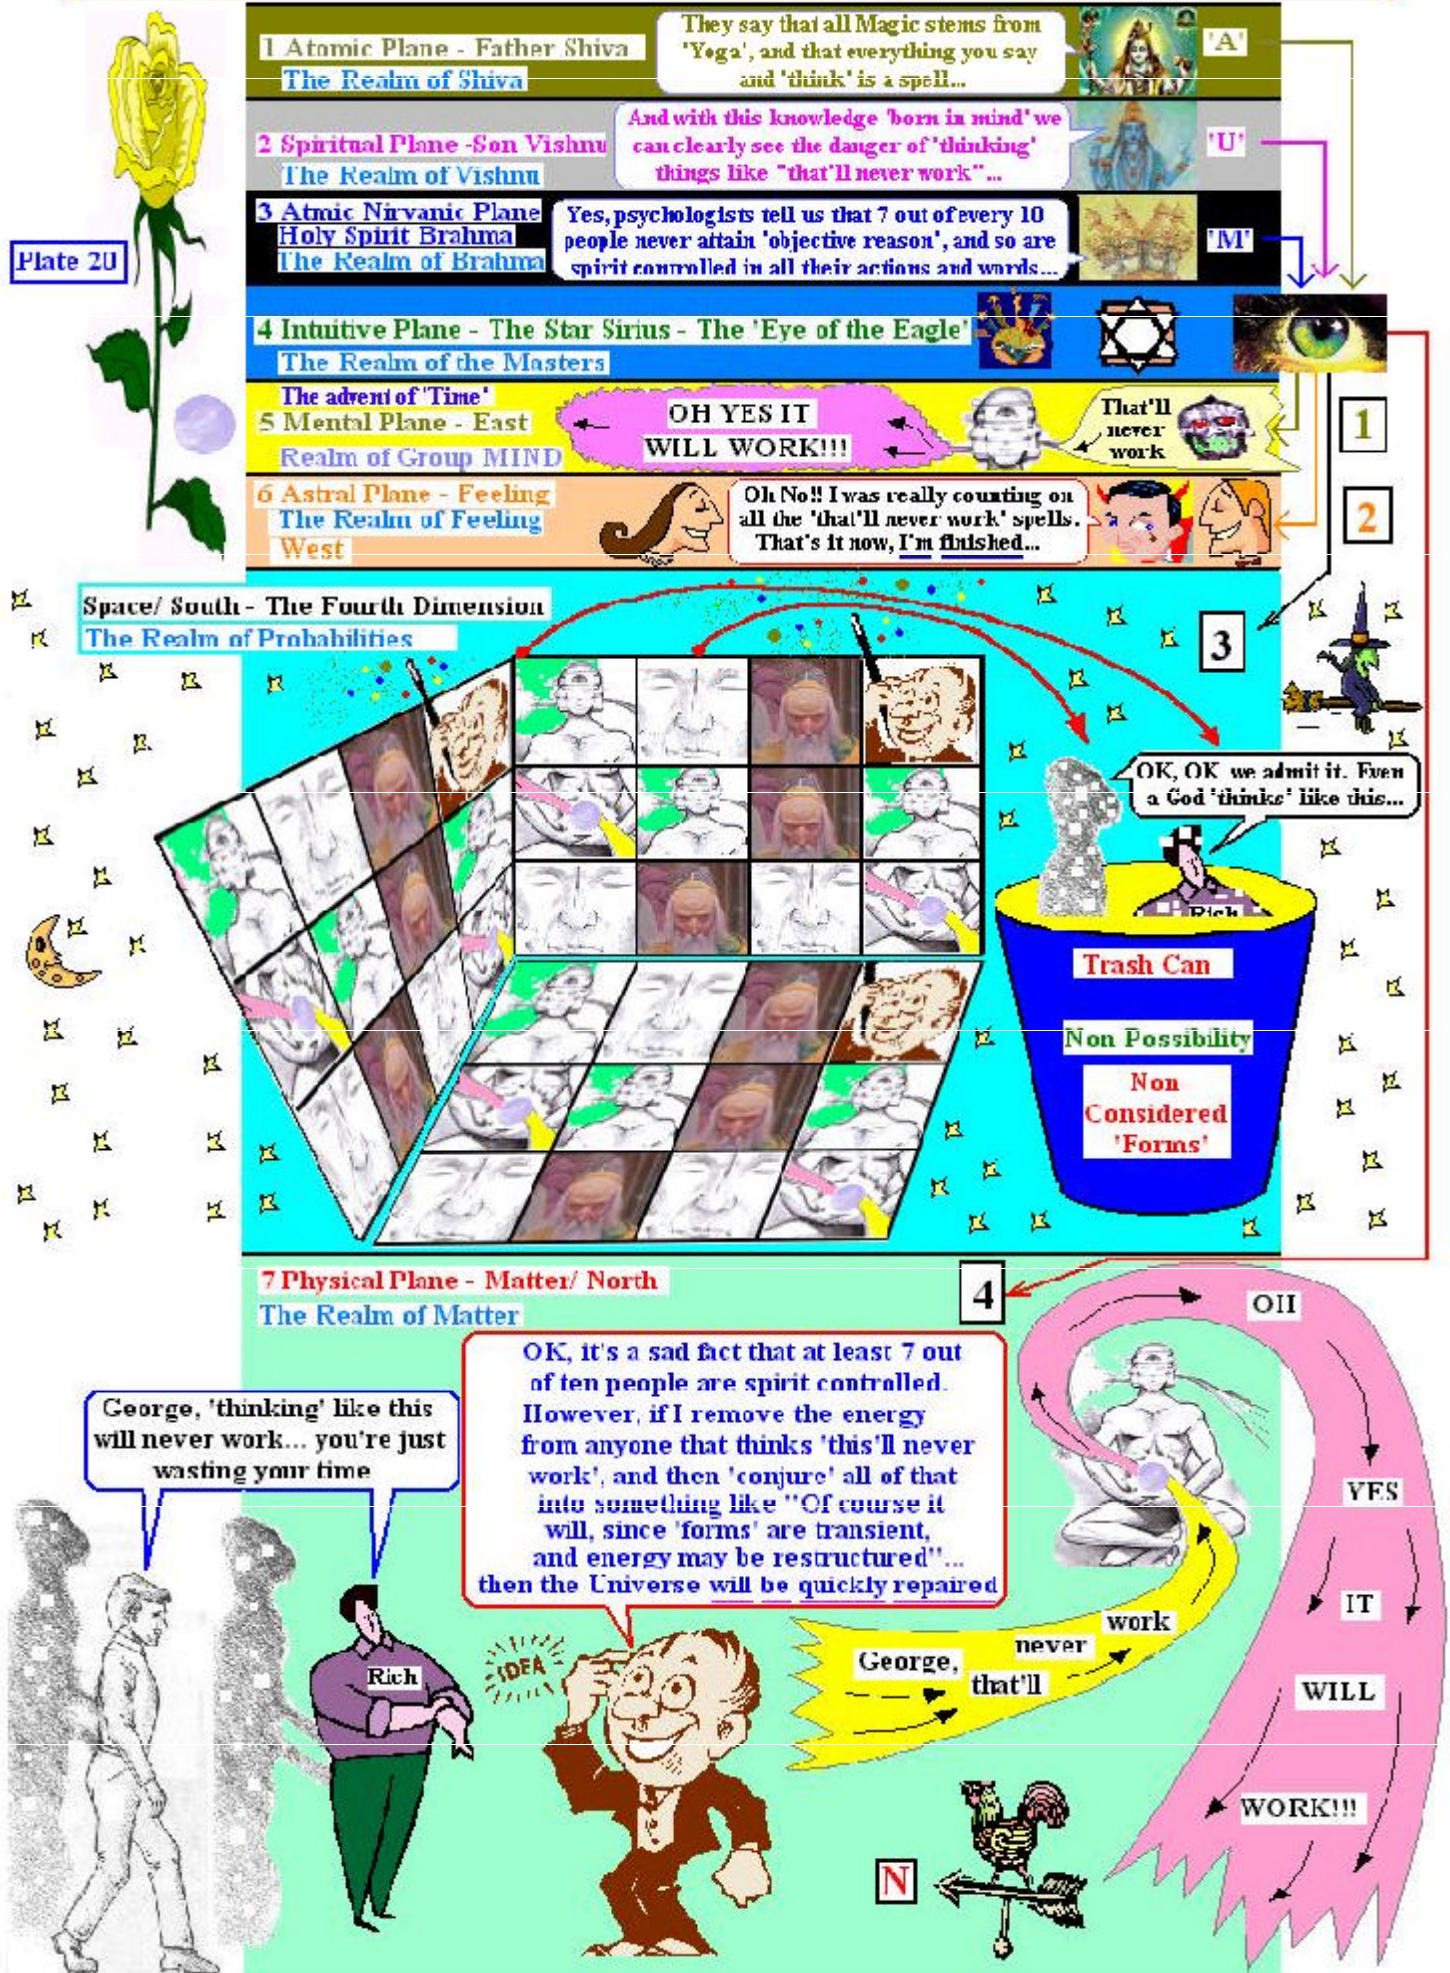

If a psychologist informs us that 0.002% of Mankind rises to the level of 'objective reason', then as 'The Final Battle' approaches between Mankind and the Demonic Hierarchy, we can expect to find at least 1998 out of 2000 people possessed with the entities that are 'being' [1] "that'll never work", [2] "what's the point", [3] "me... I'd rather have another lager than actually 'think' about an important issue", [4] "that writer called Juan Grau is as 'mad as a hatter'", etc., etc. Of course this is all the fabled 'Final Battle' really is. However, in terms of four-dimensional thinking, all this is, is a good supply of 'Pranic' energies to be immediately restructured into something more useful. Examples here would be people removing the Pranic energies of this kind of utterance, and re-programming it into something like the-advent-of-a-new-and-wonderful-world. It really is as easy as this.

To find out about the approaching 'event' known to Lamas, Toltecs and sorcerers alike as the 'Final Battle', check the African Wolf nagual's book called: 'Cry of the Eagle', by Théun Mares, 1997, ISBN 0 620 21198 9. You'll find a section on the 'Prophecies of the Nameless One' on pages 388 & 398. Oh, and to find out about the fabled 'Twenty Plus One', those English Freedom Warriors that have now been instructed to teach the 'thinking system of the sorcerer' to Mankind, check either [1] 'The Lost Books of Merlyn', by Douglas Monroe, 1998, ISBN 1-56718-471-5 or, if you are lucky enough to have a copy you can check the British Tiger Party version of 'The Body of the Dragon'

OK, OK, I am including a short section on the 'Prophecies of the Nameless One' as Part Three of this work. You will find one called 'The Last Battle', another called 'The Cry of the Eagle', and a third by the Tibetan Lama Master Djwhal Khul called 'Dark Forces'. The entry on 'Dark Forces' makes clear exactly who the two 'top' groups of six dark sorcerers who got Mankind into this temporal 'jam' are. I say it's pay-back 'time'.

One of the first 'counter-techniques' that is expected to be employed by the fallen thought-forms [the 'Demonic Hierarchy'] is a barrage of thoughts to convince Mankind that four-dimensional 'thinking' techniques will never work. To counter this attack, all that is required is to recycle the electrical energy of such thoughts into something like "Of course four-dimensional thinking works..."

Plate 20

Of course if all of Mankind was to learn about and practise these four-dimensional 'thinking' techniques, then a large assault on the 'holders' of all of mankind's stolen 'Pranic' energies could be undertaken. And, to this 'end' we find in J.J. Hurtak's 'The Book of Knowledge ~ The Keys of Enoch' that the demonic hierarchy 'hang out' in the Astral and Mental Realms inside of the star bodies known as [1] Ursa Major, [2] Ursa Minor, [3] Thuban, and [4] Polaris. Of course this is all very interesting, and it is postulated here that one excellent usage of four-dimensional thinking would be to remove all of these stolen 'Pranic' energies, and then to re-rout it all back into [1] Mankind, [2] the Planetary Bodies in our time-space system, [3] people you see that are looking 'tired', etc., etc. Indeed not to do this with the knowledge you have just been imparted with, would amount to being possessed by 'apathy' and 'disbelief', which, of course, are two more demonic thought-forms seeking to rob you of your 'being-time'...

J.J. Hurtak's 'The Book of Knowledge ~ The Keys of Enoch' is a very technical working, which explains the various Realms of Being down to the Atomic Level. If you want to check out the location of the 'Demonic Hierarchy' for yourself, you'll find this information given in the Introduction Section. And should you want to get yourself a copy, the ISBN is

09603450-4-3

Ursa Minor
Polaris

The fallen thought-forms known sometimes as the 'Demonic Hierarchy' inhabit the star bodies shown below...

Of course, knowing where a vast reserve of 'stolen human energy' is, is all the information required to 'get it all back' ...

In fact, as George demonstrates rather brilliantly below, Mankind needs only to use four-dimensional 'thinking' to 'settle the score':.
